TACTICS  
PROCEDURES  
OPERATING ENVIRONMENT

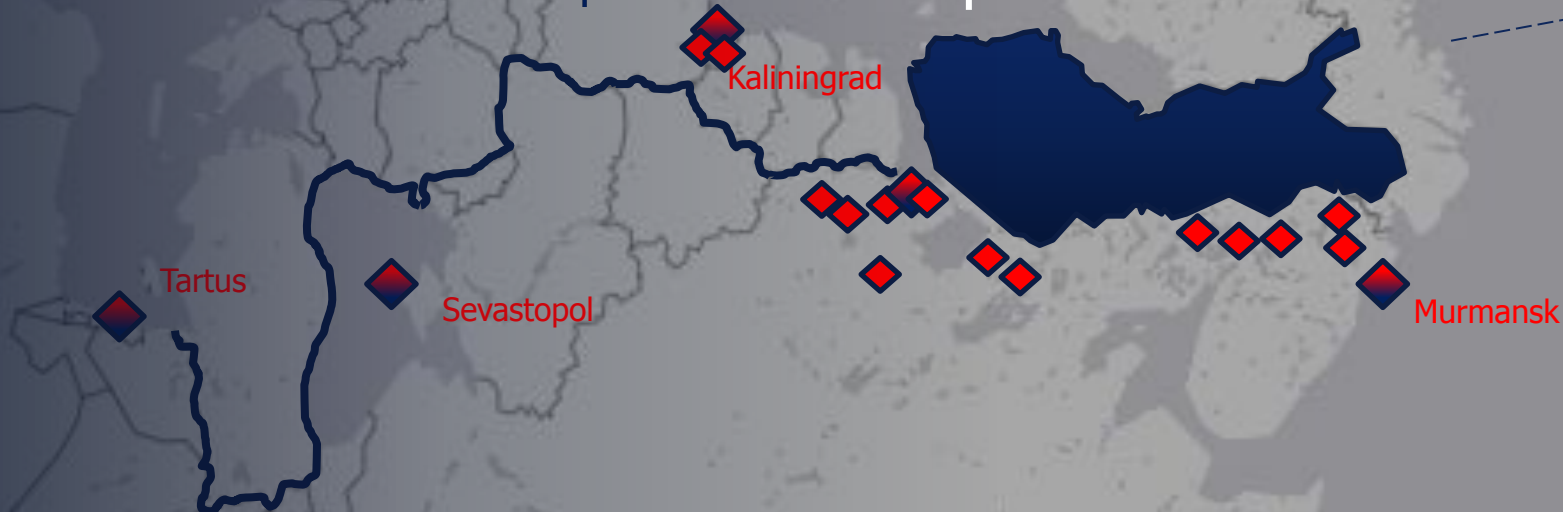

Collaborative efforts address unique challenges in the Arctic and Baltic region

Finnish Navy tailored capabilities for operations in the Baltic Sea.

Littoral operations integrate coastal surveillance, firepower, and mobility.

- RUS bases
- RUS Naval Bases

# COORDINATING OPERATIONAL EFFORTS

- Coordination ensures readiness to counter threats in the Baltic Sea and Arctic waters
- Finnish Navy integrates into NATO's pre-planned multi-domain operations, enhancing maritime interoperability in the Baltic Sea region.
- NATO plans that are exercised and updated regularly

MOBILITY

INCREASED PRESENCE

CTF BALTIC

- Finland's accession enhances the Navy's role in NATO's collective defense across the Baltic **365/24/7**.
- Advanced naval technologies and coordination with allies secure maritime resilience.
- Continued focus on maintaining robust maritime defense capabilities within the evolving security environment
- Shared maritime awareness as the foundation for achieving the desired effects at sea

# ***We are the Finnish Navy***

***We are stronger with NATO – NATO is stronger with Finland***
