FUSINA

WE ARE BACK

WHEN DREAMS REBOOT

After a long time off the scenes, FUSINA, the motorsport equipment brand from Turin, Italy, is finally back on track. FIA homologated racing seats and harness systems join forces with the iconic set of aftermarket steering wheels, resulting in a full range of driver oriented products which blend together in something we call a culture: motorsport.

OUR MISSION

FUSINA is now on a new debut, with a 20+ products lineup which will be expanded in the upcoming years. Be a witness of history being re-imagined.

CONTENTS

01. SEATS

We provide a wide set of solutions from the most demanding FIA applications to aftermarket premium class solutions.

Page - 04

02. STEERING WHEELS

Our steering wheels are 100% Made in Italy, with premium finishing materials and stitchings, what you car deserves.

Page - 08

03. HARNESSES

Made in Italy harness systems which cover most common racing applications, with lightweight metal components.

Page - 12

04. TOW STRAPS & MERCH

Motorsport accessories and lifestyle products, to get you covered.

Page - 16

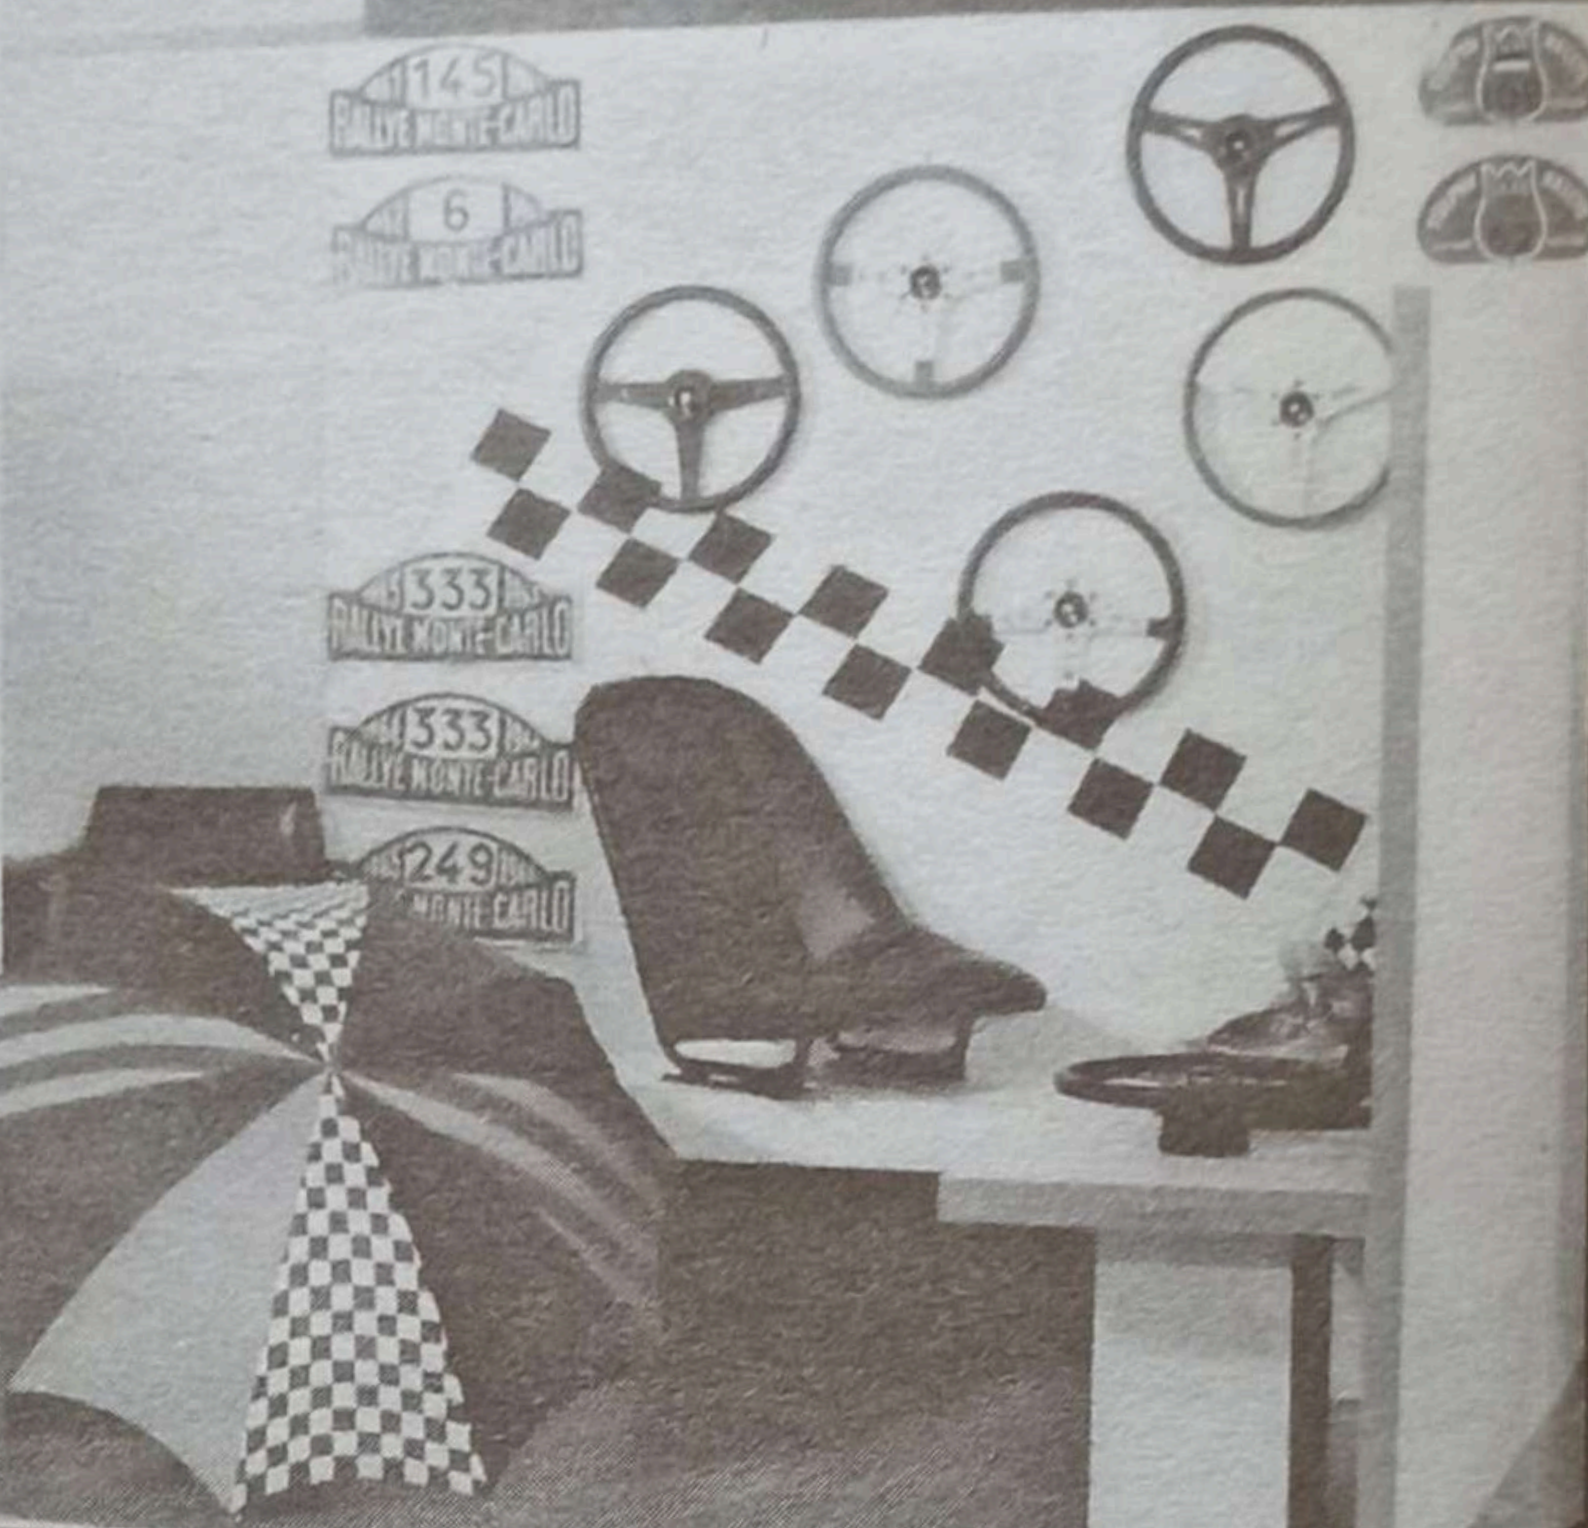

05. PREMIUM SEATS & BESPOKE

