ENGINEERING & SERVICE FOR MAJOR EVENTS

Your full technical event support! _____

ABOUT US

ES:ME Entertainment Services is a premium event engineering company that focuses on providing the most recent event technology in the market, implemented by world-class event specialists and powered by a vast network of suppliers around the world.

OUR VISION & MISSION

Our ethos gravitates around reliability, safety and efficiency. No event setting is left to chance. We employ our thorough understanding of our client's capabilities and intended results as we create breath-taking experiences for them and the event comers. We aim for our services to deliver highly experiential, sustainable and world class events for our clients everywhere across the globe—building creative links between design ideas and innovative event technologies.

OUR ROOTS

Originating in Germany and Europe, our values were built over the years by touring with big artists and working for the likes of Volkswagen and BMW on corporate events. With a total of over 30 years experience being in the industry, and a highly qualified international team, ES:ME helped build some of the biggest events in the Middle East such as the FIFA Beach Soccer World Cup, the Formula 1, the opening ceremony of the Doha Port, installation of Ferrari World Opening Ceremony and the Opening Show of Burj Khalifa.

OUR SERVICES

We classify our services into three main categories: **Consulting & Event Engineering, Full Technical Event Delivery & On-site Management and Event Equipment Sourcing & Rental.**

Consulting & Event Engineering is when we work closely on the clients' first event ideas guiding them to the right directions with the correct solutions. We advise our clients in every step of the process to ensure a seamless and carefree event for everyone while we keep up to the highest safety standards of the industry.

Full Technical Event Delivery & On-site Management is us taking care of all the necessary technical requirements and deliverables of an event such as: rigging, staging, lighting, audio-video, special effects and power supply with punctual on-site technical management. We also act as our client's full event support coordinating with other on-site contractors on their behalf.

Event Equipment Sourcing & Rental is whenever ES:ME offers its wide array of equipment inventory to clients who need them. We ensure our equipment follows international standards in terms of regular check ups and maintenance. We also utilize our network of event suppliers to fill in any gaps for clients who have specific needs for their event.

HOW WE GET THE WORK DONE

1. First, we discuss with our clients their request for a proposal
2. Then, we create a personalized plan for the project with the right resources and solutions that fit the budget
3. Together with our clients, we begin building the project according to our consolidated plan!

We work internationally and the ES:ME team is looking forward to hearing from you!
