MAGNET AUTOMATE™

AUTOMATE YOUR MOBILE & COMPUTER WORKFLOWS

Improve service to your agency by unlocking lab capacity, creating efficiencies, and reducing time to evidence.

THE CHALLENGE

It's becoming impossible for digital forensics labs to keep up.

Increasing data volumes, evidence complexity, and resource constraints, along with the fast-changing technology landscape, are forcing you to get more done with what you have.

With Magnet AUTOMATE, enable an enhanced approach to digital investigations that scales up your existing resources and processes to complete investigations more quickly.

OUR SOLUTION
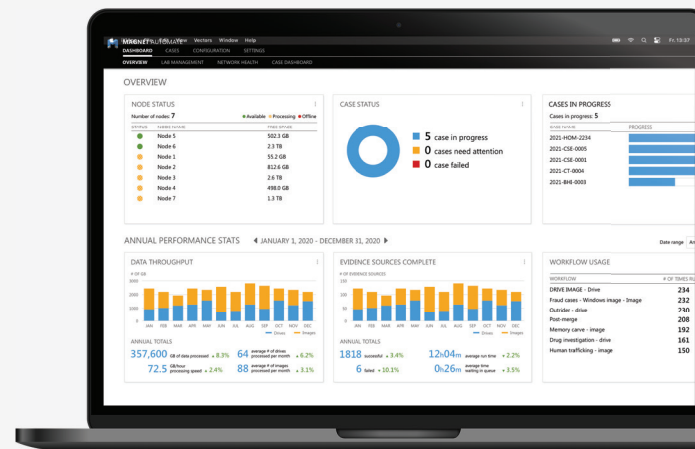

UNLOCK CAPACITY IN YOUR LAB

Complete digital forensics investigations faster by scaling your digital evidence processing 24/7/365.

STREAMLINE YOUR WORKFLOWS

Easily build automated workflows across your forensic toolkit to maximize efficiency.

LEVERAGE POWERFUL ANALYTICS

Clear, visual dashboards provide you with key insights for smarter resourcing decisions.

> "Because time-to-evidence is now guaranteed inside 48 hours, investigators can identify and act on relevant material quickly—examiners are freed from repetitive tasks, and our computing power is being utilized 24 hours a day, 7 days a week."

SENIOR DIGITAL FORENSIC SPECIALIST
Large metropolitan police agency in the UK

MAGNET AUTOMATE FEATURES

⚙ MAXIMIZE YOUR RESOURCES

Complete more investigations faster by scaling up your existing hardware and software resources and reducing manual, repetitive tasks. With AUTOMATE, you can automatically image, process, and create exports for multiple items of evidence in parallel — saving valuable time and freeing up your examiners to focus on complex analysis.

↻24 PROCESS DIGITAL EVIDENCE 24/7/365

Don't let your investigations sit idle overnight or over the weekend. By automating your workflows, you can get the most out of your digital forensics lab by utilizing your computing power and forensic tools 24 hours a day, 7 days week. Build prioritized job lists to ensure that your lab is always imaging and processing evidence items, even when you and your team aren't there.

≫ BUILD STREAMLINED WORKFLOWS ACROSS YOUR TOOLKIT

Seamlessly integrate any tool from your forensic toolkit, including mobile acquisition tools. AUTOMATE's drag-and-drop workflow builder makes it easy to develop efficient, automated workflows across your entire forensic toolkit. For increased flexibility, you can also integrate your own custom scripts.

✓ ENSURE CASE QUALITY

Easily adhere to standard operating procedures by empowering your expert examiners to design the workflow for each case type. Forensic technicians or junior members of the team can then kick off the right workflow from a dropdown menu while experts focus their time on analysis.

▦ MEASURE, ACT, AND REPORT ON LAB INSIGHTS

Clear, visual dashboards help you to quickly assess lab infrastructure health and provide you with key insights for smarter resourcing decisions. Easily report to management on the value of your lab investments by tracking overall throughput and efficiency metrics.

ADVANCED INTEGRATION WITH MAGNET AXIOM AND MAGNET DIGITAL INVESTIGATION SUITE

AUTOMATE amplifies the processing and analytics power of Magnet AXIOM to help you complete your investigations more efficiently and effectively. AUTOMATE also includes advanced integration with Magnet ATLAS and Magnet REVIEW to promote efficiency and collaboration across your investigations.