Bespoke products and premium seats are setting FUSINA in the higher standard of sportscars and racing cars personality.

FUSINA

1965 - FUSINA booth at Salone Internazionale dell'Automobile di Torino

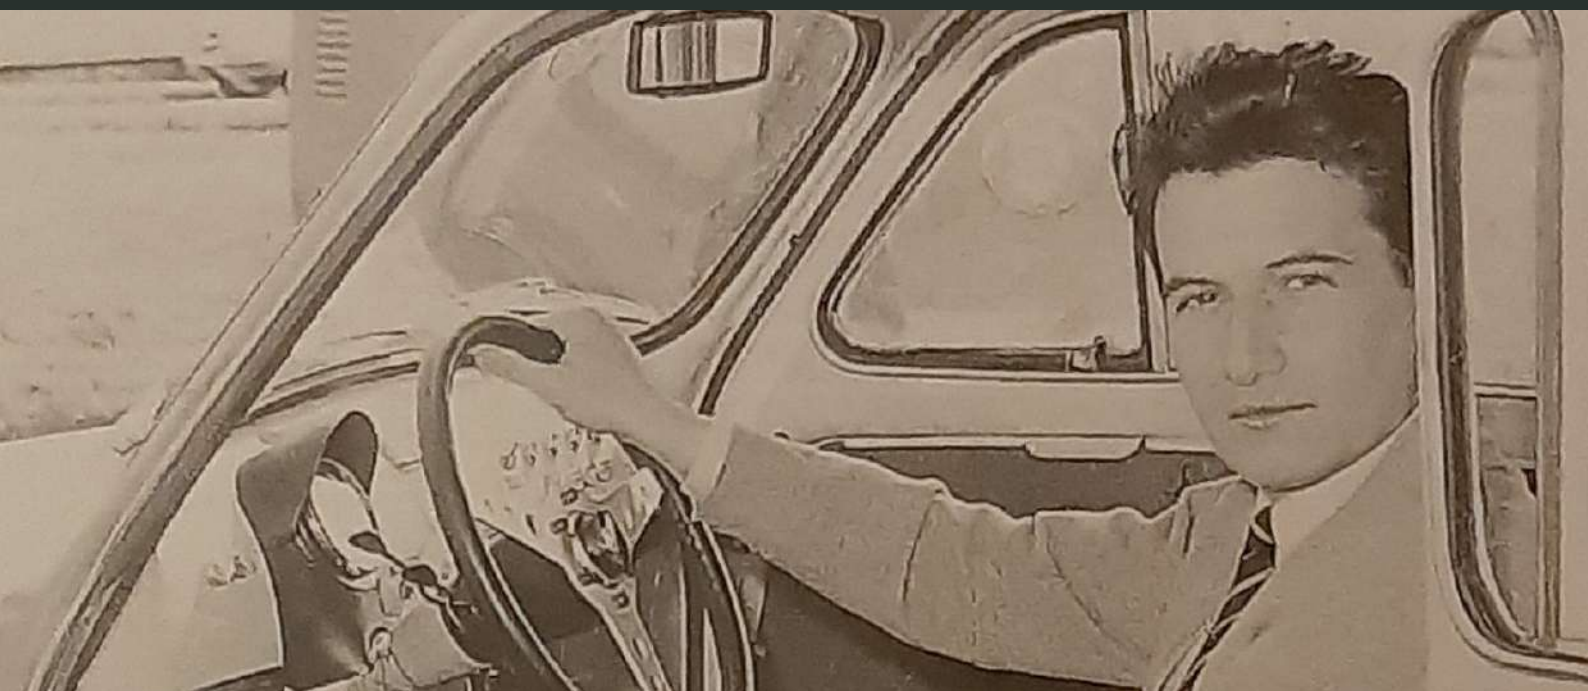

This picture represents the golden era of FUSINA, in Turin. Some of the most iconic steering wheels, the FUSINA seat from where we inspired the current Classico, and the legendary umbrella, used also from her majesty Brigitte Bardot.

Credit: Jean-Pierre Bonnotte

1967 - Brigitte Bardot with her brand new Lancia Flavia Convertible, in France

Her majesty was a well known passionate car lover, and owned several iconic sportscars, and some say she inspired the "BB" in of the Ferrari 512. She has deeply inspired many designers, with unforgettable class.

1960's - Roberto Fusina, the man who inspired us to start all over again

Roberto has been a brave entrepreneur, and despite FUSINA brand falling apart too soon for him, he had the values we have been working for. He loved motor racing, cars, and adding value to cars with great products, which is what we live for.

FUSINA

01. SEATS

Ask anyone about how a seat impacts on driving, they'll say: "yes".

