# ABOUT PRO LAB

**PRO LAB** is one of the most established and well renowned names in the world of professional audio-visual and stage equipment retail and distribution in the GCC and MENA regions. PRO LAB is the region's leading destination for audio-visual, lighting, staging, and rigging systems and equipment. From designs to trainings, solution building to aftersales support and service, PRO LAB covers all client needs and requirements under one roof.

## FROM PORTABLE SYSTEMS TO FULL-SCALE RIGS

Our expansive inventory and expert knowledge ensure that we can provide a solution to any pro-audio requirement, from compact portable PA systems suited to offices, all the way up to full-scale sound rigs for large venues and festivals. We stock brands and ranges to suit all price points, and are authorized dealers for industry leading brands such as **Martin Audio, Audix, Powersoft, TW Audio, LD Systems, Palmer**, and much more

## VERSATILE LIGHTING SOLUTIONS

A project is not complete without the right lighting, and we have a wide selection of both effect and stage lighting. We provide visual and lighting solutions for retail and hospitality sectors, theatres, production houses and architectural installations, from acclaimed manufacturers such as **Vision, Dataton and Chamsys**. Whether you are looking for a plug-and-play unit or a programmable light show, you can rest assured that we have the solution for an unforgettable event.

PRO LAB has one of the largest warehouses in the UAE and in the greater Middle East, thus ensuring the availability of a wide range of products at any given time.

## FREE TECHNICAL SUPPORT

We provide free technical support for both pre-sale and post-sale transactions. We have a large service center based in the UAE with skilled technicians, ensuring that all your repair requirements can be handled in a timely manner.

Regardless of experience level, or project scope and scale, our expert team is always available to support you in making informed decisions on purchases that meet your requirements and budgets

# OUR REASON

## MISSION

Ensuring our clients transform their vision into reality through exceptional professional audio-visual, lighting, staging and rigging solutions.

## VISION

To become the leader of professional audio-visual, lighting, staging and rigging distribution in the GCC and MENA regions.

# BRANDS WE LOVE

## AUDIO

**Martin Audio**

**TW Audio**

**Powersoft**

**LD Systems**

**Palmer**

**Audix**

**Newton by Outline**

**Drawmer**

**Eighteen Sound**

A wide range of globally renowned premium audio brands specializing in professional audio equipment including speakers, microphones, amplifiers, processors, and many others, ideal for events, commercial venues, halls, stadiums, auditoriums, to name a few.

## LIGHTING

**Chamsys**

**Vision**

**Visual Productions**

**Prolights**

**Minuit Une**

Cutting-edge lighting solutions for the purposes of entertainment, architecture, and others. PRO LAB is proud to represent a diverse range of brands including Minuit Une, PROLIGHTS, Chamsys, Vision, and Visual Productions.

## VIDEO PROJECTION

**Digital Projection**

**Dataton**

**Vioso**

Complex, high quality, and reputable brands aimed at delivering unmatched capabilities in projection, video mapping, amongst others.

## TRUSS, STAGING, AND RIGGING

**Movecat**

**Alustage**

A wide range of professional stage and event equipment, including trussing systems for custom designs, rigging equipment for audio and lighting, and staging solutions for elevated platforms.

## STAGE SPECIAL EFFECTS

**SFat**

**DJ Power**

A diverse selection of equipment and accessories for events and entertainment applications, producing special effects and other visual impressions.

## ACCESSORIES

**Roxtone**

**Gravity Stands**

Go to brands for the items required as part of any solution, professional or otherwise. Cabling, connectors, adaptors, stands, and others, are all part of PRO LAB's product portfolio.

# AUDIO

## Martin Audio

Martin Audio has been pioneering high-efficiency sound systems since 1971, founded by engineering maestro David Martin. His vision was to enable bands to play to larger audiences and be properly heard for the first time. The reputation of Martin Audio speakers quickly grew, and soon they were producing world-class touring systems for the super groups of the day, including Pink Floyd, The Who, and Supertramp.

