➤ **EURETEX - EUROCORPS ENGINEER TRAINING EXERCISE**

- Hosted by one of EC Framework Nations
- EURETEX is an exercise designed to prepare HQ EC FNs, ANs and SNs engineers, including other specialists belonging to EC GENG area of expertise, for their role in multinational environment by sharing experience, best practices, Tactics-Techniques and procedures.
- The overall aim of EURETEX is to foster and enhance interoperability among Engineer NATO and EU troops at tactical level, mainly focused on the following Functional Areas:
 - ✓ Sappers,
 - ✓ Divers,
 - ✓ Explosive Ordnance Disposal (EOD),
 - ✓ K9,
 - ✓ Chemical Biological Radiological Nuclear (CBRN) Defence,
 - ✓ Military Geography (MILGEO),
 - ✓ Meteorology and Oceanography (METOC).
- EURETEX 24 will prepare exercising troops for a crisis as well as for a direct armed conflict. However, Training and Exercise Objectives focus primarily on NATO Article 5 operations, with an emphasis on area defense.
