

BESPOKE INFLATABLE TECHNOLOGY

LEADING THE INDUSTRY FOR NEARLY TWO DECADES

FREESTYLE[®]
SLIDES

ABOUT

THE FREESTYLE APPROACH TO INNOVATION AND DESIGN

Founded in 2002, our vision was to bring the waterpark and theme park experience to beaches around the world. We saw a need for high end, high quality inflatables that would fill a void in the luxury market and that could compete with hard sided permanent attractions. This led us to develop the world's largest inflatable water slide which eventually became the first ever attraction to be placed directly on a public beach in the US on a permanent basis. From there a whole new product line was born. Over the last two decades we have designed, engineered and built many world's firsts and in 2016 set a Guinness World Records title for the "World's Tallest Inflatable Water Slide".

In 2008 we invented the first ever sealed – air inflatable water slide for yachts. This opened the door for us to create a new range of custom products which now includes inflatable toys, pools and docking systems. A new industry was born and a niche market was created because of our drive, our inspiration and our passion. They say that imitation is the highest form of flattery, and we have certainly come to experience that. It has become somewhat of a hallmark for us and is partly what motivates us to continue to lead our industry through innovation, design and technology. We are now known worldwide for our bespoke inflatable technology.

HIPPO

BRING ADVENTURE TO YOUR LOCATION

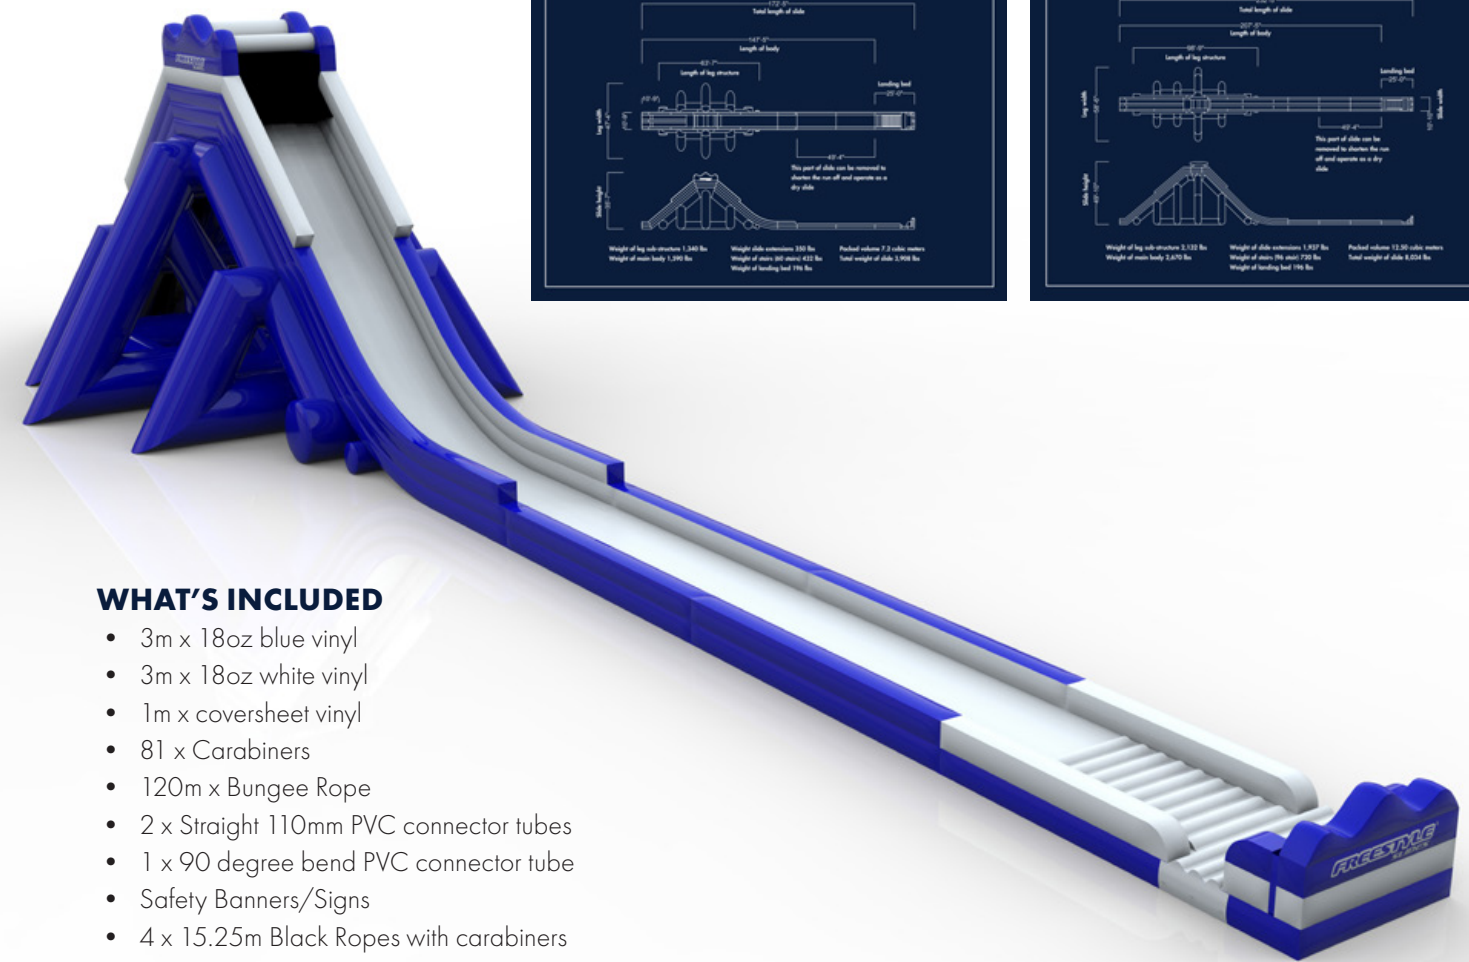

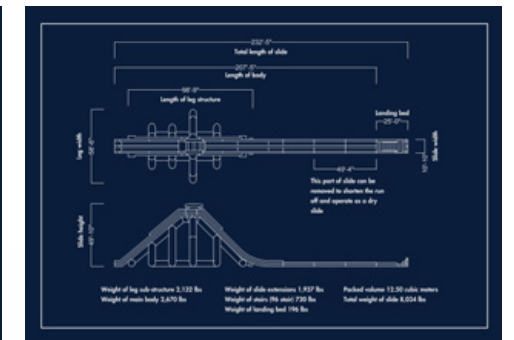

If you are looking to by-pass your competition and attract thousands of families to your location, then The Hippo is an airtight investment guaranteeing safety, reliability, and a tremendous opportunity for an immediate return. Your purchase includes a fully comprehensive on – site training service, explaining set-up, maintenance and ride supervision. The Hippo comes in our standard, XL and H2 sizes. Custom colors and logos are available upon request.

HIPPO WEIGHTS AND DIMENSIONS

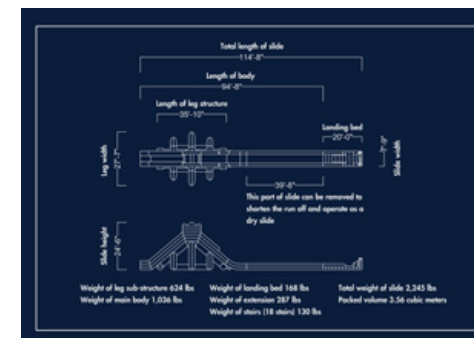

HIPPO XL WEIGHTS AND DIMENSIONS

WHAT'S INCLUDED

- 3m x 18oz blue vinyl
- 3m x 18oz white vinyl
- 1m x coversheet vinyl
- 81 x Carabiners
- 120m x Bungee Rope
- 2 x Straight 110mm PVC connector tubes
- 1 x 90 degree bend PVC connector tube
- Safety Banners/Signs
- 4 x 15.25m Black Ropes with carabiners
- 6 x 15.25m Blue/White ropes with carabiners
- 1 x 15psi digital pressure gauge
- 1 x spare inflation valve with wrench
- 3 x 1.5HP B-Air blowers
- 1 x HB199 inflation pump with repair vinyl if ordered with a divider tube
- Owner's Manual

HIPPO H2 WEIGHTS AND DIMENSIONS

PRODUCT SPECIFICATIONS

The Hippo, Hippo XL, and H2 are all manufactured using the following three processes. This manufacturing combination allows the Hippo to maintain consistent pressure throughout operation as there is minimal air loss:

