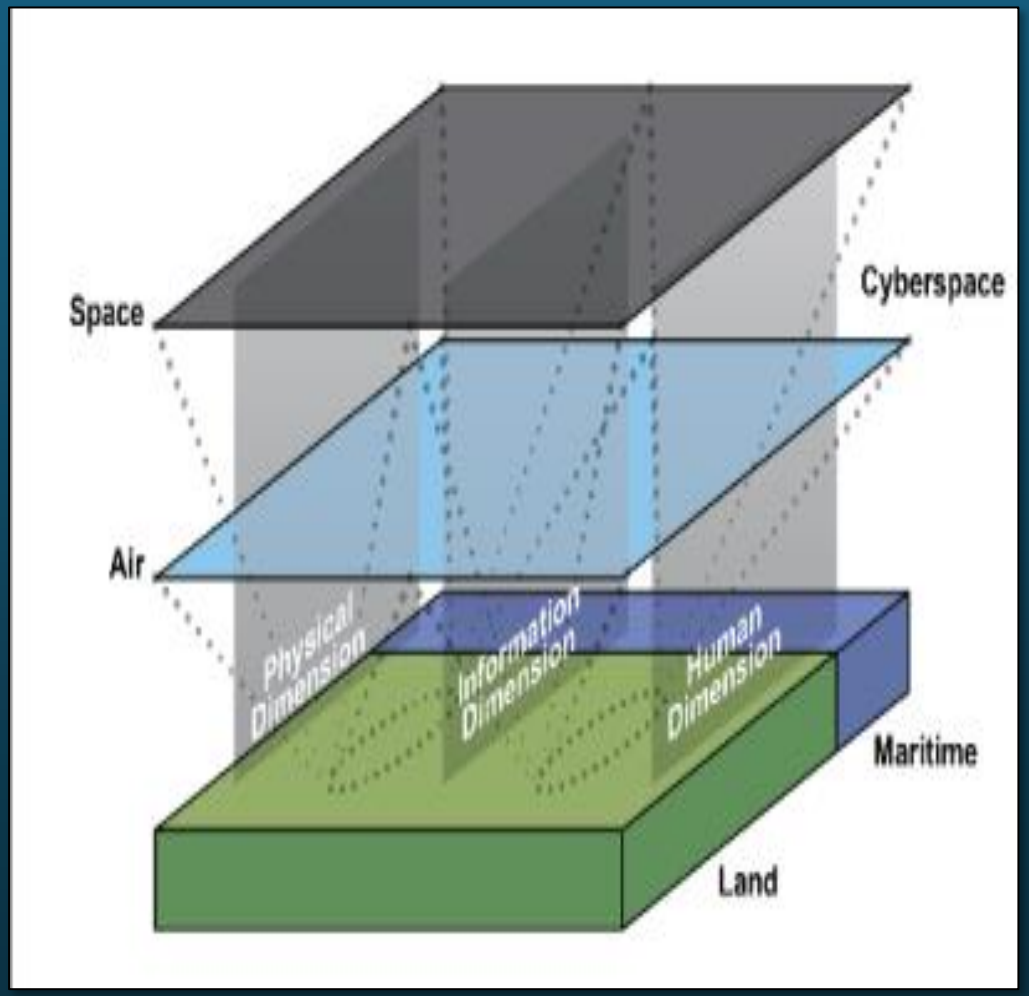
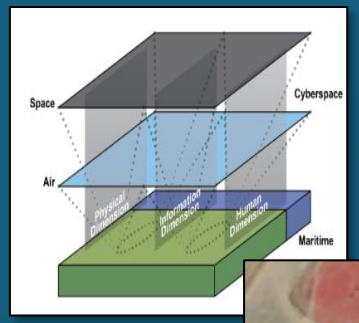
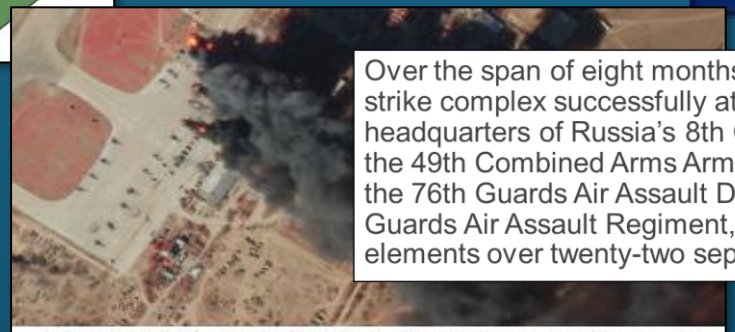
Enhancing shared situational awareness in the NATO land domain through interoperability



Enhancing shared situational awareness in the NATO land domain through interoperability





Satellite imagery shows a large fire and a number of destroyed aerial assets on 15 March 2022 in Russian-occupied Kherson International Airport, Chornobaivka, Ukraine, following a Ukrainian attack. (Photo courtesy of Planet via Twitter)

The Graveyard of Command Posts

What Chornobaivka Should Teach Us about Command and Control in Large-Scale Combat Operations

Lt. Gen. Milford "Beags" Beagle, U.S. Army
Brig. Gen. Jason C. Slider, U.S. Army
Lt. Col. Matthew R. Arrol, U.S. Army

Over the span of eight months, the Ukrainian fires strike complex successfully attacked the headquarters of Russia's 8th Combined Arms Army, the 49th Combined Arms Army, the 22nd Army Corps, the 76th Guards Air Assault Division, the 247th Guards Air Assault Regiment, and their subordinate elements over twenty-two separate times

Policy Brief

Building the Tech Coalition

How Project Maven and the U.S. 18th Airborne Corps Operationalized Software and Artificial Intelligence for the Department of Defense

Single Pane of Glass

By integrating all warfighting functions' digital workflows into a single decision-support system, it accelerates decision dominance and ensures we can deploy, fight, win, and survive/thrive.