Martin Audio's portable ranges, of which PRO LAB is a proud distributor, deliver class-leading performance, coverage, and years of hardworking reliability. The products that we distribute include:

- **Sound Adventures**
- **MLA Systems**
- **Wavefront Precision**
- **Blackline X**
- **XD Series**
- **TH Series**
- **SX Series**
- **CDD Live**
- **CDD**
- **DD Series**
- **Adorn**
- **Ceiling Series**

TW AUDIO®

## TW Audio

At the beginning of 2004, Tobias Wüstner decided to develop professional loudspeaker systems under his direction and to apply the experience gained throughout a decade in the rental and tour business. TW AUDIO was born from his incessant need for perfection regarding the quality of loudspeaker systems, the industry's reception of his state-of-the-art products, and the growing number of clients seeking what TW AUDIO alone can offer.

TW AUDIO now operates globally with clients in Europe and throughout Asia. TW AUDIO has also made inroads in the Middle East through companies such as PRO LAB which has been instrumental in showcasing these state-of-the-art products in truly memorable and iconic venues.

Our range comprises a series of excellent high-quality products, as well as complete public address systems and accessories. The TW AUDIO philosophy and soul is present in all of our products.

For more information, visit: [www.prolabllc.com](http://www.prolabllc.com)

## **Powersoft**

Powersoft is the world leader in lightweight, high-power, single-rack space, and energy-efficient amplifiers for the professional audio market. Its state of art amplifiers can be found in an array of markets, ranging from stadiums, sporting arenas, theme parks, performance venues, and airports to convention centers, houses of worship, and clubs, and are used by the world's leading tour so and companies.

The pioneer of 'GreenAudioPower', POWERSOFT is proudly contributing to a sustained environment by green manufacturing, e.g. utilizing solar energy, and dramatically reducing the power consumption of sound systems with its unique, advanced, and extremely efficient amplifier technologies. POWERSOFT products are approved and specified by LEED (Leadership in Energy and Environmental Design) accredited design consultants.

Venues equipped with POWERSOFT amplifiers profit directly from significant energy cost savings while portable sound systems benefit from greater output power from smaller, lighter racks without the need for upgrading the main power distribution.

Advanced DSP technology and software make POWERSOFT a leader in system integration, manageability, and audio performance.

Continuously striving for perfection in design and craftsmanship, POWERSOFT delivers reliable products with outstanding reliability.

For more information, visit: [www.prolabllc.com](http://www.prolabllc.com)

## LD Systems

LD Systems® is a brand of the Adam Hall Group since 2004. Made in Germany, listened to worldwide! Within a decade, LD Systems® became a major pro audio brand with an extensive range of product lines. The expert LD engineering team and highly motivated personnel are continuously engaged in creating advanced, state-of-the-art audio equipment that provides superior sonic performance and exceptional value. The LD Systems CURV 500® series, launched in 2015 – quickly won a range of prestigious innovation and design awards.

# Palmer

Palmer® is a brand of the Adam Hall Group since 1990. Musicians have been appreciating the pristine sound they can achieve with Palmer® products for decades. Whether live or in the studio. “Be true to your sound” today also means the purity of the sound signals for both studio pros and home studio users.

Today, years of incredible know-how about tried and tested analog circuits are intelligently linked to modern, digital technology. The best of both worlds, so to speak. In the tradition of the brand, the new developments have been meticulously considered down to the last detail to ensure they meet the highest demands of professionals, both technically and aesthetically. With the DI boxes, line isolators, speaker simulators, controllers, studio monitors, and many other sound aids, our total focus has always been on the purity of the sound and ease of use.

## Audix

Audix is one of the world's leading microphone manufacturers since 1984, known for innovative design, quality, durability, and value.

Audix is determined to push the limits of technology, from concept to completion by providing products designed, assembled, and tested at their global headquarters and manufacturing facility in Wilsonville, Oregon.

PRO LAB distributes Audix's comprehensive range of microphones specially designed for drummers and percussionists. All microphones provide drummers with awesome sound reproduction and impressive instrument isolation at affordable prices. Microphone types include:

- **Condenser vocal microphones**
- **Dynamic instruments microphones**
- **Condenser instruments microphones**
- **Studio condenser microphones**
- **Professional drum microphones**
- **Miniaturized condenser microphones**
- **Wireless series**
- **Installed sound microphones**
- **Dynamic vocal microphones**

For more information, visit: [www.prolabllc.com](http://www.prolabllc.com)

## **NEWTON**

Combining power and flexibility with an easy-to-use control interface, Newton forms the nucleus of next-generation audio systems, exclusively distributed by PRO LAB. Multiple Newton devices are easily interconnected to form a network that is scalable to meet all audio applications.

