ELECTRICAL MAINS SPECIFICATION – PLEASE READ

- An electrical main includes the installation, maintenance, and removal of mains cable, which will terminate in a fused isolating switch at a position on the stand.
- As indicated on the customer's dimensional drawing in accordance with the venue rules and regulations.
- The prices quoted include the cost of current during the open period of the event but do not include the current during build-up or break-down that will be subject to a surcharge, nor does it include connection to any equipment on the stand. All mains energised during the build-up will be switched off at the end of each day according to the published daily tenancy and times for the build-up.
- During the open period, standard mains will be switched on and off daily; half an hour before and after the exhibition starts and closes respectively.
- 24-hour mains will be switched on half an hour before the start of the exhibition and off at the close of the last day's open period.
- Orders received less than 14 days before the first day of tenancy will be subject to a surcharge.
- Orders must be received with a dimensional drawing illustrating the position of the mains along the venue's floor ducts.
