## CUSTOMER VALUES

### MODULAR SYSTEM

Acquired today and ready for the demands of the future! The modular system from Güdel makes it possible to increase the level of automation according to application needs. From individual components and function packages to turnkey solutions with Material Flow Control (MFC), Warehouse Management System (WMS), conveyor technology and customer service.

### LONG LASTING

Benefit from experience gathered since 1954! Güdel solutions are equipped with the proven rack and pinion drive. In addition an ideal ratio between stiffness and moved mass is considered, which provides you process reliability and a longer lifetime of the system.

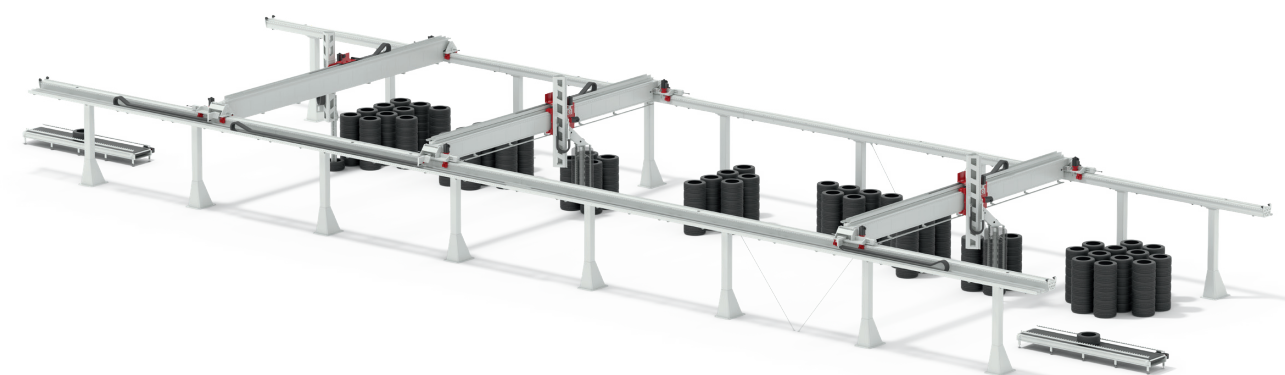

### ONE-STOP SHOP

Güdel's tire logistics solutions support you all the way through the process, from the initial concept and finding a solution, professional project management for implementation, up to support throughout the entire lifetime of the facility.

### SWISS MADE

Since Güdel has a high vertical range of production and most of the components are produced by ourselves in Langenthal Switzerland we can ensure the required quality and support for the case you would need it.