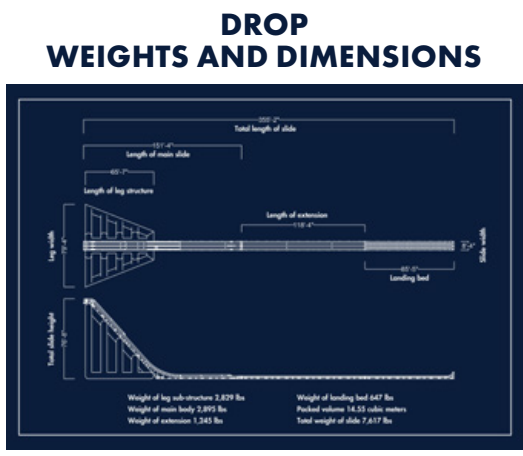

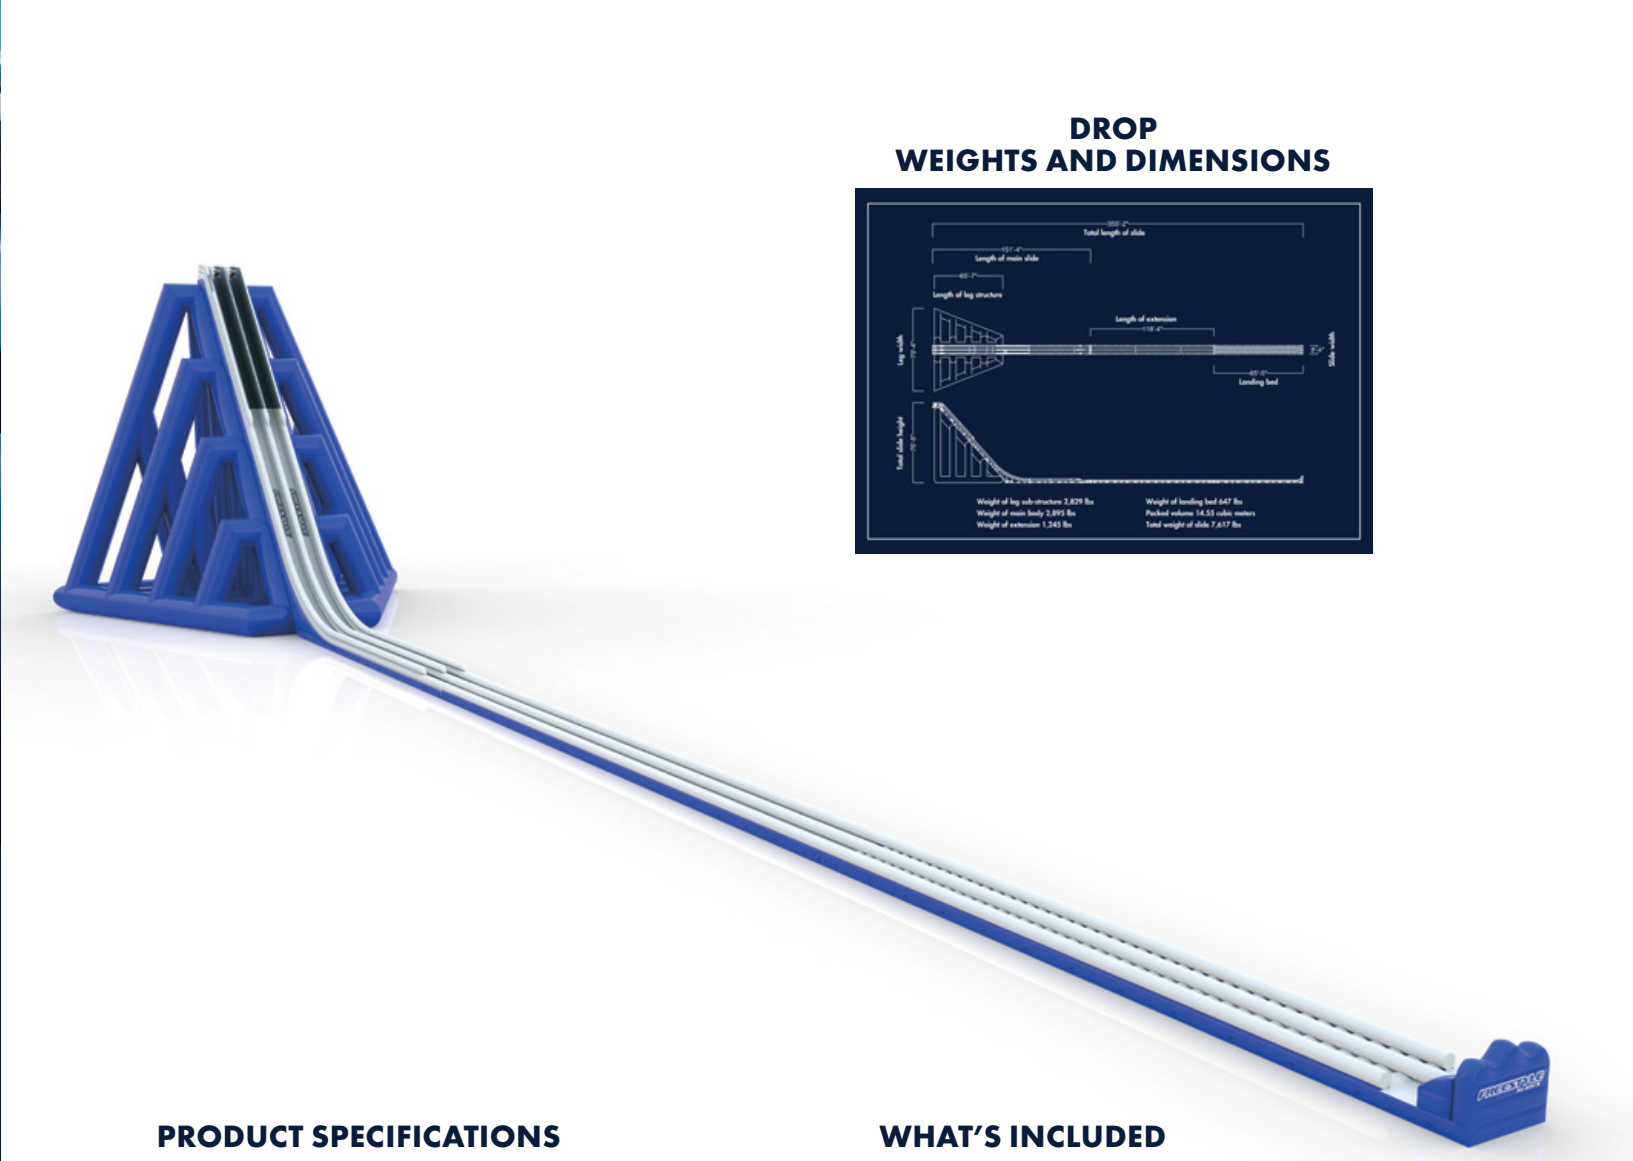

- (A) 2 inch (50mm) heat welded seams.
- (B) Double sewn seams using 10,000 lb (4,500 kg) FR rated thread.
- (C) 2 inch (50mm) and 4 inch (100mm) heat cured glued joints.

All materials used in the manufacturing of The Hippo are of the highest quality and are FR rated to the highest standards required by law. The stairs are manufactured using high density polyethylene and the slide is manufactured using the following materials:

- (A) 18oz/square yard (0.563kg/square meter) FR rated PVC vinyl sheeting.
- (B) 10,000 lb (4,500 kg) FR rated netting.
- (C) 10,000 lb (4,500 kg) FR rated thread.

DROP

GUINNESS WORLD RECORDS TALLEST INFLATABLE SLIDE

At over 73 feet tall our Drop slide is Guinness World Records Tallest Inflatable Slide. The Drop is the ultimate showcase in inflatable slide technology and can be attached to temporary scaffolding systems, buildings and other types of existing structures. The Drop is designed to run into our landing bed or directly into a body of water. Each slide is a custom creation, designed and built to your exact specifications and is available in single and multiple lane versions. Heights range from 20 feet to over 73 feet tall. Your purchase includes a fully comprehensive on – site training service, explaining set-up, maintenance and ride supervision. Custom colors and logos are available upon request.

PRODUCT SPECIFICATIONS

- The Drop slide is manufactured using a combination of sealed air and constant air technology.
- Proprietary manufacturing processes used to achieve world record status.
