

Honpe combines German expertise and project support with certified prototype manufacturing in a best-cost country.

Which product idea can we bring to life for you?

One dedicated point of contact

With us, you will have a direct and experienced contact person who coordinates your project from Germany and manages communication with our production team.

Cushioning production peaks

This allows you to concentrate on your core business, while we efficiently mitigate production peaks and contribute to the successful execution of your projects.

Certified production facility

Our production facilities operate in accordance with the highest international standards and hold certifications for information security, automotive quality management systems, and medical devices.

Our experienced team from manufacturing, automotive development, and prototype engineering is ready to support you.

We invite you to contact us regarding your next project, whether it concerns simple milled parts, small-series production, or complex multi-component assemblies including post-processing and surface finishing.

Company profile

Honpe ProtoTec GmbH, founded in January 2025 and based in Munich, Germany, is the Northern European partner of Honpe Technology (Shenzhen) Co., Ltd.

We coordinate high-quality prototype components and small-series production projects, delivering short lead times, high precision, and cost efficiency.

Our Shenzhen production site brings 25 years of experience and is one of the largest prototype manufacturers worldwide. Spread over 60,000 m², it offers almost every manufacturing process along with a wide range of surface finishing options. A team of 1,200 skilled employees operates a modern machine park, including 485 CNC machines and 25 five-axis milling centers.

With strict quality management and certified information security, including controlled access, we ensure reliable international collaboration and position ourselves as a trusted global partner for complex projects.

We are proud to serve a range of prominent clients in our production, including

Microsoft, BYD, Continental, HWA AG, Valeo, Aumovio, Haier, Midea, Philips

Our services

Advice

We advise you throughout the production process, selecting the right materials, manufacturing technologies, and finishing processes to bring your components to life.

Order processing

We act as your dedicated point of contact managing all communication with our Shenzhen production team, and deliver high-quality results on time and within budget for projects ranging from simple parts to complex multi-component assemblies.

Import customs clearance

We manage shipping and customs clearance seamlessly to guarantee the quickest delivery of your components.

Standard for Information Security Management Systems

ISO 13485

Standard for medical devices

ISO 9001

Standard for quality management

ISO 14001

Standard for quality management

Among more than 160 successful projects delivered last year.

Project Duration: Three weeks
Deliverables: 250 high-gloss polished aluminum components for a luxury sports car brand.

Your advantages with Honpe

Security of a German company

Benefit from collaboration with a German GmbH and leverage the opportunity to efficiently outsource 20–30% of your processes to best-cost countries, without language barriers or risks.

Growth without risk

As your business grows, we smoothen out fluctuations in demand hence keeping you competitive no matter what.

Focus on your core business

You may concentrate on your core responsibilities, while we manage production efficiently and without risk.

Flexible capacity expansion

Extend your production capacity without adding to your in-house personnel.

Our team will support you in your project

Marco Tscherner CEO

With many years of experience in developing medical devices, lighting systems, and automotive pre-development, he has extensive expertise in both production and prototyping.

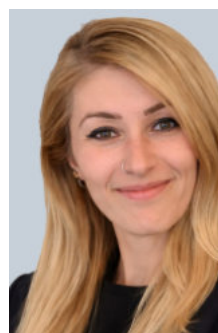

Severin Scheibenzuber Sales Director

With 15+ years of expertise in additive manufacturing and rapid prototyping, he drives new business development and cultivates strong customer relationships.

Chiung-Yao Chiu Executive Assistant

She is originally from Taiwan and strengthens our team as Executive Assistant, with a focus on international communication

Sabina Lanzone Executive Assistant to the Mgmt.

Thanks to her many years of experience in business prototypes, show cars, and back office operations, she is a valuable link in our company for all customer communication. She is your main contact person for accounting and quotations.
