## ENTERTAINMENT

# BUILDING A LEGACY

*A Message From The Partners:*

There has never been a moment quite like this before.

Between record attendance at the world's top attractions, unprecedented investment in tourism, and a greater focus on quality than ever before, we are truly living in the golden age of Location Based Entertainment. From China to Saudi Arabia, we are seeing the realization of projects that would have been dismissed as impossible at any other point in history. That's where Legacy Entertainment comes in.

Our team has an unrivaled talent of making the impossible become reality on a daily basis. Whether it's suspending a Ferris Wheel over 100 meters above Macau, building a 'Floating City' Retail Center over the Java Sea, or landing a full-scale Space Ship in Zhuhai, we thrive on solving the world's most complex creative challenges alongside our development partners.

With over four dozen acclaimed projects created around the globe, we are confident that there is no other company with a greater aptitude for dreaming and delivering projects that are **groundbreaking, attention-getting, and commercially successful.**

We continue to build upon a Legacy of success for our clients. And the best is yet to come. From the world's most immersive Theme Parks and Resorts to next-generation Malls, Aquariums and Safari Parks, the future is unbelievably exciting.

We invite you now to take a look both at some highlights from our past, as well as a glimpse into the future as you discover for yourself why Legacy Entertainment is **'The Worldwide Leader in WOW'**.

Your Legacy begins here.