- All materials used in the manufacturing of The Drop slide are of the highest quality and are FR rated to the highest standards required by law.
- 18oz/square yard (0.563kg/square meter) FR rated PVC vinyl sheeting.
- 29oz firmatex with ultra UV stabilization
- 10,000 lb (4,500 kg) FR rated netting.
- 10,000 lb (4,500 kg) FR rated thread.
- All anchoring rated in excess of 2000kg breaking strength

WHAT'S INCLUDED

- 15 x 2HP B-Air blowers
- 4 x 15psi Digital Pressure Gauge
- 2 x 25m dacron ropes
- 2 x 22m dacron ropes
- 2 x 18m dacron ropes
- 12 x 15m dacron ropes
- 15 x 1m dacron straps with carabiners
- 80 x Stainless carabiners
- 6 x Bravo pumps with two extra pump fittings
- 10 x Spare Inflation valves
- 5 x inflation Valve Wrench/Spanner
- 5 x Spare PRV
- 5 x PRV Wrench/Spanner
- 1 x Accessory Bag
- 1 x Repair kit bag
- 1 x 4 Strap Lifting Harness with stainless carabiners
- 1 x Owner's manual

HYBRID

PROUD SPONSOR OF THE YACHT CLUB DE MONACO

As a symbol of the ultimate in yacht toys, FreeStyle Slides recently customized the world's tallest yacht slide to attach to the brand new yacht Club de Monaco which opened in June of 2014. The FreeStyle Hybrid slide stands over 15m tall, launching sliders from the yacht Club's 3rd story, all the way down into the blue waters of the Mediterranean. "It's been a privilege and an honor to work with such a fine establishment as Yacht Club de Monaco", said Stephen Philp, owner of FreeStyle Slides. "We are proud to be one of their sponsors and excited about the opportunities that such a great partnership presents."