Powerful processing features and multiple audio network standards combine to make Newton the ideal control core for any audio system, from touring to live broadcast events and fixed installations.

Newton audio system is available in three versions:

- **Newton 16 all-digital device**
- **Newton 16+4 device**
- **Newton 16+8 for useful capability of local analog input and output**

For more information, visit: [www.prolabllc.com](http://www.prolabllc.com)

**DRAWMER**

## Drawmer

Drawmer Electronics, based in Yorkshire, England, was founded in 1981 by Ivor Drawmer and is considered one of the leading manufacturers of signal processors, analog-digital converters, and signal distributors. In its history, the traditional British manufacturer has reinvented itself repeatedly and regularly introduced products with concepts that were far ahead of their time.

Based on this foundation, 40 years later, Drawmer continues to provide professionals with outstanding audio solutions for studios, concert, and broadcast use – handmade in the UK.

Since the introduction of the DS201 noise gate in 1982, Drawmer products have consistently remained the unequivocal choice of producers, engineers, and artists. As such, they have been installed in almost every major recording studio, live venue, and broadcast facility throughout the world.

For more information, visit: [www.prolabllc.com](http://www.prolabllc.com)

## Eighteen Sound

Eighteen Sound is a leading designer and manufacturer of high-quality professional audio loudspeakers, with the most advanced development and manufacturing technologies in the world, and is located in Reggio Emilia, Italy.

The Eighteen Sound R&D and Engineering Teams' unparalleled experience in professional transducer design is manifest in the exceptional products created at the home offices and manufacturing center. Relocated in 2013 this facility is comprised of two cone transducer and one HF compression driver production lines, with proprietarily designed robotic and state of the art computer networked segments, interlaced with hands-on, constant inspection and detailing the end of the line Quality Control is an exercise in "white glove" inspection, in tandem with the piece by piece automated testing and documentation, allowing for each unit to have an end of the line, retrievable set of data with individual bar code signatures on each driver, our database can provide you with "birth certificate" datasets for your unit.

We are constantly developing innovative and reliable components for many major Pro Audio speaker brands, and we distribute our products worldwide through our extensive 18 Sound Distribution Network.

# LIGHTING

*ChamSys*

## ChamSys

Initially, a group of lighting designers and longtime lighting product developers got together to develop a new console that would overcome the limits of traditional consoles.

ChamSys was formed in April 2003 by bringing together a team of lighting designers, software engineers, and hardware developers.

ChamSys' mission is to utilize the latest technology to bring developments to the lighting console market with the ultimate aim of high performance at low cost with high reliability. The name ChamSys is short for Chameleon Systems and is pronounced "cam" "sis". ChamSys is in the unique position of utilizing software developers that are themselves lighting designers. This ingrained knowledge has enabled us to develop a console to meet the needs of the end users rather than the software programmers.

Our board of directors has over twenty years of combined experience in the lighting industry, with varying backgrounds from part owners of lighting hire companies to design consultants on well-known products and lighting designers.

Our hardware engineers have had wide experience in all sections of the lighting industry, including laser consoles, moving light systems, and industrial and scientific real-time control.

Our software engineers have worked on many different systems, including lighting products, telecommunications products, and computer systems. We have a high level of experience in developing real-time systems where reliability and performance are key requirements.

ChamSys staff have played a major role in the development of many successful lighting products including world-leading lighting consoles, unique laser controllers, and varied DMX gadgets.

## Vision

VISION manufactures state-of-the-art, high-quality moving heads, LEDs and Pars, DJ Effects, Lasers, and LED Screens for the entertainment, leisure, and architectural industries.

We work closely with our clients to make sure that the products that we produce always meet their toughest requirements. Our philosophy stems from our passion to build affordable quality products that compete on the world stage with the biggest names out there.

Vision is experiencing growth in all sectors and our products can be found on stages, clubs, studios and illuminating buildings and other structures throughout the world.

Product lines include:

- **Moving Heads**
- **Theatrical Lights**
- **Architectural Lights**
- **Digital LED Screens**
- **Blinders**
- **LED Moving Heads, Color Changers, Matrix and Screens**

## Visual Productions

When it comes to high-tech control solutions for LED, architectural and lighting equipment, Visual Productions are leaders in their field, and PRO LAB is proud to be one their exclusive distributors.

Established in 1999, their lighting control systems are designed for permanent installations and systems integration.

