

Green Fields
مصنع السهول الخضراء للزيوت

Company Profile

THE BEGINNING

2004

We started as an oil press with the intend of bringing pure and natural products to the market.

What we do Since this time we have grown. We also manufacture Steam Distilled Oils, Hydrosols, Seeds Paste like Tahini and Black Seed Paste. Sea Salts from the dead sea with herbal extracts for food, and Natural Soaps.

We also manufacture Gluten Free Flours like coconut and almond flour, maize, etc...

Recently we produced a new range of vegetable gelatin capsules filled with healthy oils like Nigella Sativa, Flax, and Pumpkin Seed oil.

How we produce We do not use Solvents, Chemicals, Preservatives, Animal Products and GMO seeds and plants. Our products are Gluten Free.

Who we supply Green fields Oils has grown to supply major malls, hotel chains, health and herbal shops and pharmacies in Jordan. We also supply raw materials to manufacturing companies.

HIGH QUALITY OILS

Our plant ensures that both the seeds and oil are not exposed to any chemicals or materials which could affect its natural contents.

TAHINI

Green Fields Stone Ground Tahini. Sesame seeds crushed using stones. A delicious somehow liquid paste. Excellent for bread dips hummus, or when added to special dishes. It has a strong delicious sesame smell

NATURAL UNTREATED

SEA SALTS

Essential for proper brain, muscle and nervous system function. Sodium regulates water in the body. It's also required for the transmission of electrical signals.

Where we export We currently export to USA, UK and Eastern Europe and Canada. Also to the Middle East.

What differentiates our oils Due to our special procedures and choosing only the finest seeds, nuts, and herbs our oils are high in nutrients and undamaged fatty acids. The seeds are pressed using modern machines which use a screw press to ensure that the only heat generated during the process of oil extraction is from the friction of the seeds. Currently we have more than 70 different oils and we are expanding. Our oils are Fresh, 100% Pure, Virgin from first press, without additives, and each batch is tested several times. We also have essential oils produced with steam distillation. Hydrosols are also available.

Green Fields Oil Factory was established with the aim of bringing High Quality natural healthy and pure products to the market.

EXCLUSIVE

HAIR CARE

Natural oils that have an effective ability to care for hair, these oils and use of the most natural and safe way to care for hair, without harm, or endanger the side effects of those chemical compounds

NATURAL SOAPS

BEST COCONUT OILS

is considered as one of the best natural nutrients for hair. Coconut Oil gives hair a healthy and attractive glow. If used frequently, Coconut Oil prevents dandruff

What certificates We adhere to the HACCP principles to ensure a safe end product. We are an ISO22000, Certified company. Our Black Seed Oil is Halal.

Our impact on the community We raise an effort to use resources efficiently and support and use renewable power. We recycle our waste and use it in other projects.

We provide local and environmental support for local communities by buying raw material from farmers although it is more expensive. We benefit cooperative societies

We also buy locally produced items from households like Pistacia Atlantica Seeds, Wild Pine Kernels which are collected by the local farmers and are usually family based farms.

Our employees We currently have 15 employees mostly females.

Our Slogan 100% Purity Guaranteed