Our new range of racing and aftermarket seats has been designed and engineered with this in mind. Lightweight is the driving concept, comfortable and classy is the mentality alongside that. Safety is the must.

In this section, you will find seats which vary across several FIA homologations: 8855-1999 and the recently set 8855-2021. Both homologations offer very high safety standard, with the most modern one being introduced to furtherly enhance protection for high speed competitions in all disciplines.

FEATURED PRODUCT
FUSINA Sportivo Carbonio

FEATURED PRODUCT
FUSINA Sportivo Terra

Sportivo Carbonio

The Sportivo Carbonio is the ideal choice for carbon fiber lovers who need a lightweight, high performance seat solution, covering a very wide range of vehicles. Shoulder patches allow for that extra grip in high G turns which improves driver retention. The shell of this seat is in glossy carbon fiber, adding value to vehicle interiors alongside high stiffness and low weight. **Compliant with FIA 8855-1999.**

Sportivo Club

The Sportivo Club comes in a plain velour finish and a fiberglass shell. Our entry level in the Sportivo range, but still granting high safety standards and robust manufacturing. **Compliant with FIA 8855-1999.**

Sportivo Terra

The Sportivo Terra keeps featuring a fiberglass shell, but replaces its trim with a highly durable sky, for intense off-road use and quick cleaning ability. **Compliant with FIA 8855-1999.**

Sportivo Asfalto

The Sportivo Asfalto features a fiberglass backrest, coupled with a velour trim which includes shoulder grip patches, improving driver shoulder retention and protecting from high wear use cases. **Compliant with FIA 8855-1999.**

FUSINA

Elegante

Have you ever dreamed of the perfect bucket seat?

Elegante

ELEGANTE

The Elegante bucket seat has been designed to impress you with the union of the lightweight and stiffness performance of a FIA 8855-1999 carbon fiber racing seat, while making you fall in love with the premium leather and Alcantara® trim, which offers unprecedented look and feel. **Compliant with FIA 8855-1999.**

Product Features:

- FIA 8855-1999 Homologation
- Superlight full carbon fiber shell
- Trimmed with top quality leather and Alcantara®
- Comfort padding designed for road & track usage
- Compact design, to optimize installation on tight cockpits
- Wide range of customizations available
- Designed in Italy

The Sanremo bucket seat complies with the FIA 8855-1999 homologation standard and includes head protection. The seat is covered in velour, featuring high grip shoulder patches. Safety at its highest class.

Product Features:

- FIA 8855-1999 Homologation
- Narrow head protection, higher safety and ease of installation
- Lightweight fiberglass shell, black finishing
- Trimmed with top quality velour
- Compatible with 4-5-6 points harnesses
- FHR Compatible
- Ideal for closed cockpit vehicles
- Designed in Italy