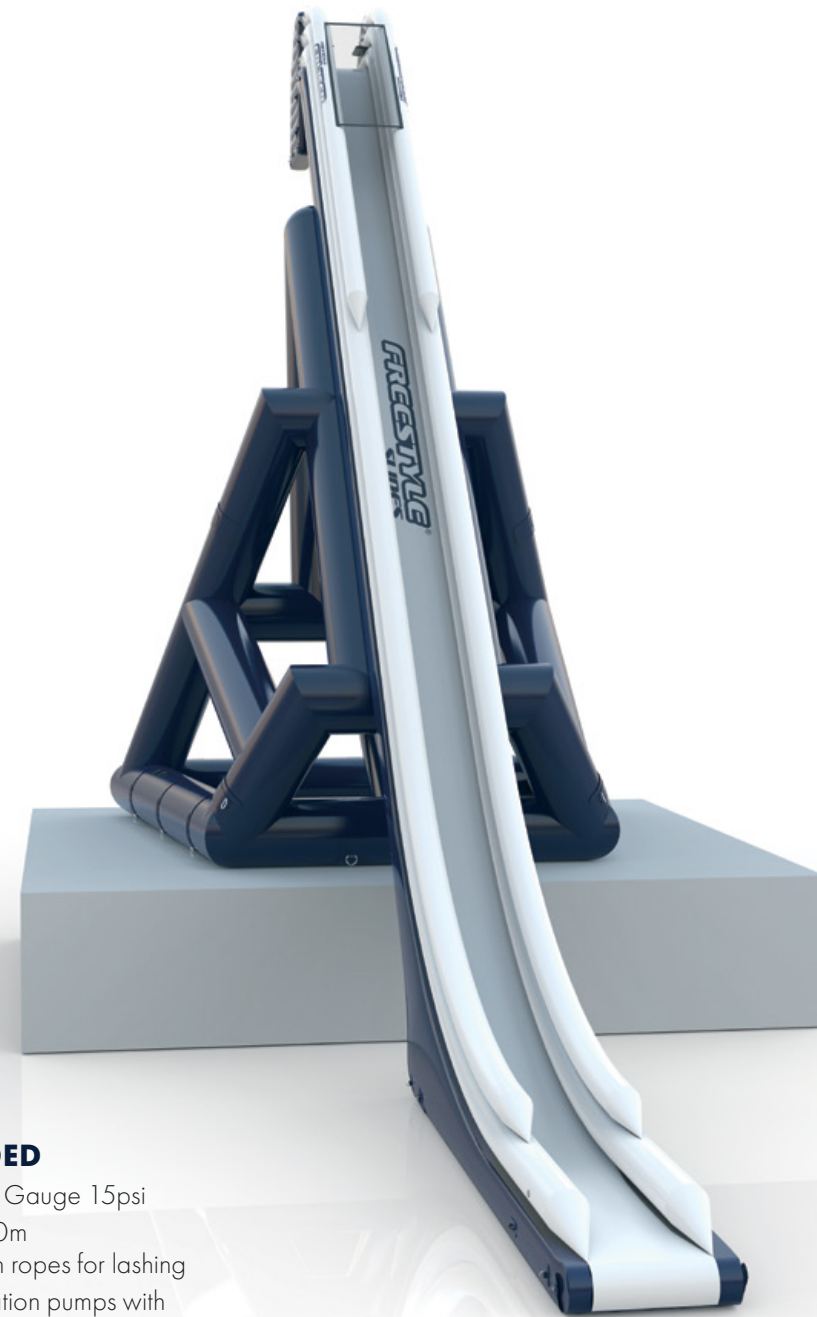

HYBRID

WHERE LAND MEETS SEA

The Hybrid is the ultimate showcase in inflatable slide technology and can be attached to temporary scaffolding systems, buildings and other types of existing structures. The Hybrid is designed to run into our landing bed or directly into a body of water. Each slide is a custom creation, designed and built to your exact specifications. Heights range from 20 feet to over 73 feet tall. Your purchase includes a fully comprehensive on – site training service, explaining set-up, maintenance and ride supervision. Custom colors and logos are available upon request.

