

## Customizing Your Event Graphics

These templates are designed so you can quickly add your own branding and booth details.

### How to Update Your Graphics

- 1. Add Your Logo**  
Place your company logo in the large white area on each design.
- 2. Add Your Booth Number**  
Insert your stand or booth number within the designated white area.
- 3. Export Your Final Files**  
Save each graphic as a PNG or JPG at the original dimensions provided.

### Recommended Tips

- Use a high-resolution logo with a transparent background (PNG format is ideal).
- Keep your logo centred within the white area.
- Ensure booth number is clear and easy to read.
- Avoid placing important content outside the white placeholder area.

The preview shown uses a placeholder logo and booth number for demonstration purposes only. **Your final graphics will display your own company logo and booth information in these areas.**