ACROPOLIS

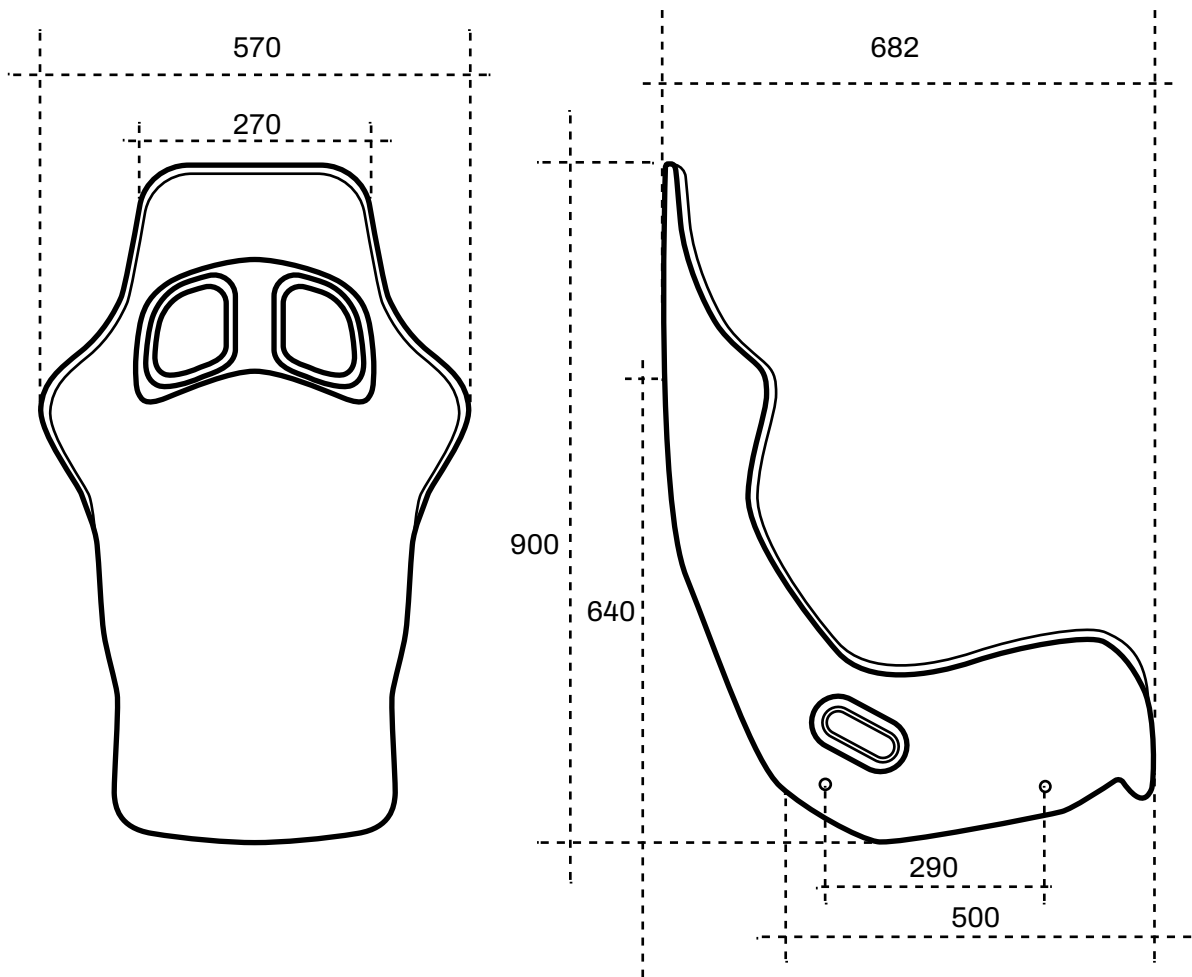

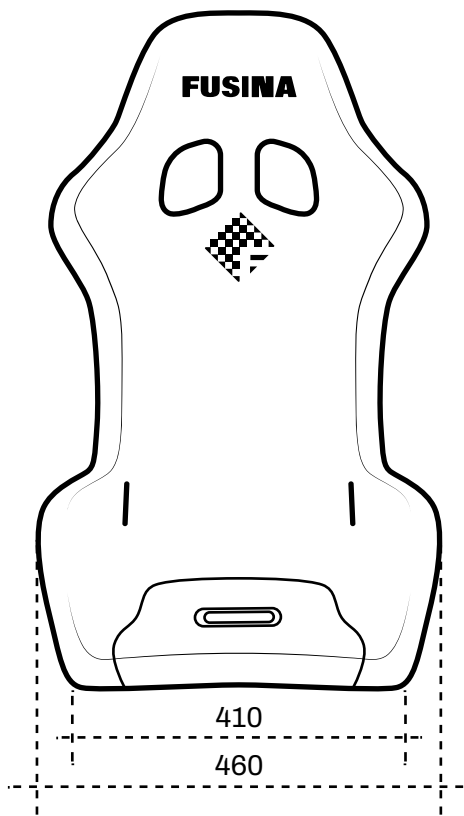

The Acropolis bucket seat complies with most recent FIA 8855-2021 homologation standard, which involves energy absorbing head protection and the most severe testing requirements in the 8855 standard range. The seat is completely covered in velour.

Product Features:

- FIA 8855-2021 Homologation
- Superlight Fiberglass shell
- Trimmed with top quality fireproof Velour
- Energy absorbing foam on headrest
- Available in three shell sizes
- Wide range of customizations available
- Ventilation hole
- 10 Years validity
- Designed in Italy

