Capability*

Permanent Structure Cooperation (PESCO)

European Defence Fund (EDF)

The infographic displays the PESCO structure with various programs and participating countries. At the top, a row of flags is followed by program names: 4E, UMS, MUSAS, EPC, EUNDC, MAS MCM, CSIP, ATT, and NGMH. Below these are icons representing each program. The middle section shows a grid of flags representing participating countries. At the bottom, logos for the European Defence Agency and the European Union are visible.

EDF Work Programme 2023

EUR 1.18 billion

34 topics | Content published on 30 March | Deadline for submission: 22 November 2023

INFO DAYS 2023

Topic	Sub-topics	Value	Sub-topics	Value
Medical Response & CBRN	Federated CBRN systems	15 000	Air combat	Smart technologies for next generation fighter systems: 20 000
	2 nd 5Gt. under 500. as medical countermeasures	25 000		Self-protection systems: 23 000
Information superiority	Lower communications	17 000	Air & missile defence	Counter-DESS: 43 000
	Threatful 5G/5G-LTE	42 000		Endo-atmospheric interceptor (deal concerning direct award): 60 000
	Detect and avoid	48 000	Ground combat	Main battle tank technologies: 20 000
Sensors	Electromagnetic signal propagation	23 000		Long range indirect fire support: 27 000
	Optoelectronic detector	20 000	Protection & resiliency	Defeating unexploded ordnance ordnance and IEDs: 20 000
	Sensor grid	37 000		Strategic air transport for extended range: 20 000
Cyber	Automation of security penetration tests (Auto-PT)	14 000	Naval combat	Modular and multi-role patrol corvette: 104.5 000
	Cyber situational awareness	20 000		Underwater warfare
	Deployable autonomous AI agent	24 000	Mine countermeasures: 42 000	
Space	Threats surveillance and protection of space assets	20 000	Disruptive technologies	Laser based directed energy weapons: 20 000
	Space situational awareness	100 000		New chemical research: 10 000
Digital transformation	Dedicated hardware architectures for energy-efficient AI	20 000	SWTs	Non-chemical research for SMAs and SWTs: 20 000
	Human language technologies (challenges, 2 topics)	20 000		Non-chemical development for SMAs: 10 000
Energy & Environment	Innovative propulsion systems (open-td)	20 000	SWTs	External expertise, audits, IT, indirect management: 0.5 000
	Materials & Components	High-performance materials (open-td)		20 000
		Maintenance, repair and repair (cross-border defence innovation network)	20 000	Standing facilities for equity funding for SME/CoMid-Caps: 20 000
			EDF hackathon events: 0.5 000