Range of Visual Productions' control systems that we distribute:

- CueCore 2
- QuadCore
- IOCore2
- B-Station
- LPU 2
- Kiosc
- Rackmount
- RDM Splitter
- TimeCore

# Prolights

PROLIGHTS is the professional lighting division of Music & Lights S.r.l., an Italian company specialized in the manufacture of technologies for the show industry.

PROLIGHTS continues to experience a sustained growth across all sectors, with its products found on stages and in studios all over the world. Founder Franco Sorabella, and his son Fabio, are both actively involved in the day-to-day running of the business and in the development of the product range.

We aim to provide the markets we serve with the best and most innovative products & solutions.

We set ourselves the highest standards, then work with our people, suppliers and partners to meet them.

- **Stage lighting**
- **Theatre, film & studio**
- **Architectural**

MINUIT  
UNE

## Minuit Une

Minuit Une was founded in 2013 by a team of optical engineers, passionate about music and great fans of the live concert scene.

Going from concert to concert, mostly in mid-size venues and occasionally to bigger shows, they always looked at the scenic lights during concerts with very technical eyes.

And they made an observation: while the biggest set-ups allow the creation of incredible lighting experiences, immersion and perspectives are harder to be produced when there is fewer possibilities to have plenty of mono-directional fixtures, such as spots and beams, with many trusses. In other words: lighting options were limited by the logistics in mid-size venues.

IVL™ Lighting came to life by the passionate idea of creating a wide-coverage, immersive, multidirectional lighting fixture, specially designed to make the show in mid-size venues, from 1000 to 5000 people.

# **VIDEO PROJECTION**

For more information, visit: [www.prolabllc.com](http://www.prolabllc.com)

DIGITAL PROJECTION

## Digital Projection

A digital imaging pioneer and industry leader, Digital Projection manufactures an extensive and expanding line of ultra high-performance 3-chip and single-chip DLP® projection systems.

These projectors are the reference standard for demanding applications such as large-venue, live-event staging, education, medical and scientific research, command and control, digital cinema, commercial entertainment, houses of worship and elite home cinema.

Multiple company accolades include two Emmy® Awards for Outstanding Achievement in Engineering Development by the Academy of Television Arts and Sciences. Digital Projection remains the first and only projector manufacturer to win the coveted award.

## Dataton

Dataton was founded in 1973 and our philosophy has remained constant over the years: we aim to enrich the visitor experience by providing outstanding audiovisual products. Research and development facilities are located in Linköping, Sweden, and Dataton has worldwide representation through an established partner network. You'll find Dataton products in commercial and cultural installations in every part of the world.

Product Lines Include:

- **WATCHOUT® multi display software**
- **WATCHPAX 4 quad media player**
- **WATCHNET™ web based manager software**
- **WATCHPAX® media player**
- **WATCHMAX™ media server**

VIOSO®

## Vioso

VIOSO is a highly specialized company providing software and server products for multi-channel and complex AV projects as much as simulation, training, entertainment, and virtual reality display solutions. Whether a creative AV installation, or a complex simulation environment, the VIOSO project setup with panorama screens, dome projections, and projection mapping, is incredibly innovative and reliable.

# **TRUSS, STAGING, AND RIGGING**

## Movecat

Movecat kinetic solutions such as chain hoists, trolleys, band hoists, winches, turntables, drives, controllers, cable systems and special solutions are synonymous with the highest standards of safety and functionality as well as the legendary quality of goods "Made in Germany".

These innovative German products are developed and manufactured invariably in strict compliance with the safety regulations, standards and guidelines applicable to them, such as BGV D8, D8 Plus, igvw SQ P2, BGV C1 and DIN EN 61508 SIL 1 to SIL 3.

They are capable of moving safe working loads ranging from 125 kg to 5,000 kg at speeds ranging from 0 to 180 metres per minute.

For more information, visit: [www.prolabllc.com](http://www.prolabllc.com)

## Alustage

A leading manufacturer of professional stage systems, Alustage provides encompassing, high quality solutions ranging from musical stands to exhibitions constructions. Quality is one of their key values.

Alustage uses top quality materials and state of the art technologies strictly observing all standards and regulations. The products carry the European quality certificates, such as ISO and DIN.

A stage with spotlights and rigging, overlaid with a red-to-blue gradient. The text "STAGE SPECIAL EFFECTS" is centered in white.