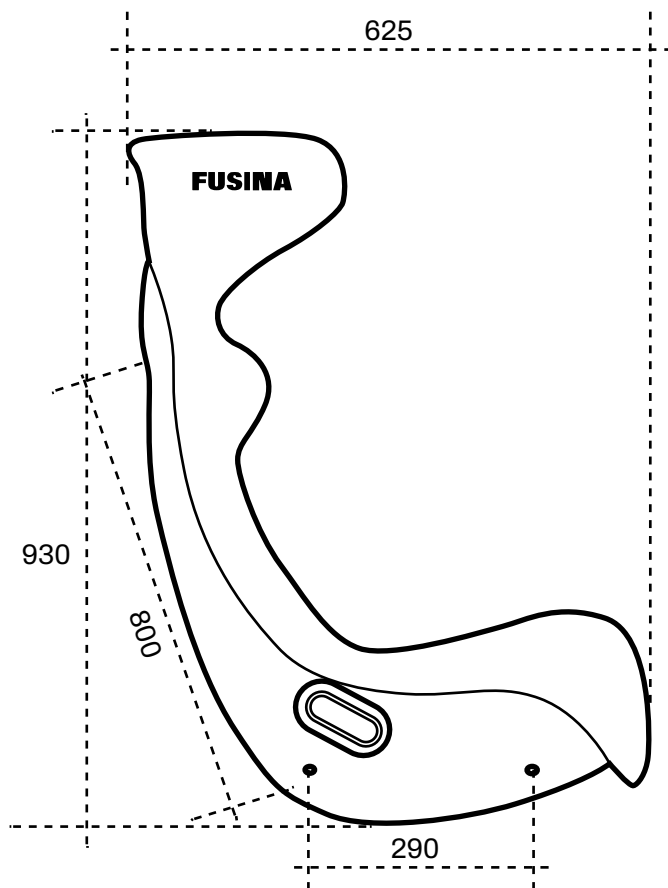

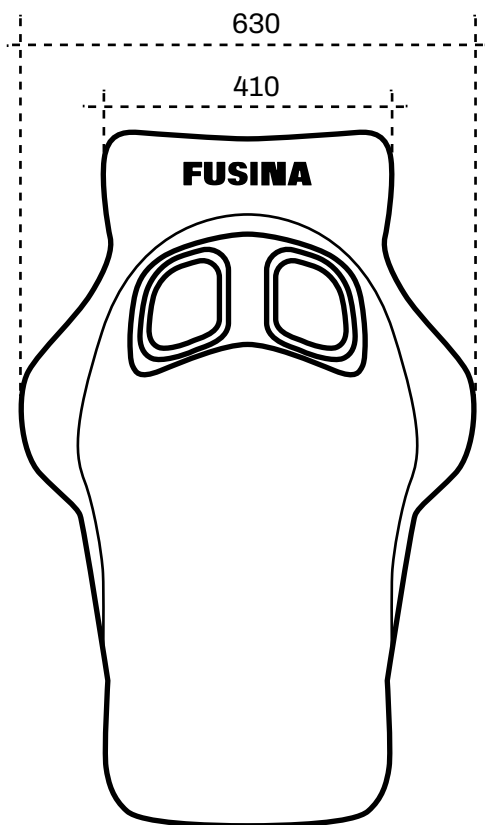

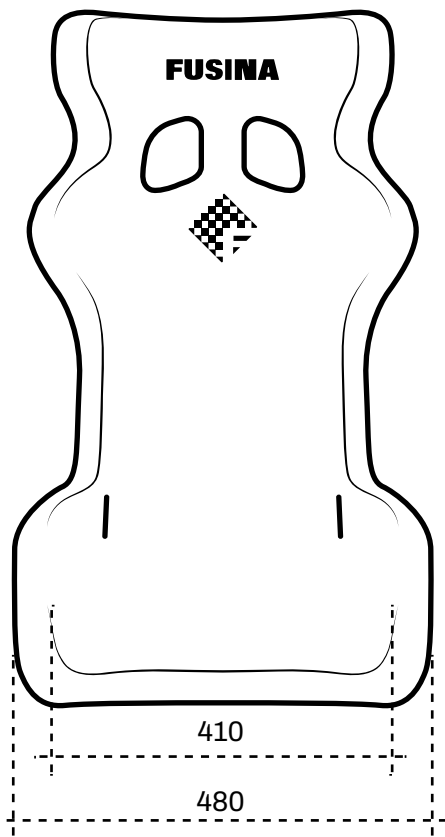

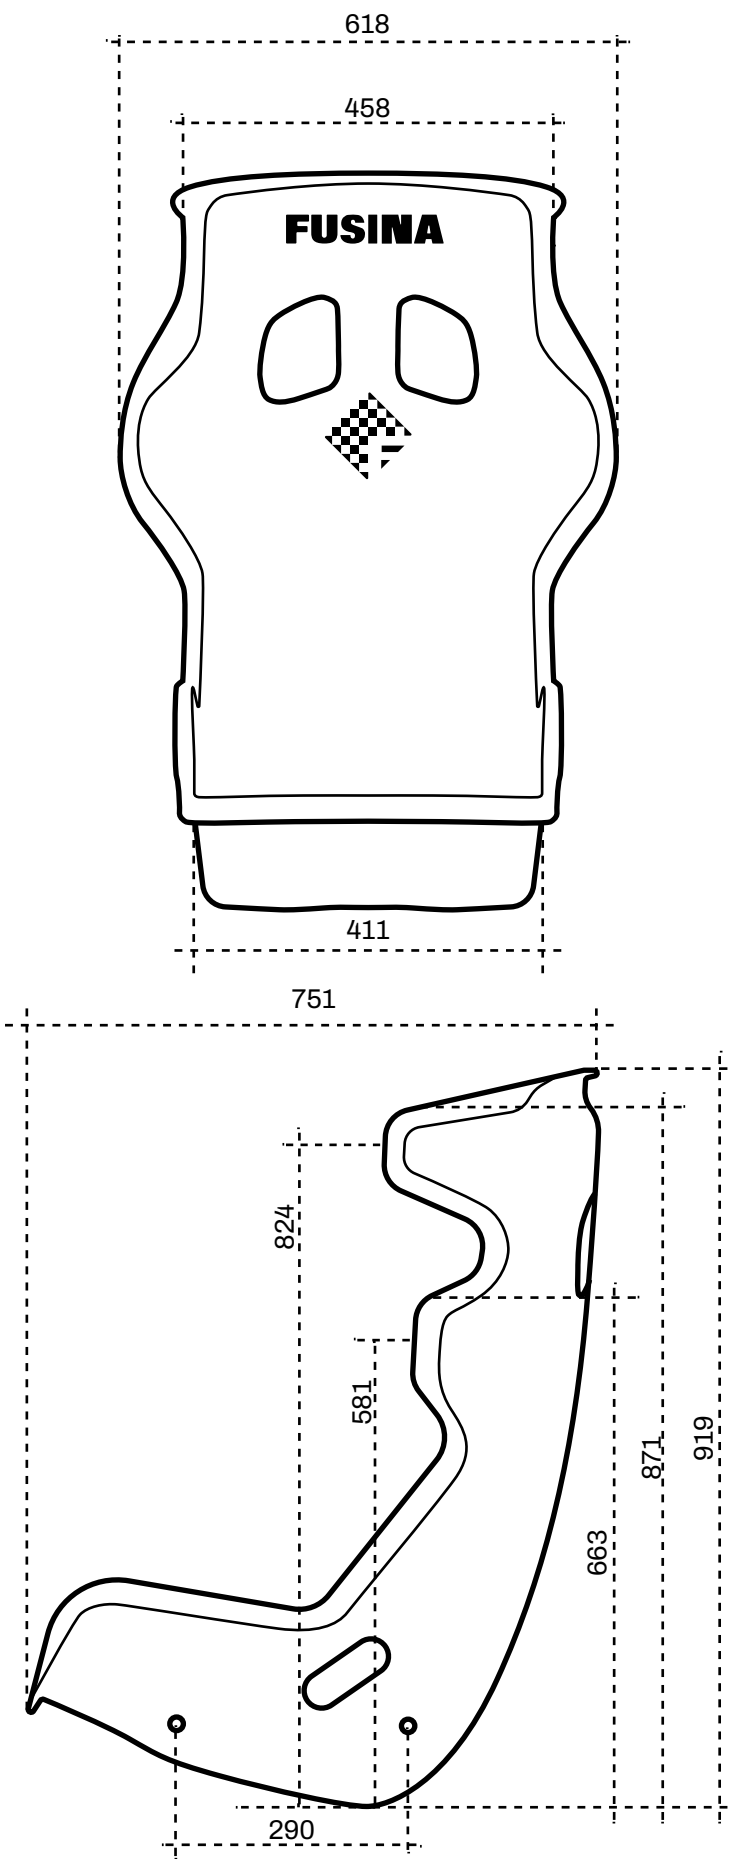

SPORTIVO SERIES

SANREMO

2026 Dakar Rally (Saudi Arabia) - Oasis Rally Team fighting the desert

Our friends at Oasis Rally Team, with the crew by Sladjan Miljic and Marcel Adelman, have fought the desert, alongside unwanted alternator and engine issues. Despite luck being far away, this is the first Dakar Rally podium for FUSINA, equipping them with a Zandvoort steering wheel and Corsa 6 points harness system.

2024 - Goodwood Festival of Speed

We had the honor to host Mr. Emanuele Pirro with a seat of ours, and protect with our safety harnesses his incredible ride at Goodwood's FOS 2024, with a Ligier JS11 Formula 1 car. The operation has been made possible thanks to Fondazione Macaluso, and their incredible historic race cars mechanics, keeping the collection alive.

2025 RAC Rally - Matt Edwards

Matt Edwards and co-driver Siôn Williams, with the Ford Escort MKII that they brought in mud and dirt, had an incredible rollercoaster of emotions (and punctures). Despite that, the pace shown has been something to never forget, flat-out FUSINA spirit.

FUSINA

02. STEERING WHEELS

Every turn deserves the best.

Our range of steering wheels will make you fall in love with driving.