F-100

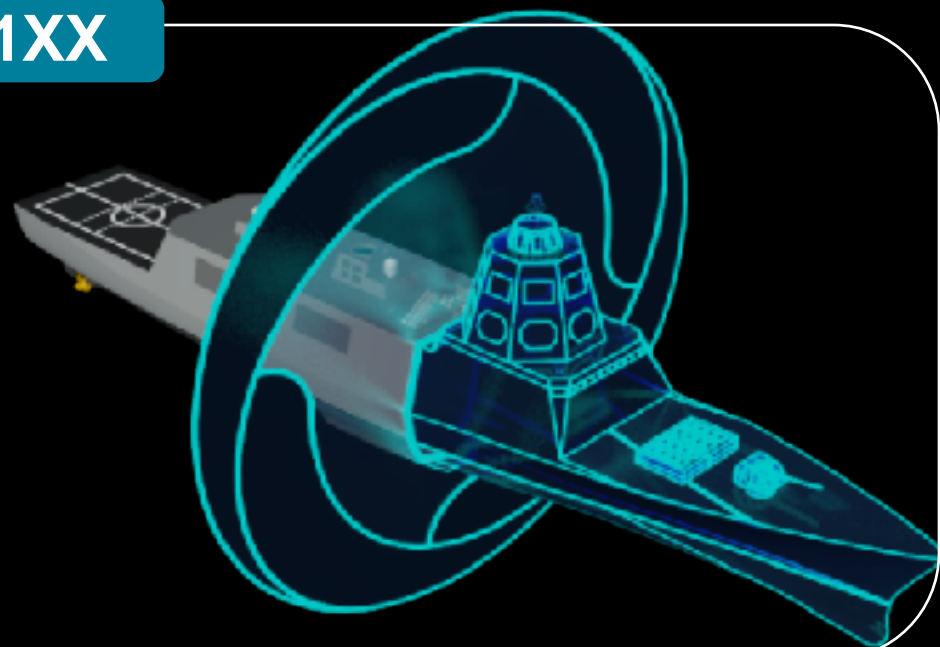

F-110

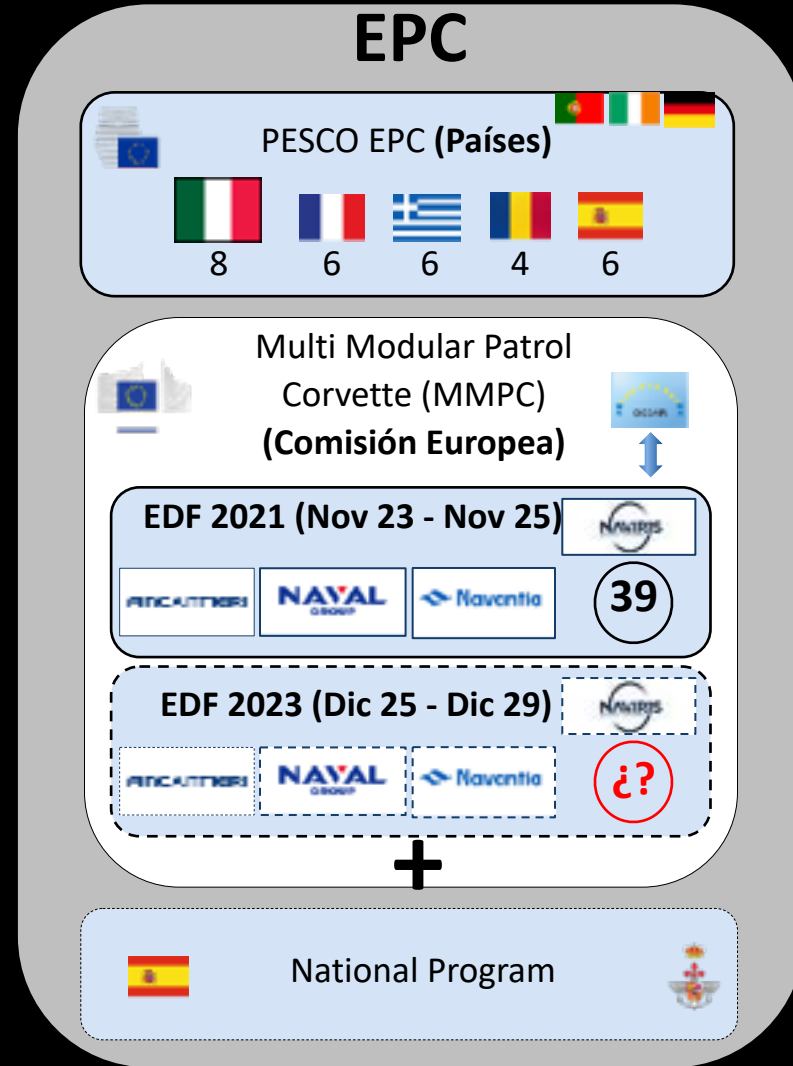

European Patrol Corvette

F-1XX

European Patrol Corvette (EPC PESCO)

Essential Elements of European Escorts (4E PESCO)

Platform Management System:

- Enhanced Integrated Platform & Management System

Communication System:

- Enhanced Cognitive Electronic

Combat System:

- Multiband 4D Radar.
- DEW.
- Extended ASW Comms.
- USV Multirole Modular.
- Small Size UUV. MAP
- C-UAS/USV

Navigation System:

