MAJICALLY FLAVORFUL CURRY

The story of Maji Curry begins with dozens of spices, a housemade blend of ingredients and 100 hours of simmering at the central kitchen to make the perfect curry roux. Maji Curry offers many accompaniments to the superbly flavored curry roux. They have freshly deep fried tonkatsu (pork cutlet), oven-baked hamburger steak patties, and thirty other possible toppings that are always served with their signature pickles. FEATURES

Store size can vary between 800 and 2,500 square feet. It's the investor's call to pick the store size and the type of available site that best fits their needs.

Operation is easy and simple. Cooking the curry roux to Maji Curry standards is the most difficult part, but it's all done at the central kitchen and delivered to each store.

Maji Curry gives the investor a lot of flexibility in picking different store models with potential for revenue growth from multiple sources. For example, the business model could be a full service restaurant, KIOSK, QSR with delivery/takeout or any mix of these operations.