FEATURED PRODUCT
FUSINA - RACING - C

FEATURED PRODUCT
FUSINA - MISTRAL

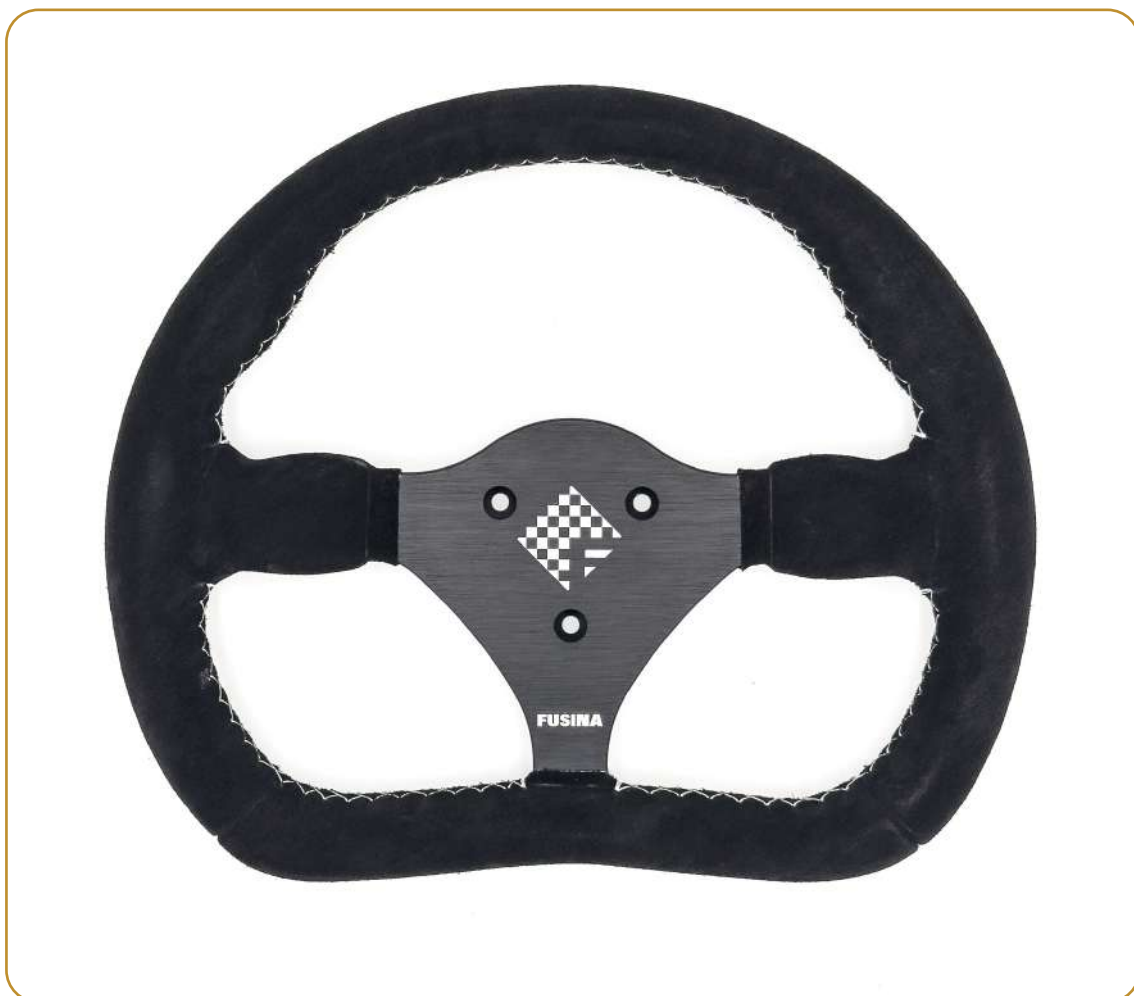

ADELAIDE

The Adelaide steering wheel recalls the challenges experienced on the Australian street circuit, which for a decade was the scene of the last stage of the Formula 1 world championship. Ideal steering wheel for sports cars and single-seaters.

Product Features:

- Three spokes aluminum frame
- D-Shaped frame, designed to increase leg room and cockpit access
- Black anti-reflective anodized spokes
- Covered with black suede
- Hand-stitched white thread
- Diameter: 270 mm
- Offset: 0 mm
- PCD: 3X50.8 mm
- Exclusive Fusina branded cover included
- Designed and Made in Italy

Donington is a tribute to one of the most important English circuits, which hosted some of the best Grand Prix for more than twenty years. Ideal steering wheel for single-seater cars, prototypes and small GT cars.

Product Features:

- Three spokes aluminum frame
- D-Shaped frame, designed to increase leg room and cockpit access
- Black anti-reflective anodized spokes
- Covered with black suede
- Hand-stitched white thread
- Diameter: 280 mm
- Offset: 0 mm
- PCD: 3X50.8 mm
- Exclusive Fusina branded cover included
- Designed and Made in Italy

LANGAN

The Langan steering wheel recalls the iconic special stage of the San Remo Rally, which has been for decades the highlight of the World Rally Championship. The steering wheel design is inspired by the most competitive racing cars of the 80s and 90s.

Product Features:

- Two spokes aluminum frame
- Black anti-reflective anodized spokes
- Covered with black suede
- Hand-stitched white thread
- Horn button with Fusina logo
- Diameter: 350 mm
- Offset: 90 mm
- PCD: 6X70 mm - Compatible with the most common hubs
- Exclusive Fusina branded cover included
- Designed and Made in Italy

The reference to the well-known Mistral straight locates this steering wheel in the period in which the most beautiful GT cars competed on the most challenging circuits in the world. Ideal steering wheel for touring and GT cars.

Product Features:

- Three spokes aluminum frame
- D-Shaped frame, designed to increase leg room and cockpit access
- Diameter: 330 mm
- Offset: 37 mm
- PCD: 6X70 mm - Compatible with the most common hubs
- Exclusive Fusina branded cover included
- Designed and Made in Italy

Monaco finds inspiration in the steering wheels also used on the Formula 1 cars of the early 1990s, where some of the most important pages in the history of motorsports were written, on the streets of the Principality. Ideal steering wheel for single-seater, sports and prototype cars.

Product Features:

- Three spokes aluminum frame
- Black anti-reflective anodized spokes
- Covered with black suede
- Hand-stitched white thread
- Diameter: 270 mm
- Offset: 0 mm
- PCD: 3X50.8 mm
- Exclusive Fusina branded cover included
- Designed and Made in Italy

The Panoramica steering wheel takes its name from the route of the same name which winds along the Turin hill, where competitions and many night-time "tests" were held in the golden years of motorsports. Ideal steering wheel for series production derived cars.

Product Features:

- Three spokes aluminum frame
- Black anti-reflective anodized spokes
- Covered with top quality natural black leather
- Hand-stitched white thread
- Horn button with logo manually enamelled by Ragni (Turin)
- Diameter: 300-330-350 mm
- Offset: 37 mm
- PCD: 6X70 mm - Compatible with the most common hubs
- Exclusive Fusina branded cover included
- Designed and Made in Italy

SESTRIERE

Colle del Sestriere has hosted some of the most important car competitions, one of the best known is the Cesana-Sestriere hill climb. This steering wheel pays homage to uphill speed racing, adapting the typical design used on prototype sports cars to the cars derived from the series.

Product Features:

- Three spokes aluminum frame
- D-Shaped frame, designed to increase leg room and cockpit access
- Black anti-reflective anodized spokes
- Covered with top quality natural black leather
- Hand-stitched white thread
- Horn button with logo manually enamelled by Ragni (Turin)
- Diameter: 330 mm
- Offset: 37 mm
- PCD: 6X70 mm - Compatible with the most common hubs
- Exclusive Fusina branded cover included
- Designed and Made in Italy

The Sisteron recalls one of the most challenging sections of the legendary Monte Carlo Rally. This product, despite being of rallying origin, competes well on the track, road and off-road (autocross, cross country, etc.).

Product Features:

- Three spokes aluminum frame
- Black anti-reflective anodized spokes
- Covered with black suede
- Hand-stitched white thread
- Horn button with Fusina logo
- Diameter: 350 mm
- Offset: 65-90 mm
- PCD: 6X70 mm - Compatible with the most common hubs
- Exclusive Fusina branded cover included
- Designed and Made in Italy

STAVELOT

The Stavelot recalls the famous Spa Francorchamps circuit, which has always been a reference track for measuring the quality of drivers and cars. Small steering wheel, ideal for small formula and prototype sports cars.

