

The logo consists of three white, stylized, overlapping arrowheads pointing to the right, followed by the letters 'DSG' in a bold, white, sans-serif font. The background is a dark, blue-tinted photograph of various firearms and ammunition parts, including a handgun, a magazine, and a bullet, all resting on a light-colored surface.

RELATIONSHIP BETWEEN SUPERCAVITATION & HYPERSONIC FLIGHT

WHO IS DSG?

NEW CHAPTER. NEW LEADERSHIP.

A detailed microscopic view of a circuit board, showing several circular vias and pads. The board is white with dark, charred areas around the vias, suggesting a high-temperature process or failure analysis. The lighting is bright, creating strong shadows and highlights on the metallic surfaces.

USE CASES

OHIO ORDNANCE WORKS [REAPR] RECOIL ENHANCED AUTOMATIC PRECISION RIFLE (338 NORMA MAG)

ANTI-MATERIAL

ANTI-USV

ANTI-SWIMMER

ANTI-USSV

SIG-Sauer MG 338 (338 NORMA MAG)

SIGSAUER

MARINE SECURITY, PATROL, & INSERTION BOATS

Air-to-Air:
Targets on shore

Air-to-Water:
Below waterline,
targeting boats/crafts
and anti-swimmer

SHIPBOARD DEFENSE

Swarm Defense

Superior Firepower against small, fast crafts with ability to provide terminal effects below the waterline

Port/Harbor Defense

Ability to project terminal effects below the water line against swimmers and USV's

AIRBORNE/ ROTARY WING PLATFORMS

Anti-Mine

The ability to disable initiation devices in submerged naval mines

USV/UUS Defeat

Ability to terminate light, armored USV/UUV's at depths

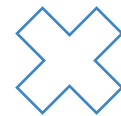

SYSTEMS INTEGRATION

Medium Caliber Shipboard Defense

Counter Torpedo / CIWS

Using existing data from our Research & Development of behavior
