

➤ INTERACTIVE THEATRE

alterface ➤

THE CONCEPT

Interactive Theaters offer the best immersive and interactive group experience with a great throughput and a small footprint. Each player interacts with the compelling and engaging media on the screen through the interactive device in their hands. With personalized effects, scoring displays, dynamic motions and thrilling environmental setup, this is **the perfect experience for family and friends.**

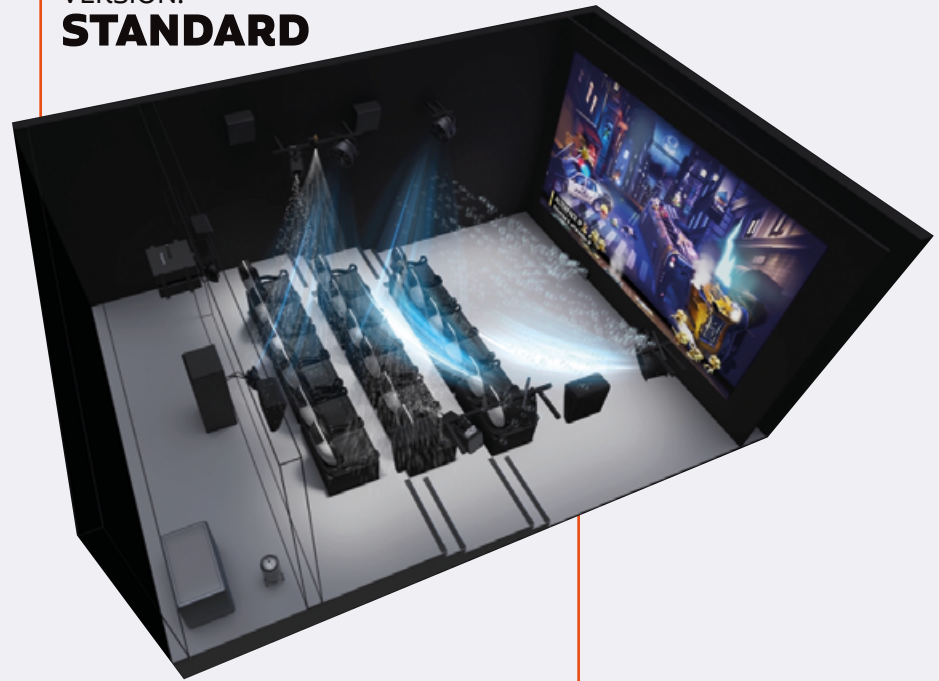

UNIQUE ADVANTAGES:

- Provides a group experience
- Requires a small footprint
- Conveys a strong story
- Easy to renew with new media
- Easy to duplicate to extend throughput
- Highly scalable throughput (from 100 to 400 pph)
- Complete interactive solution (turnkey solution)

- Preshow
- Photostore
- Custom content
- Fog machine, Wind, Water, Stroboscope
- Doors control system
- Lighting system

INTERACTIVITY

Interactive media and gameplay bring attractions alive and add an extra immersive dimension. **Interactivity engages players to actively participate in the story.**

The Alterface team matches the devices and technology with attraction theme and audience.

We develop the optimum device design and type of interaction to enhance the experience. Our experts ensure that screens, physical sceneries, animatronics, FX, audio, vehicles and all other ride elements are completely aligned and synchronized.

Our customized interactivity brings your story alive!

Customized designs available on demand.

✓ MOTION SEAT OPTIONS & FEATURES

The motion seat is fully synchronized with each player's input.

Our state of the art motion base seats vibrate, move back and forth, spraying air and water.

As players move and immerse themselves in a particular game scenario, effects such as leg sweeps, rain, lightning and wind provide players with a vivid, audible, visual and tactile immersive experience.

DURABLE

Structure in glass reinforced plastic and leather cushion.

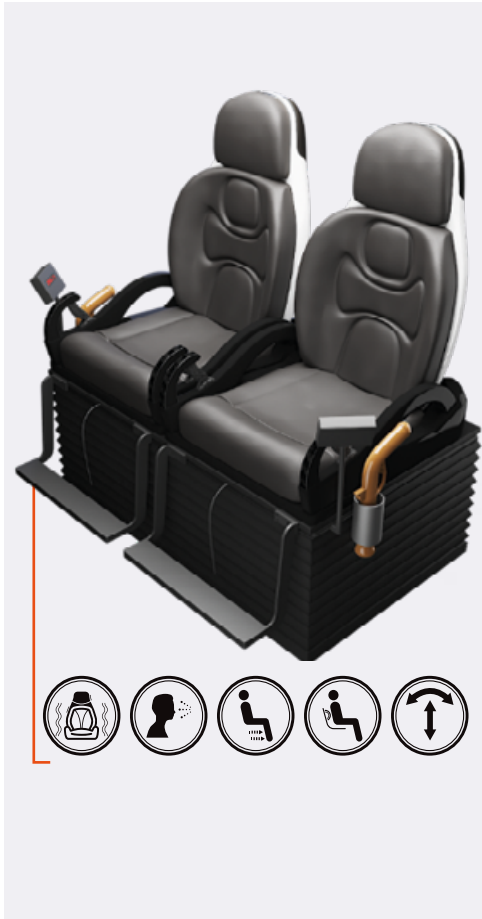

OPTIONAL POWER

Optional electric system or pneumatic system.

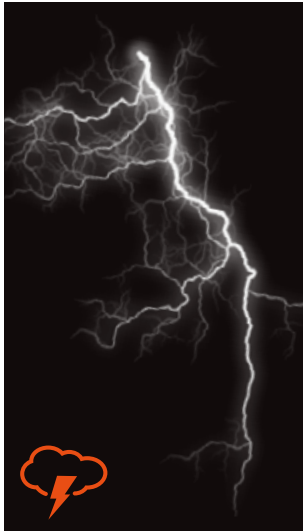

UNIQUE APPEARANCE

Good package and seat experience, classic bestseller.

▼ SPECIAL EFFECTS

> LIGHTNING

By emitting dazzling flashes of lightning, and accompanied by the roar of thunders, guests have the impression of being at the height of a storm.

> RAIN

When a media involves a rain effect, guests can truly feel the rain fall from the sky and moisten their hair and cheeks.

> WIND

A few quiet fans and an adjustable air flow create realistic wind effects that guests will experience in the whole theatre.

> SMOKE

Following an explosion that occurs in the media, the theatre will fill with smoke, immersing guests in a unexpected and misty atmosphere.

MEDIA LIBRARY

The media library must be relevant to your audience, yet attractive and exciting to keep them coming back. It must be intuitive and easy to use in order to be remembered (and trigger potential merchandise sales).

Our team is always available to create customized media, and has access to a large library of reputable IP if needed.

Here are some of the media available to choose from.

LIST OF AVAILABLE MEDIA:

- Popcorn Revenge
- Desperados
- Pirates Plunder
- Sea Safari
- Desperados 2
- Dino Sanctuary
- The Grip Of The Undead
