Established in Australia over 40 years ago we have a rich history in the 4WD industry; owned and operated by genuine 4WD enthusiasts. Our industry experience ensures that we can always offer expert advice and provide the widest product range to supply all the gear for your next 4WD mission.

With an Australia-wide guarantee, you'll have total confidence when taking your rig on an adventure. Whether you're after a new product, have got yourself into some strife, or just need a part checked out; You can expect the same friendly service and assistance in all our stores nationwide.

So don't be a stranger, come on down to your nearest Opposite Lock store and discover more about our comprehensive range of products and accessories for all popular 4x4 and SUVs; check out our website and join our social platforms for more.

## BULL BARS

The Opposite Lock Post Type Premium Bull Bar is our spin on traditional frontal protection, uniquely designed and engineered in Australia to complement and enhance each vehicle's original aesthetics. Our engineers design these bars to offer maximum frontal impact protection with features that allow you to personalise your vehicle with accessories that suit your lifestyle. The bars are finished with a black matte powder coat or can be colour coded to match your vehicle.

With serious good looks, extreme off-roading capabilities, airbag and ADR compliant and the durability that real steel and Australian design delivers. Xrox gives you the protection you need with the clearance you crave.

The PIAK Elite Bars in both the Post and No Loop style offer a fresh take on the standard Bull Bar design. The PIAK range of products has been specifically designed to perform when needed whilst maintaining a sleek and unique look.

East Coast Bull-bars utilize a hi-tensile alloy, which is industry-leading in thickness and strength that have been proven in our products for almost 50 years.

# SIDE STEPS AND RAILS

The Opposite Lock Steel Side Steps and Rails are for navigating tight tracks, driving rocky outback roads, or steering through supermarket carparks, our premium steel side protection range not only helps prevent damage to your exposed side panels but also assists you in getting in and out of your vehicle and reaching your roof to get your gear up and down. Like our bars, our proprietary Opposite Lock side steps are engineered, designed and manufactured uniquely for each vehicle. Our steps feature a checker plate finish that won't harbour dirt, grit or mud and can help deflect road debris when driving.

The PIAK Side Steps are a fresh outlook to an old tradition. The PIAK range of products has been specifically designed to perform when needed whilst maintaining a sleek and unique design.

# LIGHTING

## ROADVISION

Built tough for work and play, Roadvision provides the ultimate high performance LED lighting solutions for a range of applications.

## LightFORCE

Whether camping in the wilderness, hunting a predator or off-roading through rough terrain, we are there to light the way. Based in Australia, Lightforce equipment is tested in one of the harshest environments in the world; a place filled with adventure and opportunity. Lightforce continues to build its global presence by serving those who value innovation, performance and design.

Ultra Vision is an Australian based manufacturer producing LED lighting for extreme environments focusing on recreational and heavy industrial applications.

## Lazer Lamps

All our lights utilize high output (premium 'bin') LEDs, and class-leading reflector systems designed to maximize light output in varying beam patterns optimized for road and off-road use. Lights have a 5-year warranty (2 year for Utility Series) and are built to last.

ROADVISION

# SUSPENSION AND COMMUNICATION

Tough Dog has been making tracks across the world since 1984 and has grown rapidly as a result of the excellent reputation their quality gear commands. Today, Tough Dog products are sought after the world over, and the distribution network spans 28 countries around the world. With some of the harshest conditions right here in Australia to test out products, the gear that makes it to the market is a cut above the rest.

When you purchase Outback Armour suspension you benefit from more than 30 years experience with our full range of struts, shock absorbers, steering dampers, coil springs, leaf springs, u-bolts, shackles, pins and associated fitment hardware.

Uniden is committed to producing high quality products with all of our manufacturing facilities with a strict internal quality control system to ensure customers are receiving the best quality products in the mark.

For over 60 years, GME has been an industry leader in the RF communication technology space. GME remains a family-owned private company, and is proudly 100% Australian. We are the only Australian manufacturer of UHF CB Radios and Emergency Beacon products, holding significant market share in these segments through an ongoing focus on innovation and technology leadership.

# WINCHES AND RECOVERY

**KINGONE TDS 9500LB** The TDS is the reason KingOne winches are so well known within the Australian 4WD accessory market. The TDS9.5S was awarded 1st place in Australian 4WD Actions Battle of the winches, it was also voted best value for money and lightest winch. The KingOne TDS 9.5 is made to work through the toughest conditions. Additional waterproofing features include specifically manufactured sealed motor drum supports and V-ring seals inside the drum flanges.

## Recovery boards

Recovery Boards are the ultimate all-in-one off-road recovery device, specially designed to get your four-wheel drive, ATV and equipment out of trouble when traction is lost in sand, mud, sludge, or slime.

## Recovery kit

Having a complete recovery kit on-board gives you the confidence to know that no matter how stuck you get, you'll have the equipment to get back on track right there with you. With all the essentials for both snatch and winch recovery situations packed into the heavy-duty bag, you'll always be prepared.

# ROOF RACKS, PLATFORMS, AND AWNINGS

## Darche

The Darche pull-out awnings provide instant cover to any kind of camping setup. Perfect for new and seasoned campers alike, their awnings are easy to integrate into your kit. The new and updated slimline profiles are conveniently lightweight while also reducing the weight you'll be adding to your rig and any added wind resistance.

## RhinoRack

Rhino Rack have a huge range of industry-leading roof rack systems. These are an excellent space-saving alternative for carrying cargo and equipment. Rhino Rack offer a wide range of roof racks, roof trays and storage solutions that can be fitted to your vehicle.

**RHINO-RACK**

# SNORKELS, CANOPIES AND ROLLER SHUTTERS

Safari 4x4 Snorkel Systems are manufactured to the highest standards in durable, UV stable, cross linked polyethylene material and deliver a continuous and cooler supply of air for maximum engine performance. Each system includes quality fixtures and fittings that deliver superior sealing, OEM levels of presentation and long-term durability.

**Canopies** - Having entered the Canopy market in 2010, EGR is the market leader in Canopy manufacturing and supply across Australia. No matter how you use your vehicle, EGR has a canopy for you.

**Roller Shutters** - The Electric and Manual EGR RollTrac boasts a robust and sleek design with no compromise on quality. The exterior of the EGR RollTrac is finished in a lightly textured satin black powder coat and distinguished by soft edges and clearly defined formal contours. We're confident you'll agree that the EGR RollTrac compliments your vehicle's aesthetics perfectly.
