MULTIMEDIA SHOW

- COMBINING MORE TYPES OF MEDIA TOGETHER OFFERS AN UNFORGETTABLE EXPERIENCE.
- A Multimedia show requires knowledge not only of lasers, in which we are specialists. We utilise elements such as audio, lighting, video, FX s, pyrotechnics, etc. Artfully combined and perfectly synchronized. Our staff keeps up to date with the cutting edge of these technologies and use them to create a show that the audience will remember vividly every time they hear of your brand, event or city.

A 3D CGI rendering of a laser show in a stadium. The scene is filled with a dense network of red and blue laser lines crisscrossing the space. Bright blue laser beams fan out from the ceiling. On the field, there are vertical columns of orange pyrotechnic sparks. The stadium seating is visible in the background, and the overall atmosphere is high-tech and dynamic.

Lifting system

- During the match it keep the technology on floor level such a FLAMES and LASERS parked on LOW position, that will not block the view for audience
And for the SHOW TIME it will lift equipment HIGH that will be safe for audience
- Amount of lifts depend of lasers and flames on the floor
