## FLY BEYOND THE MAGICAL WORLD

Less weight means more agility. With its compact size, o-Ride provides an exceptional flying experience, making it the ideal choice for venues with limited space. o-Ride's agile quality makes it possible to perform acrobatic movements, such as steep turns and spontaneous rolling. Now you no longer have to imagine flying a fighter jet or soaring through the canyons. The 180-degree reveal design and the ride's special effects add excitement to the flying experience. Fly with o-Ride, and experience the world with magic.

## 3DOF 3 Degrees of Freedom

## FEATURES

-  **4D Effect:** Wind, Sound, Light, Mist, and Scents create an immersive flight.
-  **Modular Design:** Each gondola can operate individually, enhancing its flexibility.
-  **Movie Library:** Easy-to-switch control system offers various film experiences.
-  **Different AV Solutions:** LED dome screen, projector and audio system selection.
-  **Superise Reveal:** Guests board the ride then rotate 180 degrees to reveal the screen.
