

MAXXIS VICTRA SPORT 5

Performance when it's wanted. Safety when it's needed.

The Flagship **Maxxis Victra Sport 5 (VS5)** range is testament to Maxxis' significant commitment to research and development.

Designed for a vast range of car and SUV fitments, the VS5 offers superior levels of safety, comfort and overall performance, making it a compelling alternative replacement tyre fitment for all modern vehicles.

The VS5 has been a regular on the podium in Australian independent tyre tests.

A hybrid twist nylon/aramid cap ply **improves highway stability** while also **enhancing ride comfort**.

High performance polyester with very high denier in the body ply to **increase tensile strength and reduce weight**, produces **sharpened handling and steering response**.

Highly dispersible silica tread compound, processed through a new improved homogeneity mixing process, **delivers exceptional wet grip** while retaining **strong mileage performance**.

Chamfer edge tread blocks further **reduce wet braking distance** and **improve overall safety in the wet**.
