

REKORD GROUP

BASE LIFE SUPPORT ESTABLISHMENT OF A MILITARY CAMP

ABOUT US

REKORD Group has established itself with a storied history in the temporary/tent structure industry as well as associated infrastructure since 1998. Our tested and proven experience has demonstrated our unique implementation strategies across an myriad of projects in the domestic and international space.

Rekord Group specializes in the rental and sale of tent structures customized to accommodate client's everchanging needs in real time. Our quality standards compliments the rigorous technological and compliance standards while adhering to federal, state and local laws. Our company provides turnkey services: from site preparation, throughout the construction stage, and cleaning the site after the contract term.

Our company's' know-how, team of experts and technological background allows us to be in the group of industry leaders.

Rekord Group is made up of the following business entities:

REKORD
RESCUE
SP. Z O.O.

We specialize at:

Design

Our highly qualified team of engineers execute projects from the concept phase, going through the conceptual, construction and executive design project phases while strictly adhering to customers' needs and requirements.

When designing the structures, we utilize the following:

- FEM (finite element method) simulations,
- Virtual Reality,
- Advanced programs for structural calculations,
- A virtual wind tunnel simulator,
- Programs for designing Tensile Framed Structures

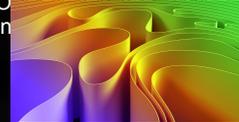

Sheathing Plant

Rekord Group uses the highest quality of material available in the renowned world markets for the sheathing membrane tent covering.

We ensure that our material will withstand any temperature as well as the harshest weather conditions. To include mechanical wear and tear at any given site location.

We only select materials from proven, qualified suppliers who pass our proprietary internal quality control requirements.

Our company owns its laboratory to validate test results and test the materials used to comply with such standards of our customers as: EN ISO 2286-2; EN ISO 1181; EN ISO 2444; EN 13501-1; ISO 9001, ISO 14001 and many others.

Testing and Quality Control

To assure the best quality and reliability of our end products we cooperate and order goods only from qualified suppliers that possess all the necessary documents in accordance with the applicable standards and norms.

Company Certificates:

- Certificate ISO 9001:2015,
- Certificate AQAP 2110:2016,
- Certificate EN 1090,
- Certificate EN ISO 3834.

CNC Production

Our steel and aluminum structures are manufactured in Poland and the United States by utilizing the advanced CNC machinery.

Our production consists of, but not limited to:

- five-axis machining centers for aluminum profiles,
- numerical lathes,
- press brakes,
- laser cutters,
- robotic welding machines.

Warehousing

We create optimal warehousing conditions for the structural elements that are utilized on a recurring basis to include appropriate warehouse surface and storage conditions.

Considering that many elements are reusable, we utilize the most current strategies to ensure that the quality and technical characteristics of our structural elements remain consistent throughout our process.

We specialize at:

Logistics and Transport

The State-of-the-Art vehicle fleet is complimented with a wide range of appropriate construction and renovation equipment enabling comprehensive service, while minimizing downtime during the execution of projects.

Our company uses Scania products:

- road tractors,
- trucks with a hydraulic crane (HDS),
- gully emptiers,
- bulldozers,
- road rollers,
- telehandlers

Your Trusted Business Partner

Our business model encompasses the vision of creating all products/services from scratch with precision and high attention to detail. This assures the customer that all the details of the project are completed from start to finish. Our turnkey solutions consist of the consulting stage, design, assembly, and maintenance of structures. We utilize various equipment such as trucks, forklifts, scissor lifts, Manitou 10k, 20k, 30k for site preparation and reverting the construction site to its original state.

BASE LIFE SUPPORT TENT APPLICATION

- Rekord provides tents that meet the Base Life Support (BLS) requirements in domestic and international environments
- Tents can be customized to meet any BLS need including but not limited to housing, maintenance, aviation applications, dining facilities (DFAC), tactical operations command (TOC), laundry facilities, storage warehouse, Morale Welfare & Recreation (MWR), Multi-Use and Fitness Structures.
- The tents are modular, consisting of sections measuring five (5) meters each, thereby facilitating the creation of tents of any desired length.
- Our tents conform to the safety standards stipulated in design, calculation, production, and installation as per EN 13782.
- All tent frames are fabricated utilizing high-quality aluminum meeting various national and international compliancy standards.
- The tent coverings consist of a robust PVC-coated polyester membrane treated with lacquer. The material is UV resistant and anti-fungal. Additionally, we offer Berry-compliant tents in our product portfolio, which are manufactured at our factory in the United States.

CERTIFICATE

This is to certify that environmental management system in
Rekord Hale Namiotowe Sp. z o.o.
ul. Mazowiecka 17, 50-412 Wrocław – place of registration
ul. Techników 31A, 55-230 Jelcz-Laskowice – place of business
complies with the requirements of
ISO 14001:2015
Scope of certification:
Production of tent halls and containers.
Sale and rent of tent halls and containers. Laundry services.

An integral part of the certificate is the list of locations covered by the scope of certification. Compliance with ISO 14001:2015 has been confirmed on the basis of a positive assessment of compliance with the requirements of PN-EN ISO 14001:2015. Certificate No 1058/E/2023 is valid from 13.12.2023 to 12.12.2026. Initial certificate issue: 13.12.2023. Edition: A, date of issuing: 13.12.2023.
