UNDER THE PATRONAGE OF HIS EXCELLENCY

MR. BANDAR BIN IBRAHIM AL-KHORAYEF

MINISTER OF INDUSTRY AND MINERAL RESOURCES

MODON hosts the largest concentration of food factories in the country, totaling over 1,200 establishments. It has experienced **remarkable growth, surpassing 31%** in recent years. **MODON** aims to become the preferred hub for both local and international food industry firms. This entails fostering an inviting investment atmosphere conducive to the sector's advancement and prosperity. By offering robust industrial infrastructure, logistical support, and Fourth Industrial Revolution technologies, **MODON** aligns with the National Strategy for Industry, prioritizing the localization of key sectors like food and beverage to enhance the Kingdom's food security in accordance with **Saudi Vision 2030**.

After the success of the first edition of the **Saudi Food Show** last year, the first edition of the **SaudiFood Manufacturing Show 2024** also comes with a strategic partnership with MODON, reflecting MODON's pivotal role in achieving the goals of the National Strategy for Industry, and the Saudi Vision 2030, to achieve food security and effectively contribute to diversifying the national economy.

MODON currently supervises 36 industrial cities throughout the Kingdom of Saudi Arabia, which are considered integrated industrial and investment communities in accordance with the best international standards. They include an advanced system of industrial, logistical and service capabilities, and technologies of the Fourth Industrial Revolution, to localize local and global private sector investments, stimulate entrepreneurship projects and small- and medium-sized enterprises, and support supply chains. This includes providing developed industrial lands, support units, and ready to use factories, among others, in addition to creating smart solutions to preserve the environment, reduce carbon emissions, and support the concepts of humanization and quality of life, within the framework of the **MODON's** strategy to transform the cities into green industrial cities.

ALI ALOMEIR

VP of Business Development
Saudi Authority for Industrial Cities
and Technology Zones

