

KINTON RAMEN

SERVING PEOPLE HAPPINESS

ABOUT KINTON RAMEN

Founded in May 2012, KINTON RAMEN was one of Toronto's first Japanese ramen restaurants. Executive Chef Aki Urata and his team of professional ramen chefs offer customers an extraordinary dining experience by using the freshest ingredients with the best quality noodles and broths.

Whether it's dine-in, takeout, or delivery, KINTON RAMEN's quality-driven, customer-centric and award-winning concept continues to attract positive media attention and a growing customer base. KINTON RAMEN never compromises quality and success, and we seek franchising partners that share this sentiment.

MENU PROFILE

KINTON RAMEN has grown not only in locations, but also in offerings. What started as pork-only ramen bowls at our first Toronto location has evolved into not only pork, but also chicken, vegetarian, and most recently an entire range of beef ramen options. And we're not done! As we grow, we are constantly serving up new menu offerings and seasonal specials.

This is all complemented with a wide range of optional toppings, as well as appetizers and desserts.
