ADDITIONAL | INFORMATION

Wood Packing

All cargo containing wood entering into the EU (except coming from Switzerland) must be fumigated in its country of origin prior to shipment. This regulation includes but is not limited to such items as crates, pallets, frames, drums etc. To guarantee that the fumigation has been applied, the following information **MUST** be marked or stamped onto the outside of each package.

- IPPC logo
- ISO country code
- Licence number assigned to the fumigation company
- Fumigation method (Heat Treated or Methyl Bromide used)

Export Control

The UK Export Control Order 2008 controls the exports of strategic goods (Both Military and Dual Use) the transfer of technology and the trade of military or governmental equipment.

Both UK and EU Legislation demands that the Exhibitor or Shipper Must declare to CEVA Showfreight, any items that are included in the 'UK Military List or the EU Dual Use List' prior to them leaving at the close of the Exhibition. It is a legal requirement that the correct Export Control procedures be applied at the time of re-export.

It is therefore important that the exhibitor is aware of the relevant legislation and a declaration is shown clearly on your return shipping instructions and any documentation accompanying your shipment.

For the return shipping from the UK, it is the exhibitor's responsibility to declare to CEVA Showfreight any items that ARE subject to export controls clearly on your commercial invoice per line item.

If, having checked your exhibits against the UK Control List you are satisfied export controls are NOT subject to UK Export Controls please state clearly on your commercial invoice "The goods included herein are not subject to UK Export Controls".
