VIOSO®

Product Overview

VIOSO 6

Creates seamless images from any kind of projection setup using auto-alignment warp&blend. Embeds into Windows Desktop or export calibration data into the most important products in the AV market, like media servers, digital signage, projectors and more.

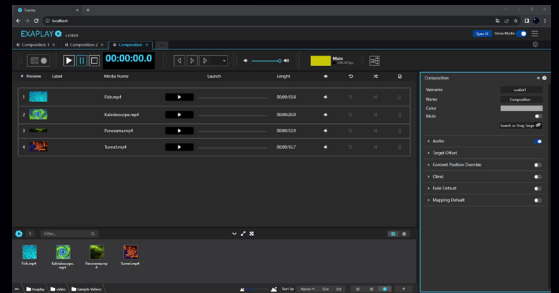

VIOSO 6 SIM

Extends VIOSO 6 with advanced features such as multi-camera auto-alignment, export to various professional simulation applications, dynamic eyepoint handling and advanced 3D capabilities.

EXAPLAY

Straight forward software to run and arrange large format content, including HAP and NotchLC playback. Supports multiple displays and timelines as a headless system and loads VIOSO warp and blend data.

We provide perfectly suitable hardware solutions to run our software smoothly. There are different options to suit every demand from a small playback server to a rock solid server for the most demanding shows.

Anystation Nano (4 out)

Affordable video
playback solution

Anystation Micro (4-8 out)
