

Taste nature,
taste life...

 **candianuts**TM
allnatural

Candia Nuts was established in 1992. Although it is a family-owned business, since its foundation, it has been one of the key players in the Greek food sector.

The company owns state-of-the-art, fully-certified production facilities, based in the area of Malades, Heraklion-Crete, Greece.

Our original specialty was to standardize and pack fine quality honey and dried nuts.

However, as the company was growing, series of new products were added to the assortment, such as nut bars with high quality honey, soft nougat bars, caramelized nuts and other traditional sweets from Greece and the Mediterranean.

The vision of Candia nuts family is to design and create beautiful, delicious and innovative products. Committed to the promise to provide consumers with high quality products, the company is certified to apply the following quality management and assurance standards:

ISO 9001: 2008, ISO 22000: 2005 and IFS (International Food Safety Standard) at Higher Level.

In recent years, Candia Nuts has managed to expand in several markets serving both high end as well as mainstream grocery retailers.

The company's products are available under its own brand as well as under private label projects.
