**Light up
your dreams**

Dreamlaser

Dreamlaser is a world leader in innovative use of multimedia technologies.

Since 2005 we have acquired the expertise to enable full-cycle in-house production from the creative concept and content production through to technical realisation with our own equipment and industry-leading engineers.

Also we created the international audiovisual arts festival INTERVALS and year-round multimedia exhibition space TSEH.SPACE, both projects founded and run by our team.

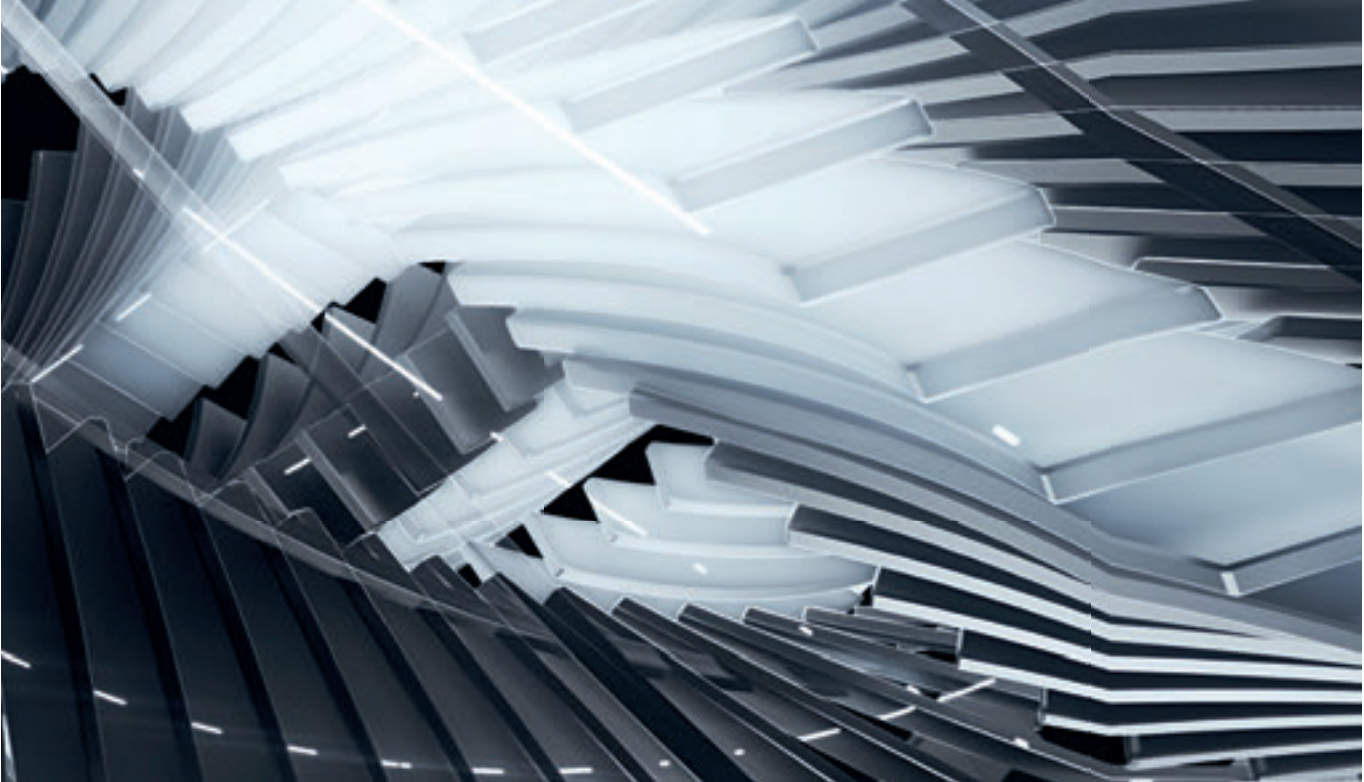

Content production

1. 3D graphics and VFX production
2. Generative design, real-time graphics
3. Music and sound design
4. Laser animation
5. Interactive installations / presentations

Creative

1. Staging multimedia shows and stage designs
2. Multimedia expositions
3. Stadium-scale event planning
4. Dreamlaser team as an artist / art collaborations

Technical production

1. Developing and visualizing technical solutions D3, WYSIWYG, Resolume, Notch, Unreal Engine.
2. Programming and setup of disguise (d3) media servers.
3. Complete installation and configuration of equipment
Integration of multimedia systems
4. BlackTrax and sType (AR) intelligent tracking systems.
Laser scanning. XR-Studio solutions.
5. More than 100 projectors with between 20,000 and 40,000 ANSI lm capacity from Christie Digital and Panasonic. Own logistics centre

Selected projects

WORLD EXPO 2020 in Dubai	14-15
