ProComp

The ProComp range is developed for competitive motorsport. Each formula is engineered to deliver exceptional bite, control, and durability, tailored for everything from club-level racing to TCR cars.

Achievements with ProComp Compounds

- BRSCC Fiesta ST240 Championship – Alastair Kellett, 2024 Champion
- BRSCC TT Cup Championship – Bradly Burns, 2024 Champion; Matt Luff, 2025 Champion
- TCR UK – Multiple race wins for Adam Shephard and Sam Laidlaw

ProRace

The ProRace compound is a ceramic graphite formulation offering exceptional initial bite, control, and feedback.

Designed for track days and lightweight race cars up to 1300kg, it delivers consistent, confidence-inspiring braking performance and is a proven choice for championship-winning drivers.

ProTrack

The ProTrack compound is a ceramic metallic formulation with a slightly milder initial bite than ProRace, while maintaining excellent control and pedal feel.

Perfect for light track use and sprint events, it offers dependable performance with smooth, progressive braking characteristics.

DRIVEN BY RACING

- ✓ HIGH CARBON CONTENT
- ✓ PERFECT UPGRADE FOR OEM
- ✓ IMPROVED BITE & COOLING

Our brake discs are perfect when you're looking to upgrade from the OEM component. Featuring high carbon content that provides superior strength over heavy-duty cycles on track, these discs are the perfect match when using our brake pads. The grooved pattern on the discs provide an improved bite and help to keep your brakes cool and provide maximum air flow.

Whether you're an enthusiastic track day user who demands the best from their vehicle, or a professional race team looking to gain an edge on the competition, Performance Brake Solutions has the right product for you.

All of our products are designed by racers, for racers.

The Audi TT Cup Racing Championship is one of the fastest growing grids in UK club motorsport, and is one of the official support series to the TCR UK Touring Car Championship.

After being launched in 2022 and running its first season as a series in 2023, Audi TT Cup Racing has officially gained championship status from 2024 onwards.

The AIRTEC Motorsport Fiesta ST240 Championship is a single-make tin-top championship dedicated to the popular and much-loved Ford Fiesta, one of the UK's best-selling small cars of all time, as well as being a staple of British motorsport for over 30 years. It is also an official support series to the TCR UK Touring Car Championship, making it the perfect platform for drivers to step up to higher levels of tin top racing.