WHAT'S INCLUDED

- 2 x Digital Pressure Gauge 15psi
- 4 x 15m plus 4 x 10m plus 4 x 4m Dacron ropes for lashing
- 4 x 2kw Bravo inflation pumps with two extra pump fittings
- 2 x Venturi Inflation Guns
- 2 x Extra Inflation valves
- 1 x inflation Valve Wrench/Spanner
- 1 x Extra 1.8psi pressure relief valve
- 1 x PRV Wrench/Spanner
- 25 x Stainless carabiners
- 1 x Accessory Bag
- 1 x Repair kit
- 1 x 4 strap Lifting Harness with Carabiners
- 1x Custom Lifting bag/Storage bag
- 1 x Owner's manual

PRODUCT SPECIFICATIONS

- Specially designed to secure and deploy off an existing land structure
- Made from 29oz firmatex with ultra UV stabilization
- Multi-chambered leg support structure that assists in lifting up the main slide body when inflated during installation
- Lifting anchors rated 1000kg breaking strength
- All D-ring anchors and handles RF welded
- Side arm tubes all welded onto structure

5 YEAR WARRANTY - INDUSTRY FIRST

With the advancement of our bespoke technology, and nearly two decades of research and development both in house and in the field, we are proud to offer the first five year warranty in the industry for all of our SEA products.

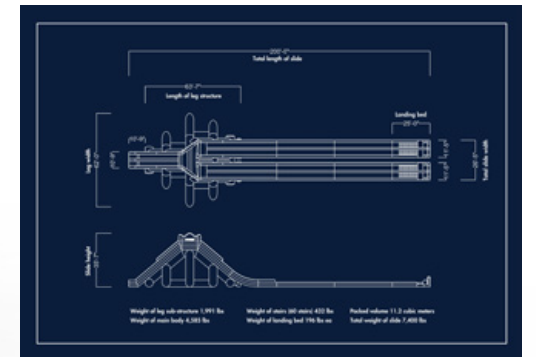

4 LANE

INCREASE THROUGHPUT. INCREASE REVENUE.

