4 OPERATIONAL SITES

- Appledore
- Arnish
- Belfast
- Methil

3 REGIONAL OFFICES

- London
- Aberdeen
- Southampton

OUR UK DELIVERY CENTRES

With four sites of operation and concurrent build and fabrication capabilities, we're well-equipped to handle a wide range of ad hoc and scheduled projects.

ARNISH, NORTH WEST SCOTLAND

Offers unrestricted access to the Atlantic and North Channel.

Overview:

- 38 hectare development site on the Isle of Lewis
- Purpose-built fabrication and assembly halls
- A deep-water quay

Suitable for: Facilitating the shipment of materials and completed fabricated components.

BELFAST, NORTHERN IRELAND

A critically important UK strategic asset.

Overview:

- 81 acres
- Two of the largest dry docks in Europe
- Two 810 tonne 'Goliath' gantry cranes
- Over 30,000m² of covered fabrication halls

Suitable for: Large-scale fabrication projects, from mass volume to very large structures.

METHIL, EAST SCOTLAND

A deep-water estuary with unrestricted access to the open sea.

Overview:

- 165,000m² production area
- Two load-out quays with 20,000 tonnes capacity each
- 7,500m² of covered fabrication areas
- One of the largest final assembly halls in Europe

Suitable for: Facilitating the shipment of materials and completed fabricated components.

APPLEDORE, NORTH DEVON

Birthplace of over 300 vessels, including military craft, patrol boats and bulk carriers, super yachts and ferries.

Overview:

- 119m long covered dry dock
- Repair, commissioning and outfitting quays

Suitable for: Sensitive, prestigious or concurrent fabrication and construction projects.
