 .200.000 LIMS

## Support to operations

- Pax handling facilities APOD/APOE
- SPOD/SPOE cargo facilities
- Reception, Staging and Onward Movement
- Force Protection Temporary Military Zone
- Force Protection transport of Sensitive Items
- (real) Life Support Area in SPOD/SPOE
- Logistics
- Transport
- Communication

**Challenge:  
Capability gap**

## Logistics Ecosystem □ Contract Support to Operations

- From possession of in-house capabilities to strategic partnerships for assured access;
- Strategic partnership in a Logistics Ecosystem with commercial/civilian companies;
- Logistic Support Area's (LSA's) on/near SPOD's/SPOE's.

# Logistics Ecosystem

The aim is to establish a long-term strategic collaboration in which personnel, assets and methods are reciprocally shared and exchanged.

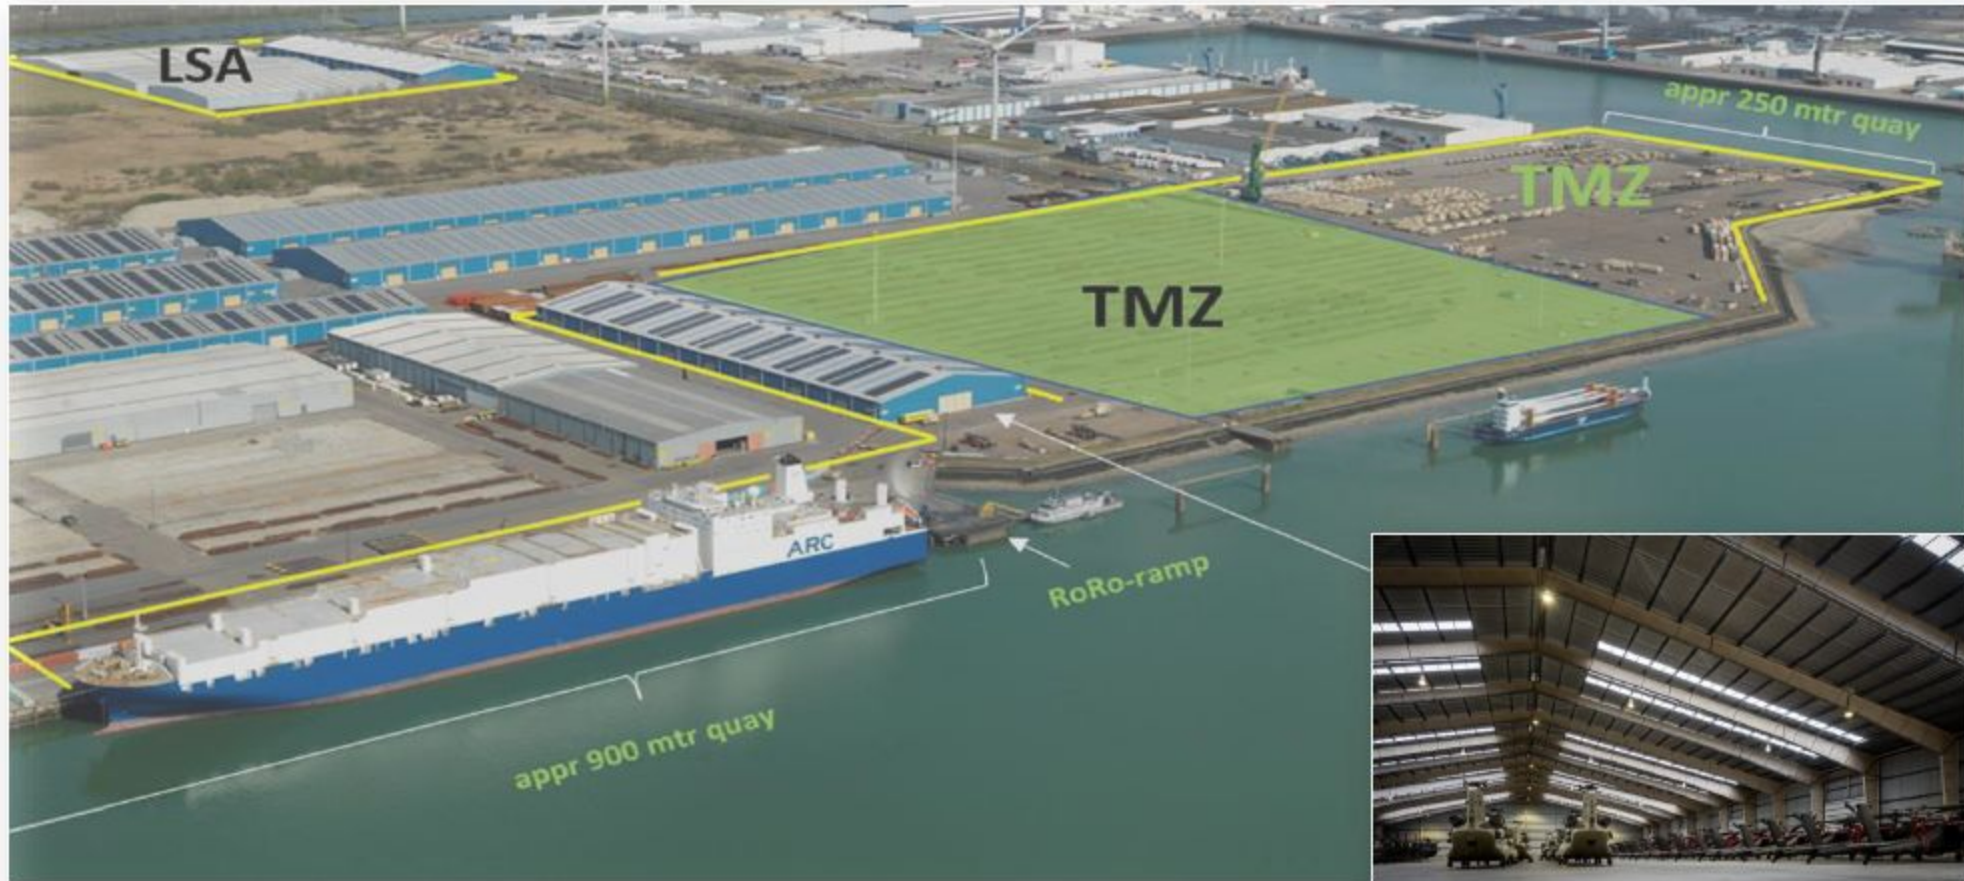

By jointly having access to logistical capabilities, we strengthen each other and work together for a safer Netherlands and Europe.

In case of security crises, Defense is assured of sufficient logistical capabilities, while the business sector can count on financial stability and continuity through participation in the Logistics Ecosystem.

# CSO SPOD Vlissingen: Verbrugge

We make it possible!

*Together, Everyone  
Achieves More!*