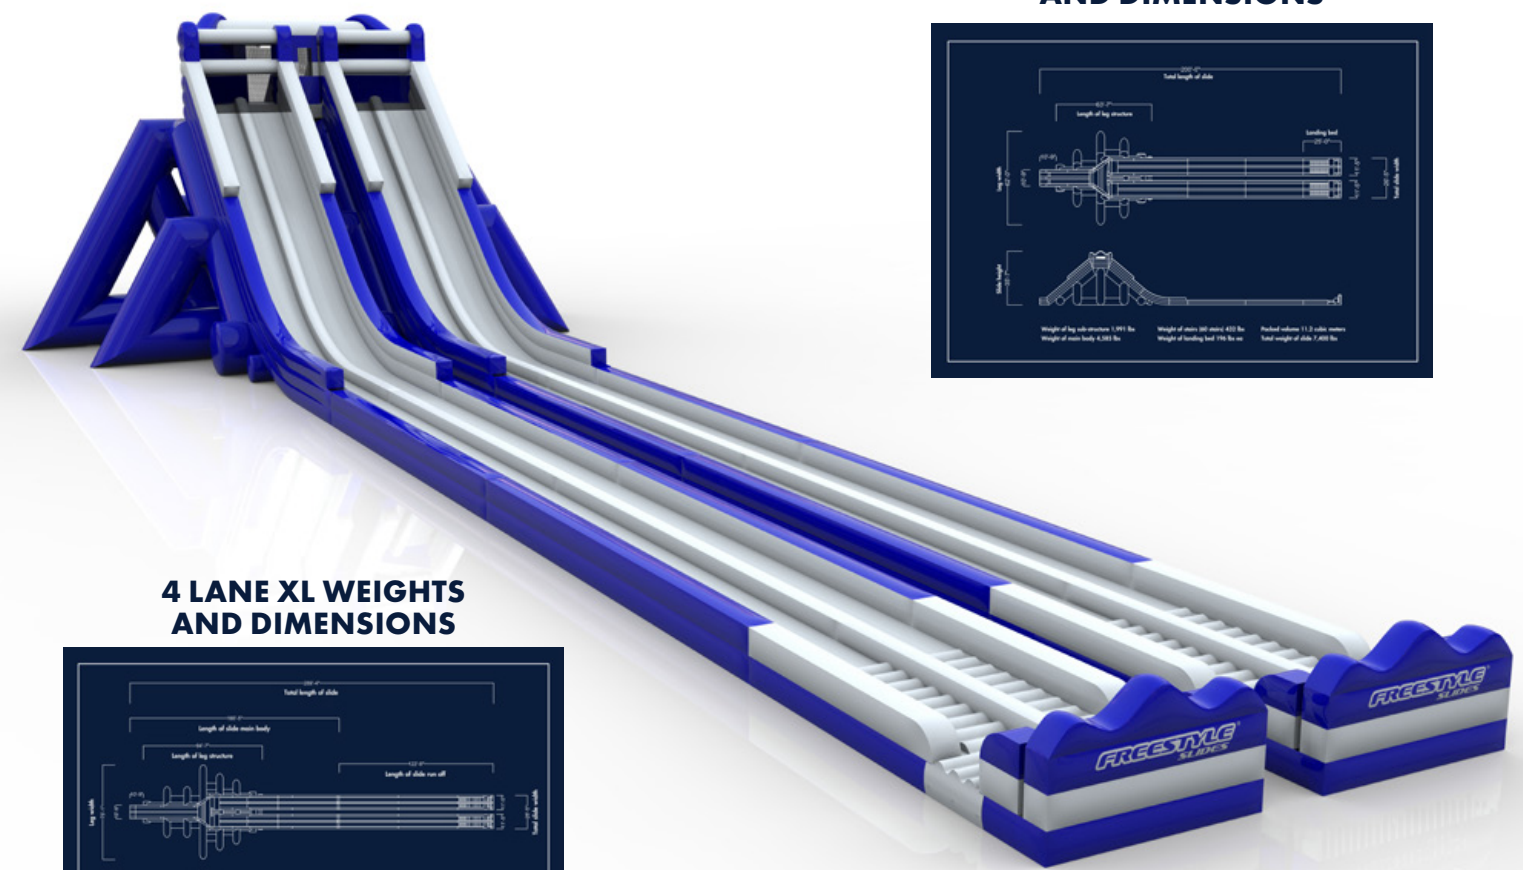

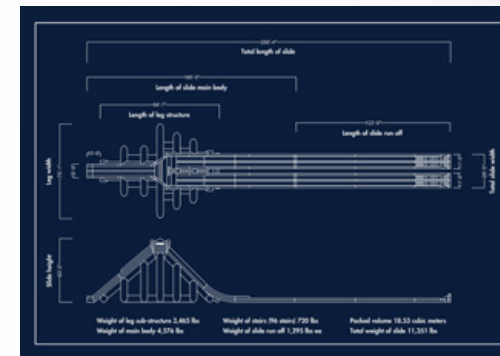

If you are looking to increase your throughput, by-pass your competition and attract thousands of families to your location, then the 4 Lane is an airtight investment guaranteeing safety, reliability, and a tremendous opportunity for an immediate return. Your purchase includes a fully comprehensive on – site training service, explaining set-up, maintenance and ride supervision. The 4 Lane comes in our standard and XL sizes. Custom colors and logos are available upon request.

4 LANE WEIGHTS AND DIMENSIONS

4 LANE XL WEIGHTS AND DIMENSIONS

PRODUCT SPECIFICATIONS

The 4 Lane is manufactured using the following three processes. This manufacturing combination allows the 4 Lane to maintain consistent pressure throughout operation as there is minimal air loss:

- (A) 2 inch (50mm) heat welded seams.
- (B) Double sewn seams using 10,000 lb (4,500 kg) FR rated thread.
- (C) 2 inch (50mm) and 4 inch (100mm) heat cured glued joints.

All materials used in the manufacturing of The 4 Lane are of the highest quality and are FR rated to the highest standards required by law. The stairs are manufactured using high density polyethylene and the slide is manufactured using the following materials:

- (A) 18oz/square yard (0.563kg/square meter) FR rated PVC vinyl sheeting.
- (B) 10,000 lb (4,500 kg) FR rated netting.
- (C) 10,000 lb (4,500 kg) FR rated thread.

WHAT'S INCLUDED

- 3m x 18oz blue vinyl
- 3m x 18oz white vinyl
- 1m x coversheet vinyl
- 121 x Carabiners
- 200m x Bungee Rope
- 2 x Straight 110mm PVC connector tubes
- 1 x 90 degree bend PVC connector tube
- Safety Banners/Signs
- 6 x 15.25m Black Ropes with carabiners
- 6 x 15.25m Blue/White ropes with carabiners
- 1 x 15psi digital pressure gauge
- 1 x spare inflation valve with wrench

ISLAND

THE FREESTYLE EXPERIENCE.

The unique design of our Island takes floating inflatable technology to a whole new level. We have reimagined the inflatable waterpark with our FreeStyle approach to engineering, giving you a novel and more extreme experience. Your purchase includes a fully comprehensive on – site training service, explaining set-up, maintenance and ride supervision. The Island comes in seven unique configurations. Custom colors and logos are available upon request.

