MV RIDES

THRILLWHEEL™

PRODUCT SHEET

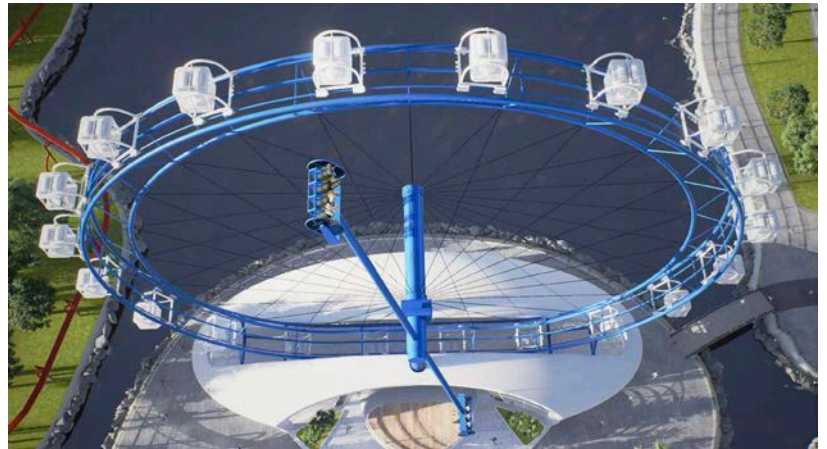

THRILLWHEEL™

The Thrillwheel™ elevates the experience of a standard observation wheel and combines it with the high thrills of a swing ride.

Climate-controlled cabins take you around the outside of the track at a constant speed that can be controlled based on capacity or thrill level. No expensive axle to maintain because the cabins move around the outside of the track.

A separate thrill ride alongside the wheel provides a high-speed opportunity for thrill seekers. This combination of thrills and observation is an unbeatable combination for any destination experience.

Gondola Capacity	6 to 8 (Subject to design)
Capacity	950 People Per Hour
Ride Duration	12 minutes (Subject to design)
Height	100 - 200 ft (30.5 - 61 m)
Delivery /Availability	24 months
