- Dill
- Chives
- Rosemary
- Baby Spinach
- Rocket

Summer (May – August)

- Basil
- Rosemary
- Rocket
- Baby Spinach

About our Farm

The farm is located in the Jordan valley which is around 350 meters below sea level. Products are grown in a semi hydroponic system using Volcanic Tuff as a growing medium. Peak production is in winter which coincides with production drop in Europe due to cold weather.

All of the produce is air shipped 3 times a week to the UK ending up in stores such as Marks & Spencer, Waitrose, Aldi, Tesco and others.

We also supply units in KSA & UAE.

The farm is GAP certified and also has several other certifications in order to comply with EU and UK standards.

Facilities

Certifications

Packaging

Del Monte branded boxes

Loose or bundled in 1 Kg & 3 Kg boxes

Shelf life and Storage

- For Basil it can last for 2 weeks if cold chain and storage is as required between - 8 to 10°C.
- All other varieties can last for a minimum of 3 weeks from arrival (except for coriander) when stored at 2°C.

Specification