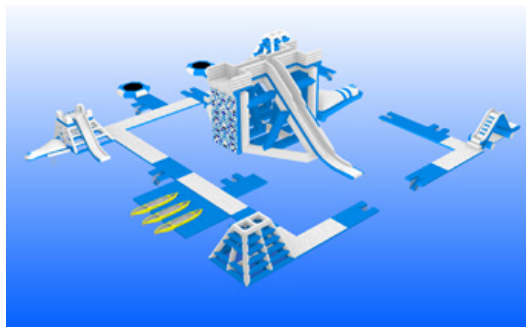

ISLAND PRODUCT SPECIFICATIONS

- Sealed air components constructed out of 29oz firmatex with ultra UV stabilization
- Patented internal design with 4 layer welding
- Docking and walkway units constructed out of Firmatex dropstitch with pressure rating up to 20psi (operational 8 – 13psi)
- Lifting & attachment anchors rated 1000kg breaking strength
- All D-ring anchors and handles RF welded
- Side arm tubes all welded onto structure
- Walkway areas laminated with 18oz firmatex non-skid material
- Choice of rope ladders or submersible stairs or both which are detachable for easy storage
- Ballast water bags on underside of docks & walkways for stabilization (can be detachable)

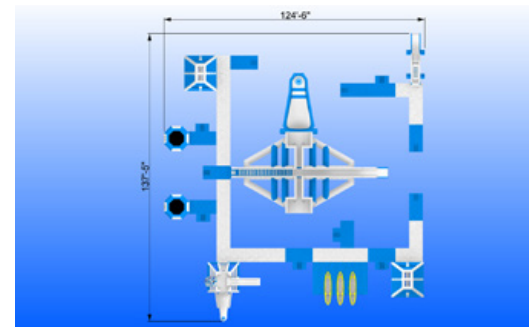

WHAT'S INCLUDED

Please contact us for a comprehensive list of equipment and accessories that are included based on the Island configuration chosen.

- 1 x Owner's manual

OEM SOLUTIONS

YOUR BRAND IS OUR BRAND

Known worldwide for our bespoke inflatable technology, we are the go to Original Equipment Manufacturer for other industry leading Companies. At the core of our brand lies the drive and inspiration to help you and your team design and manufacture your brand of products. Together with companies like FlowRider we have created some of the most complex and sophisticated inflatables in the world. The WaveOz is just one such great example which literally allows riders to float on air. This attraction uses sheet wave technology with an entirely inflatable ride surface which incorporates a state of the art electronic inflation system. It's also the highest capacity surfing machine in the world!

If you have a unique product idea that you would like to bring to life, please contact us for a free consultation.

CUSTOMIZE & DESIGN

IMAGINE. CREATE. INFLATE.

WHEN CHOOSING BETWEEN CUSTOM- BUILT AND MASS PRODUCED INFLATABLES, DISCERNING BUYERS PREFER PERSONALIZATION

Since 2002 an unwavering dedication to product innovation has helped FreeStyle Slides dominate the custom inflatable market. Today our company offers the most comprehensive line of bespoke inflatable products in the industry. "We are the only truly bespoke supplier of inflatable products in the world." FreeStyle clients can choose from an array of custom color and logo options for their products, but what makes FreeStyle unique is the custom design work that goes into our products beyond colors and logos. Our FreeStyle Slides team works closely with each client, ensuring their inflatable fits their location or yacht like a glove. A FreeStyle product that is built-to-order is carefully designed to work with the exact specifications to suit your location. "Our clients like that we design their products to aesthetically coordinate with their surroundings, and what sets us apart from any other inflatable manufacturer in the world is our willingness to do just that and more."

BESPOKE BY DESIGN

Beyond manufacturing inflatables for a perfect fit, FreeStyle can also turn the concept in your imagination into a reality. Our company's philosophy has always been to create novel products and search for ideas that have never been done before. "If you can dream it, we can build it. We love working with creative clients who want to construct their own personalized brand of products!" The possibilities are endless for visionary clients that want one-of-a-kind designs.

CONSTANT INNOVATION

In addition to creating new products, FreeStyle Slides continually strives to maximize the fun and safety of our inflatables while minimizing the workload involved by innovating our existing designs. "We want everyone to enjoy our products, not just the patrons but the employees who have to operate them." The key is to help our clients ease the biggest pain points of owning and operating an inflatable: set up, takedown, weight and storage. FreeStyle Slides has the most comprehensive line of bespoke inflatables in the industry which includes an array of Land and Sea based products.