# STAGE SPECIAL EFFECTS

## SFAT

Founded in 1993, our company is specialised in the manufacture of machines and fluids dedicated to the creation of stage special effects. Those effects are made to meet the requirements of professionals in different fields of activity such as Leisure, Event, Show, Cinema, Television, Theatre and Advertising.

Based on many years of experience, SFAT always focused on both “Product and Service” Quality, respecting by the way its original credo:

- Build “ Reliable with fair prices”
- Produce and manufacture strictly to Norms
- Re enforce regularly the reliability for the end users
- Being careful to the Sales and After
- Sales Services Quality

SFAT is among the rare companies that can be proud to be considered as reliable and stable on and by the professionals market their large range of special effects will allow you to propose many solutions to wide demands.

## DJPOWER

DJPOWER Electronic Technology Co Ltd was set up in 2002 It is the leading company in the line of stage effects in China with an 8000 square meters factory making it the largest production facility of stage effects products in Guangzhou China.

Founded and led by Mr Xu Shuiqing, DJPOWER boasts a young and robust R&D team, consisting of dozens of engineers that have developed lots of stage effects products throughout the past several years and have obtained more than 50 patents both at home and abroad. Those patents include the Vertical Fog Machine, Moving Head Fog Machine, Super Quiet Snow Machine, Flexible Fog Machine, "immediate stop" patent technology, LED CO<sub>2</sub> generator etc.

For years, DJPOWER has been providing professional stage effect products for many world renowned companies in Europe and the US. As a result, DJPOWER has become a powerful OEM/ ODM enterprise.

Today, DJPOWER is utilizing its expertise to build innovative, professional and more efficient products that compete on the world stage.

A stage performance with a cityscape backdrop and spotlights. The scene is dimly lit, with several bright spotlights shining down from above, creating a dramatic atmosphere. The backdrop features a grid of windows, some of which are illuminated. In the foreground, a man in a white thobe and ghutra is singing into a microphone. To his left, a man in a dark suit is playing a keyboard. To his right, a man in a white thobe is seated, playing a stringed instrument. The overall color palette is dominated by deep reds and purples, with the spotlights adding a touch of white and yellow.

# ACCESSORIES

## Roxtone

With more than 10 years of professional development, ROXTONE focuses on manufacturing and selling audio video cables, connectors, stands and related musical accessories. ROXTONE integrates design, R&D, manufacture and international sales into company, based on a whole set of first class facilities and assembly lines. With the independent innovation and introduction of advanced technology, ROXTONE commit to be an excellent supplier of high performance and high technology products.

In 2013, we introduced a leading ERP management system and it was online successfully. It set a solid foundation for our sophisticated management with the advanced management concept and standardized operation flow. With the environmental friendly development, ROXTONE's responsibility is to provide the products compliant to ROHS and Reach. Our company pays attention to the development and protection of intellectual property rights, successively registered the trademark in several countries, and owned multiple technology and design patents.

You will be highly welcome to visit our factory if you are interested in us. With the further communication, you will be deeply impressed with our advanced organizational management and excellent cost performance ratio of products.

## Gravity Stands

Gravity™ Stands is a brand from Adam Hall Group. The award-winning brand offers musicians, live technicians, and content creators a comprehensive range of innovative stand and accessory solutions that ensure microphones, speakers, lights, instruments, tablets, and much more stay exactly where you need them.

Gravity® Stands combines the most essential requirements for any application: sturdiness and reliability, smart features, and stylish design. From sophisticated mounts for tablets and action cameras to the Touring Series for the professional rental market, Gravity®' comprehensive portfolio puts a loyal companion at every user's side. One thing that all Gravity® products have in common is their easy and efficient handling.

Gravity® - Take The Stage:

- Stands and accessories for stage, studio, and home use.
- Professional functionality with innovative details.
- Designed and engineered in Germany.
- Ultra-durable construction, built to last.
- High strength precision tubing and die-cast zinc components.
- Soft touch rubber-coated clamps and knobs.
- Double injection molded adjustment knobs.
- Replaceable rubber marker rings for color coding and personalizing your stand.

# GET IN TOUCH

We pride ourselves on providing a world-class customer service experience. From the moment when you call us for a proposal to the final delivery of a project, you are guaranteed to receive the highest level of quality. PRO LAB covers all things audio-visual, lighting, stage equipment retail and distribution.