Product Features:

- Three spokes aluminum frame
- D-Shaped frame, designed to increase leg room and cockpit access
- Black anti-reflective anodized spokes
- Covered with black suede
- Hand-stitched white thread
- Diameter: 255 mm Offset 0 mm
- PCD: 3X50.8 mm
- Exclusive Fusina branded cover included
- Designed and Made in Italy

The Racing-C steering wheel is probably the most iconic 3 spokes wheel from FUSINA. The most used steering wheel on Italian sports sedans in vogue during the economic boom. The most important Turin coachbuilders have used this model to set up their custom-built cars. Available in black or silver anodized aluminum.

Product Features:

- Three spokes aluminum frame
- Black or natural anti-reflective anodized spokes
- Covered with top quality natural black leather
- Hand-stitched white thread
- Horn button with logo manually enamelled by Ragni (Turin)
- Diameter: 350 mm
- Circular grip shape: 31 mm diameter
- Offset: 37 mm
- PCD: 6X70 mm - Compatible with the most common hubs
- Exclusive Fusina branded cover included
- Designed and Made in Italy

This steering wheel takes its name from one of the circuits that hosted the most important competitions for touring cars over time. The "Zandvoort" wants to recall that golden era of racing, presenting itself as the ideal product for cars derived from the series engaged in track and road racing.

Product Features:

- Three spokes aluminum frame
- Black anti-reflective anodized spokes
- Covered with black suede
- Hand-stitched white thread
- Horn button with Fusina logo
- Diameter: 300-330-350 mm
- Offset: 37 mm
- PCD: 6X70 mm - Compatible with the most common hubs
- Exclusive Fusina branded cover included
- Designed and Made in Italy

2025 - Ultima RS - Rafael Piccoli

Our friend Rafael Piccoli - [@rafpiccoli_](https://www.instagram.com/rafpiccoli_) on Instagram, had very clear ideas when we got in touch: he wanted his Ultima RS to scream and be driven with a FUSINA Mistral, wonderfully adapted to the vehicle's electronic controls by the owner, which we supported in the making.

2025 - Minardi Days (Imola) Ombra Racing Osella PA5

One of our main partnership is with the estimated Ombra Racing family. This company has delivered one of the most solid racing stories in Italy, competing in historic racing, Porsche Cup and Supercup and the GT World Challenge. We are proudly supplying Ombra Racing with FUSINA equipment and SPEED engineering services.

FUSINA

03. HARNESSSES

Safer, in style.

We provide lightweight harness systems, covering all disciplines.

FEATURED PRODUCT
FUSINA - CORSA

CORSA PULL-UP

The FUSINA Corsa harness system is a 6-point seat belt for sedan cars. The aluminum adjusters guarantee precision while tensioning and ease of releasing the belt at the end of a stint. Ideal for circuit, road and trackday competitions. Approved according to the most advanced FIA standard. Available on request in grey, red and blue.

Product Features:

- FIA8853-2016 homologation
- 2" shoulder straps with aluminum adjusters and snap-hook/tri-bar attachment
- 2" lap straps with aluminum adjusters in pull-up configuration and attachment via snap hook/tri-bar
- 2" crotch straps, attachment via snap-hook/tri-bar attachment
- to be used in combination with FHR device
- Designed and Made in Italy

CORSA PULL-DOWN

The pull-down version of the Corsa harness system is 6-point seat belt for sedan cars, in pull-down configuration. The aluminum adjusters, which are positioned near the buckle guarantee ease of operation, speeding up driver swap phases. Ideal for endurance and club racing. Approved according to the most advanced FIA standard. Available on request in grey, red and blue.

Product Features:

- FIA8853-2016 homologation
- 2" shoulder straps with aluminum adjusters and snap-hook/tri-bar attachment
- 2" lap straps with aluminum adjusters in pull-down configuration and attachment via snap hook/tri-bar
- 2" crotch straps, attachment via snap-hook/tri-bar attachment
- to be used in combination with FHR device
- Designed and Made in Italy

FORMULA

FUSINA harness systems are Made in Italy, assembled with care, using stable and trustable materials. 6-point harness for modern and historic formula and prototype vehicles. The aluminum adjusters guarantee precision in tensioning and ease of releasing the belt at the end of a stint. Approved according to the most advanced FIA standard. Available on request in grey, red and blue.

Product Features:

- FIA8853-2016 homologation
- 2" shoulder straps with aluminum adjusters and fixing via plate/tri-bar
- 2" lap straps with aluminum adjusters in pull-up configuration and plate fixation

- incredibly eye catching to "fumne", use with caution

For those who need to protect their thoughts during icy rally days.

Product Features:

