

Own your part of the world's largest fitness franchise¹

At Anytime Fitness, we've taken our exceptional model to the ends of the Earth, giving more members than ever the opportunity to get their sweat on however they choose.

Franchising from the very start, Anytime Fitness has built our boundless opportunity on key benefits which help position our franchisees for growth from day one.

Recurring Revenue

Regular club fees from your memberships as well as group and personal training opportunities offer you diverse ways to expand your revenue and build a better business with Anytime Fitness.

Simpler Management

Create your own schedule, manage your team more effectively and enjoy exceptional support from a corporate team 100% focused on you—it's all baked into the Anytime Fitness franchise system.

Smaller Footprints

Unlike the big box gyms, we keep things tight, in under 7,000 sq. ft. Our clubs can serve more people with our 24/7 model and work in almost any community, from small towns to thriving suburban and urban centers.

Lower Overhead

That smaller space also means less money upfront and ongoing. Fewer staff members on site thanks to our individual access model means you can save on costs every day and build your business faster.

Dedicated franchisees make the difference

Taking calories out of our communities, making it easier for members to get fit and feel their best, and building a business for themselves and their families—that's what it's all about for Anytime Fitness franchisees.

Our ideal candidates are excited to be a part of the largest fitness franchise¹, and they're looking forward to building their business with a proven brand like Anytime Fitness.
