RAINBOW PRODUCTIONS is widely recognised as a global leader in the manufacture of Costume Character Mascots. We are honoured to be associated with everyone from high profile brands and sporting tournaments to smaller local organisations and charities.

RAINBOW PRODUCTIONS prides itself on being able to exclusively offer personal appearances from over 140 licensed children's characters, helping clients generate added entertainment, media attention and heightened sales.

Rainbow Productions helped us to design our Danny Domino brand character and we're delighted with him. Danny is well used by all our team members, he attends new store openings, charitable events and local store activities. He proves very popular with our customers and helps us to increase our brand awareness. Domino's wouldn't be the same without him now.

LICENSED CHARACTER APPEARANCES

Added character and entertainment at events...

RAINBOW PRODUCTIONS is the official supplier of over 140 famous children's characters available to book for personal appearances at venues throughout the UK and Ireland.

From creating unforgettable family days out, to boosting footfall and extending dwell time, our clients recognise the value licensed characters bring to their events.

Whether it's at a shopping centre, retailer, theme park or farm attraction, character-led events enhance the visitor experience, providing children with a magical opportunity to see their on-screen heroes in person.

"We were so impressed with the Rainbow team and Bluey & Bingo at Edinburgh Zoo. Second highest visitor numbers this year. We'll definitely be arranging more character visits in the future!"

MINI SHOWS & ACTIVITIES

Even more interactivity during character events...

If you're looking to book a licensed character appearance with a little more interactivity, then look no further than one of our licensed character activities.

Available for select characters in our portfolio, these enhanced activities include brand activations, character narrations and mini shows.

Activities are a great way for children to engage with the characters during presenter-led interactive games.

Narrations involve story telling sessions which are led by a narrator with the characters helping to bring the story to life for younger audiences.

Mini Shows feature live performances from well-loved characters and are often joined by a host who encourages audience participation.

Venues such as shopping malls and leisure attractions are perfect for non-ticketed events like these, which provide audiences with an even more engaging character experience.

"Awesome performances. They were interactive and guests were being made to feel part of the show. The Rainbow team were enthusiastic and so wonderful to work with - fantastic!!"

MASCOT DESIGN

From artwork to Rainbow costume character...

RAINBOW PRODUCTIONS is widely acknowledged as a world leader in the manufacturer of brand and sports mascots. We specialise in replicating artwork into 3D character costumes, through digital modelling, attention to detail and skilled craftsmanship.

Working from supplied artwork – ranging from simple sketches through to computer generated turnarounds – we are trusted by brand owners and clients around the world to create their mascot exactly as designed. This transformation of artwork into a walkabout character is second nature to us.

Don't have a Sketch?

Don't worry! Our mascot designers can translate design briefs into functional, eye-catching mascots that will help promote your brand. While we aren't a design agency, we do have years of experience in creating high-quality mascot costumes for organisations all over the world. We know what works and we know what doesn't and our skilled team will help produce the perfect mascot design for you.

"We are blown away with Mr Toad! We knew the costume would be good, but it still far exceeded our expectations. The whole process was enjoyable, and we're so pleased with the workmanship."