Core 4 Services

Collaborate:
MS Office 365+Intune Subscription
G6 or S6 personnel can manage users, devices and apps, and provide a selection of apps based on mission requirements

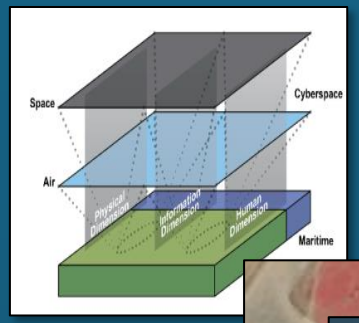
Voice:
Instant Connect
voice over IP with ICE Mobile app enables over the horizon communications and real-time translation with MN partners. Cloud and edge node capable.

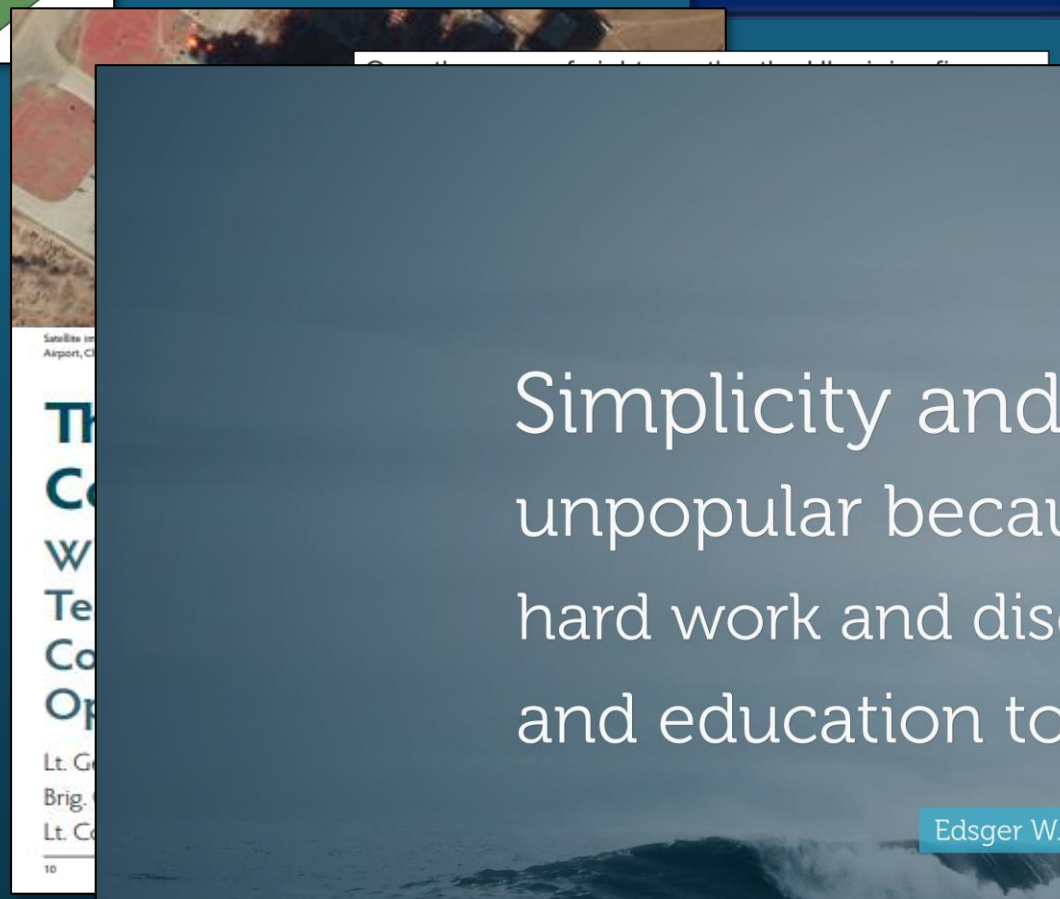
Text:
AWS WickrGov
Persistent, encrypted messaging app can be installed on any device. Cloud and edge node capable

COP/PLI:
ATAK / TMDP
- ATAK provides live PLI
- Live PLI is then updated to Unified COP on TMDP in cloud or edge node

How do we secure the Network?
Zero Trust Access, User identity, mobile device and app management, endpoint security enforced

Enhancing shared situational awareness in the NATO land domain through interoperability





Simplicity and elegance are unpopular because they require hard work and discipline to achieve and education to be appreciated.

Edsger W. Dijkstra
