WHAT WE DO?

The center focuses on training advanced skills such as tactical operations with K9, explosives detection, Narcotics detection, and apprehension techniques in high risk operations carried out hostile environments.

WHY CHOOSE US?

The center has a wide range of training and support facilities that enable students to fully benefit from their attendance of training activities and exercises at the center.

The combined capabilities of the center are not matched at any other center around the world in terms of advanced hospital equipment and training ranges.