- Satellite Independent Positioning
- Autonomous Navigation System

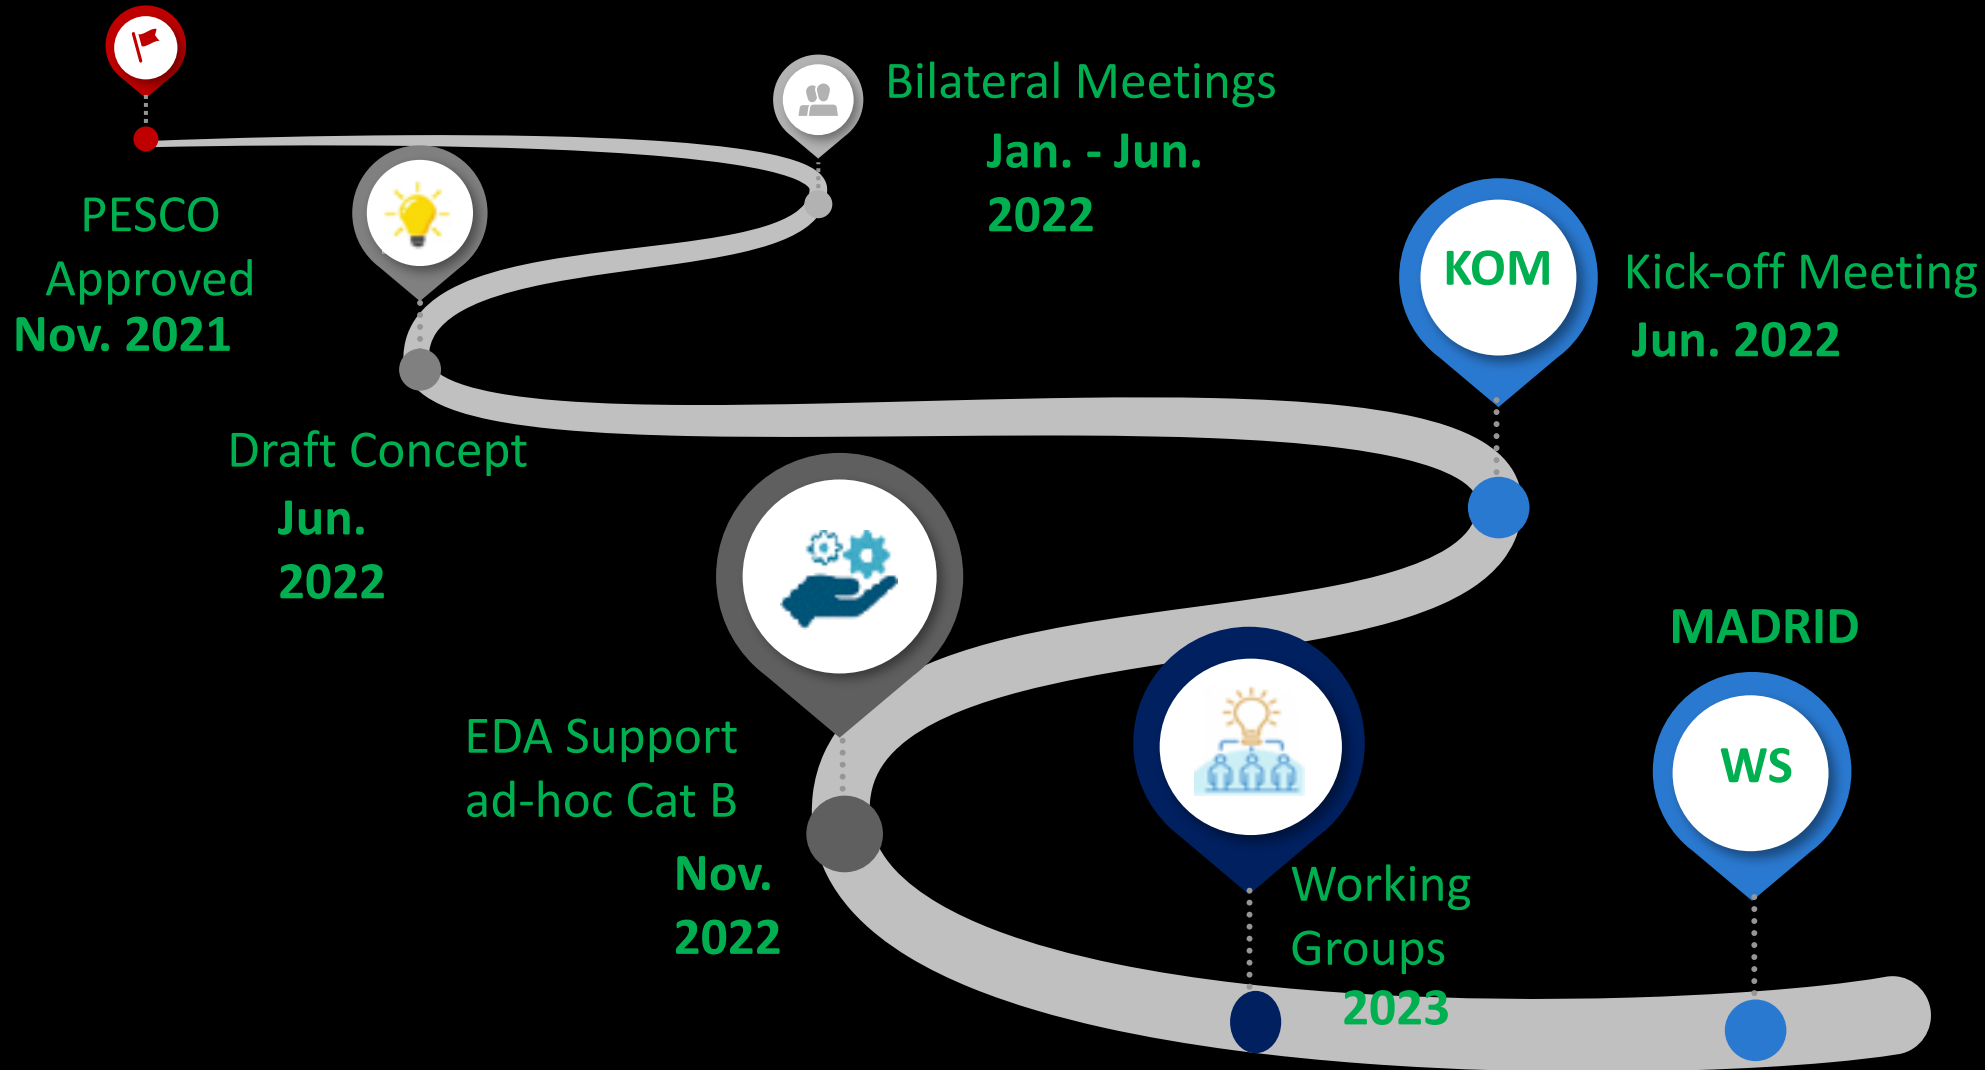

System of Systems

- Smart System of Systems.
- Artificial Intelligence.
- Naval Combat Cloud.

Essential Elements of European Escorts (4E PESCO)

Collaboration among navies/industries
