

THE CHEESE COURSE

# WE'RE FRANCHISING!

The passion to create a restaurant that would bring the very best in quality and experience to guests was the vision of The Cheese Course founder who spent years in building a brand in the home market of Weston, FL. The vision was to create a community place where people could come together and experience something very special. Something they had never experienced before.

The mission was accomplished and delivers a new Food & wine adventure to consumers in a bright and inspiring environment.

We offer a simply delicious bistro menu, centered on outstanding artisanal cheese from around the world, with personal, friendly and superior fast-casual service.

We create a 360 degree experience in food, education and ambiance around cheese and the exploration of flavors from around the world. This positions The Cheese Course like no other fast casual brand to the modern day consumer.
