

# Preparation for high-intensity conflict

## A French Navy feedback

Sensitive – restricted to GDH24 use.

Do not engage French Navy. Topic and subject matter reflect only the opinion of the speaker.

# Agenda

CDR (N) Pol-Aurélien SANDRIN

Commanding Officer  
Center of Expertise for Helicopters  
French Navy

- POLARIS
- Lessons learned from the Red Sea conflict
- Anti-drone fight in aero-maritime

Sensitive – restricted to GDH24 use.  
Do not engage French Navy. Topic and subject matter reflect only the opinion of the speaker.

# POLARIS

- Freedom of Navigation or free place of conflict ?
- Not only a training landmark
- A real change in tactical training
- A mindset that drives the Navy

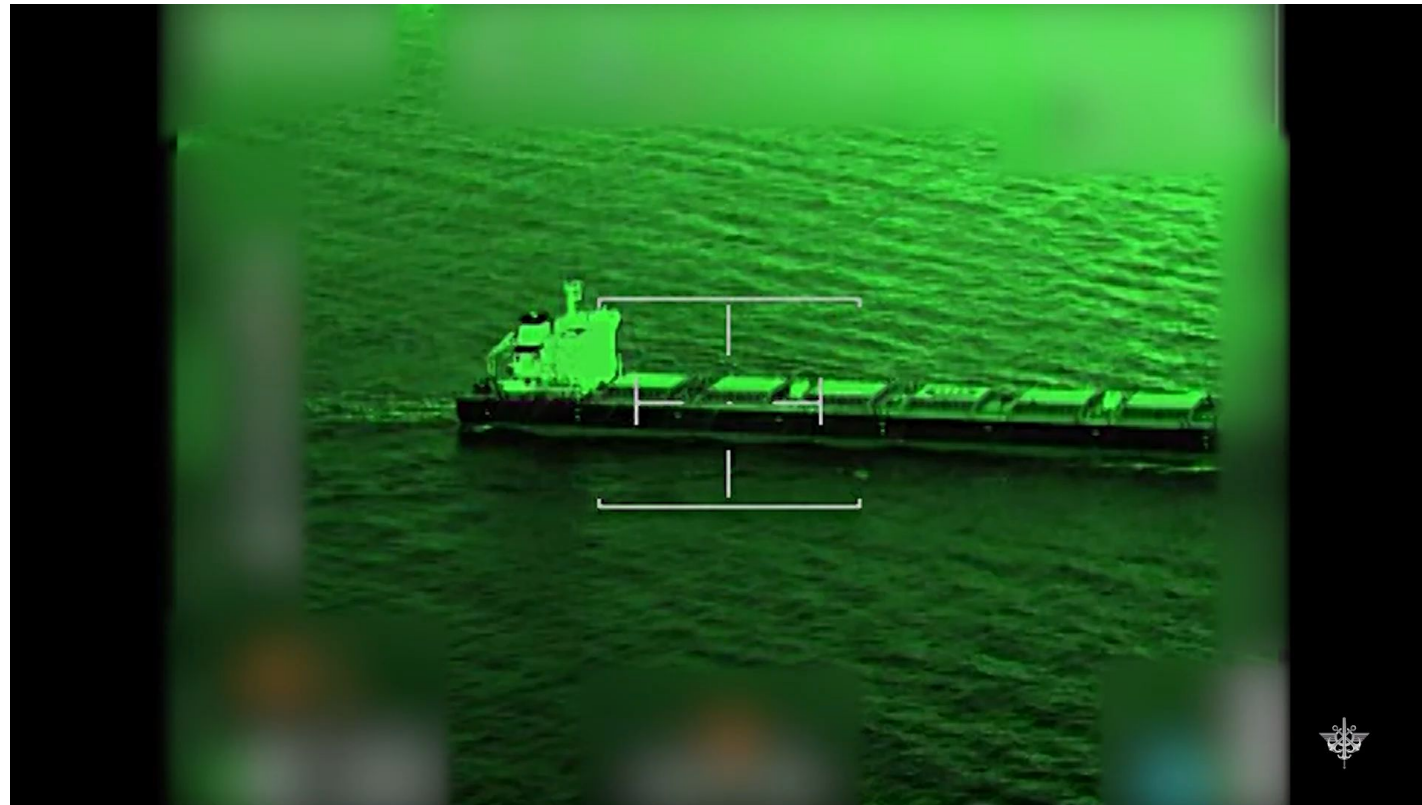

Sensitive – restricted to GDH24 use.

Do not engage French Navy. Topic and subject matter reflect only the opinion of the speaker.

# Case study : Red Sea conflict

- From a concept... to OPS

Sensitive – restricted to GDH24 use.

Do not engage French Navy. Topic and subject matter reflect only the opinion of the speaker.

