ANGOLA OIL & GAS AT A GLANCE

Angola stands at the forefront of Africa's oil and gas renaissance, positioning itself as a premier destination for upstream investment and hydrocarbon development.

With over **\$60 billion** in planned investments, the country's diverse portfolio - spanning available acreage, marginal fields and ongoing licensing rounds - presents a wealth of opportunities for industry players looking to capitalize on one of the continent's most dynamic oil and gas markets.

Taking place on 3-4 September 2025, the Angola Oil & Gas (AOG) Conference returns as the definitive platform for

dealmaking, investment and high-level engagement in Angola's oil and gas sector.

Bringing together global investors, government stakeholders and industry leaders, AOG serves as a gateway to lucrative opportunities while driving conversations that translate into tangible business outcomes.

AOG 2025 will facilitate strategic partnerships, showcase groundbreaking solutions and unlock new ventures in Angola's oil and gas landscape - cementing its role as Africa's top oil and gas investment destination.

H.E. JOÃO LOURENÇO
PRESIDENT, ANGOLA

"It is an honor to accept the invitation to preside over this important event. Congratulations to the Ministry and ECP for organizing this event under the theme *Driving Exploration and Development Towards Increased Production*. This conference has importance and takes place when the geopolitical and macroeconomic situation has created challenges for the development of oil and gas."

H.E. DIAMANTINO AZEVEDO
 MINISTER OF MINERAL RESOURCES,
 PETROLEUM AND GAS, ANGOLA

"I would like to reiterate: drill baby drill. The Angolan government has been promoting reforms to improve the legal instruments to create more competitive conditions for investment. In this instance, the traditional companies in our market have been expanding their interests in exploration and the development of oilfields. Our greatest challenge is the decline of oil production and we would like to reiterate our commitment to our partners in the industry as well as our international and regional counterparts."