- cotton and polyester
- stitched FUSINA logo
- white/black pom pom

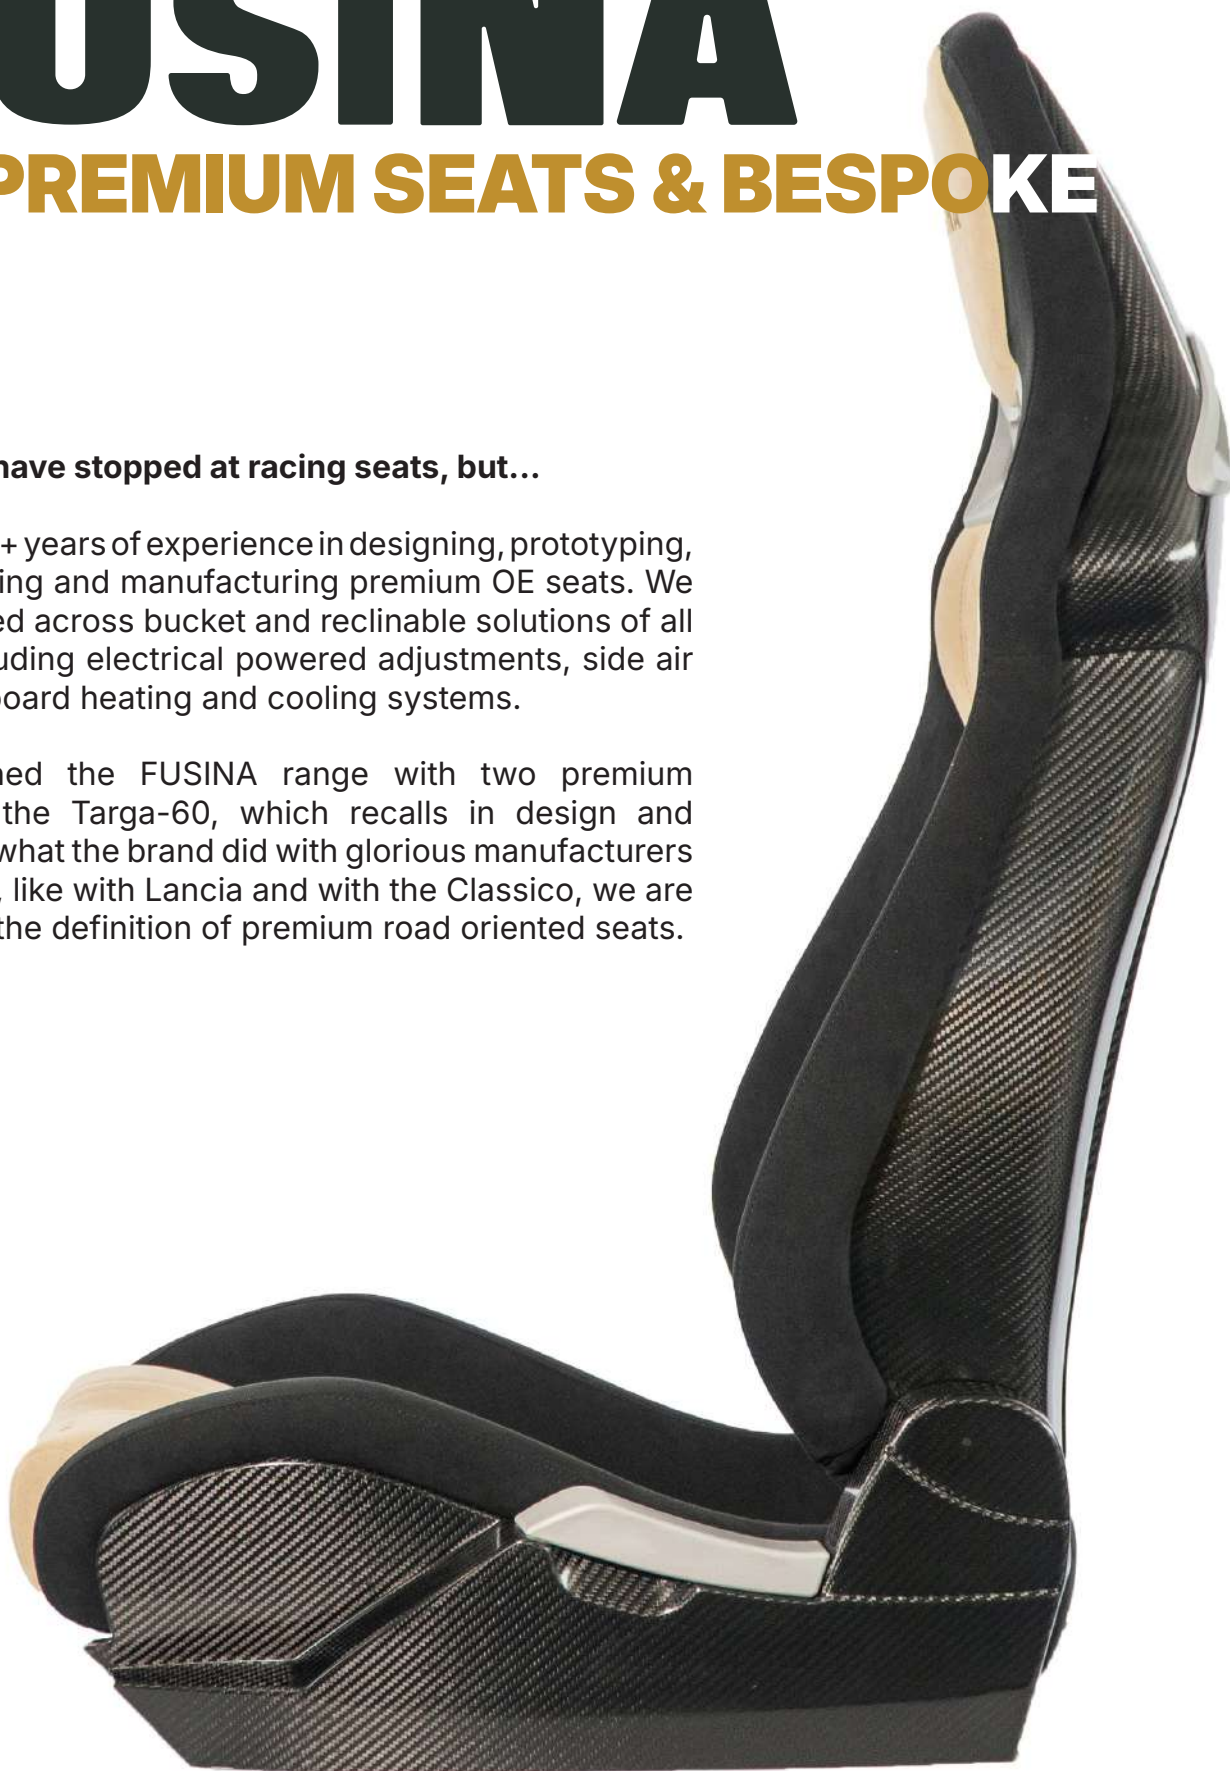

FUSINA

05. PREMIUM SEATS & BESPOKE

We could have stopped at racing seats, but...

We have 15+ years of experience in designing, prototyping, homologating and manufacturing premium OE seats. We have ranged across bucket and reclinable solutions of all kinds, including electrical powered adjustments, side air bags, on-board heating and cooling systems.

We enriched the FUSINA range with two premium solutions, the Targa-60, which recalls in design and intentions what the brand did with glorious manufacturers in the past, like with Lancia and with the Classico, we are re-writing the definition of premium road oriented seats.

Targa-60

The Targa-60 is our main OE seat platform. It can come as in the picture, or with massive customization, from the fabrics used, up to modifying the shell to have a fully new shape. We rely on a homologated seat platform, and build up from there. Luxury materials and comfort, low weight, wide range of adjustability options, from mechanical to electrical. **Contact us for more info.**

CLASSICO

CLASSICO

The FUSINA Classico is our view on the most iconic seats by our brand, but re-imagined with a solid and lightweight carbon fiber back shell, premium foams and upholstery. These seats have been developed just while KAMM Manufaktur where developing their most recent vision of the Porsche 912C. The Classico features a reclinable backrest and comes in two versions: Stradale (with headrest) and Sport (without headrest).

BESPOKE PROGRAM

We can receive customisation requests on all catalogue products:

- **Steering Wheels:**
 - upholstery in custom RAL color
 - upholstery in leather, synthetic leather, suede or Alcantara®
 - anodized aluminum spokes in custom color
 - custom stitchings color and several available patterns
 - custom logos with laser engraving
 - custom horn button
- **Seats:**
 - custom upholstery embroideries and stitchings
 - custom upholstery color and materials