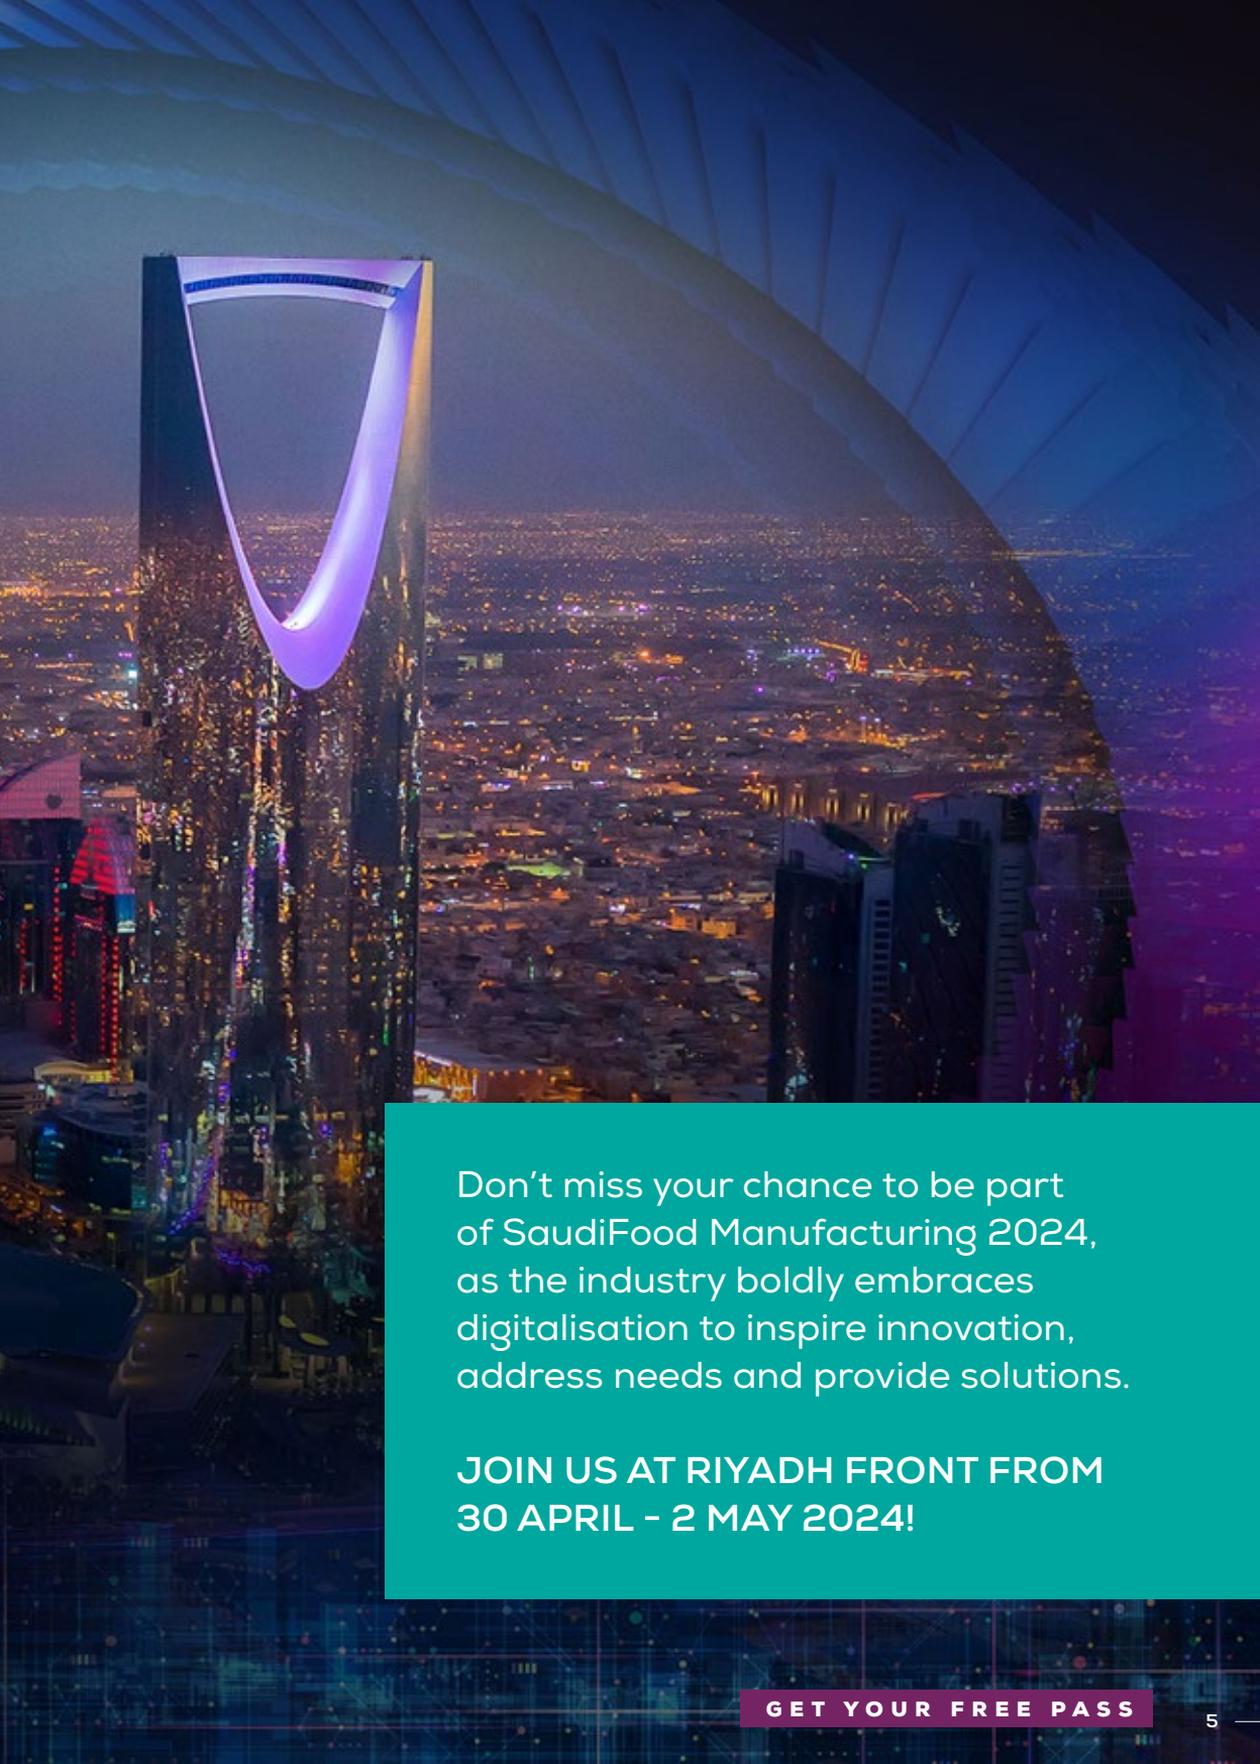

WELCOME TO THE
FOREFRONT OF FOOD
MANUFACTURING
INNOVATION

SEIZE THE FUTURE

Embark on a historic journey with SaudiFood Manufacturing, pioneering the evolution of the Middle East's largest F&B manufacturing market. Experience unrivalled diversity and seize the opportunity to harness Saudi Arabia's vast potential, propelled by unwavering government support.

Join us as Saudi Arabia leads the charge towards a transformative future in F&B manufacturing, driven by Vision 2030 objectives. With a projected \$20 billion injection by 2035 poised to revolutionise sectors such as dairy, bakery, sweets, poultry, and beverages, Saudi Arabia stands at the forefront of innovation. Leveraging its BRICS status, burgeoning tourism, and renowned regional food hub, Saudi Arabia's \$45 billion F&B market is not just ready for growth—it's defining the future of global food manufacturing.

Don't miss your chance to be part of SaudiFood Manufacturing 2024, as the industry boldly embraces digitalisation to inspire innovation, address needs and provide solutions.