# Case study : Red Sea conflict

- From a concept... to OPS
- Unexpected OPS results on C-UAV
- Trends : from C-UAV to C-UxV

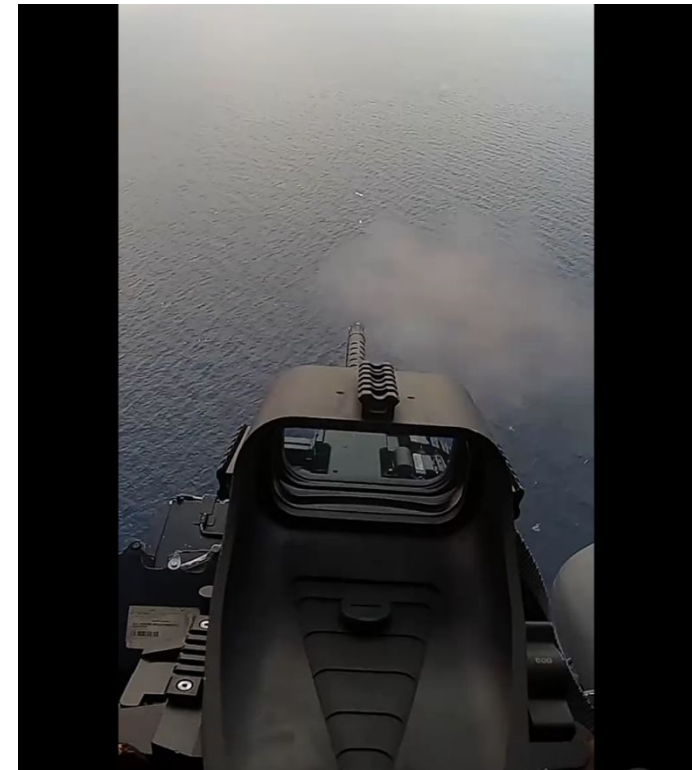

Sensitive – restricted to GDH24 use.

Do not engage French Navy. Topic and subject matter reflect only the opinion of the speaker.

# Anti-drone fight in aero-maritime

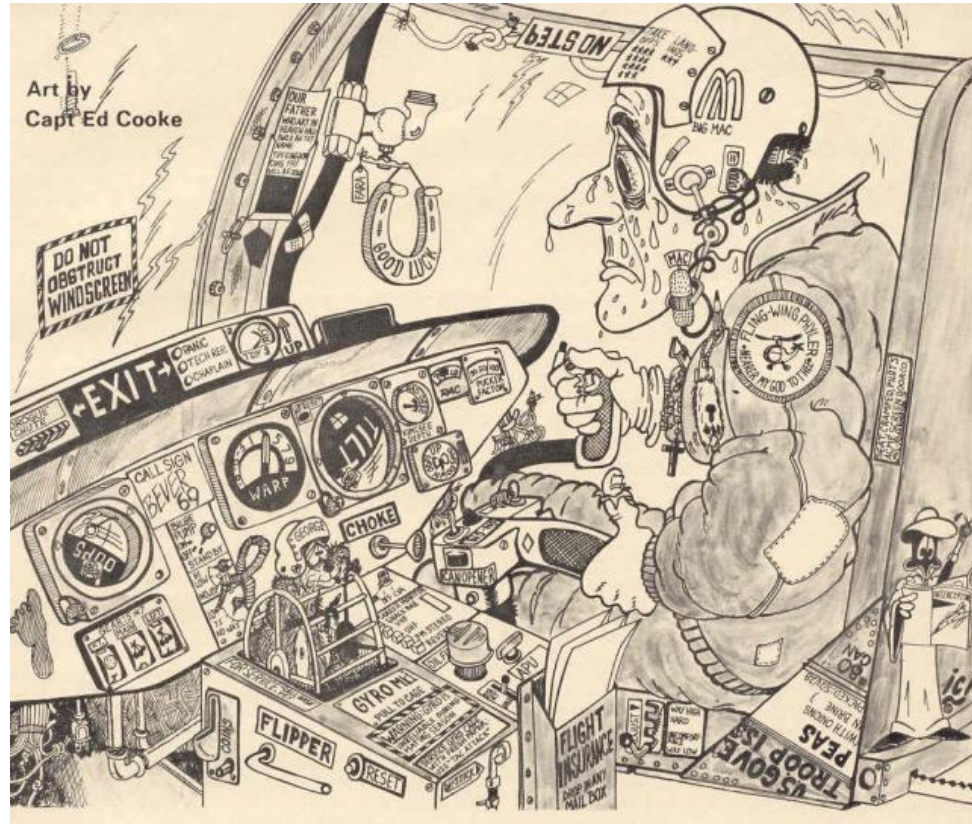

- Shipborne helicopter : an appropriate tool...
- ... which is also at risk...
- ... and could be improved.

Sensitive – restricted to GDH24 use.

Do not engage French Navy. Topic and subject matter reflect only the opinion of the speaker.

Helicopter pilots are different :

They know if something bad has not happened yet, it's about to...

Sensitive – restricted to GDH24 use.

Do not engage French Navy. Topic and subject matter reflect only the opinion of the speaker.
