#### CONTENTS

Years of design, development, testing and manufacturing knowledge go into every MSA 4X4 product to ensure our products are the very best on the market!

We pride ourselves on our innovative products. These include the world's first, Drop Slide™, the SEMA award-winning Towing Mirrors, the unbeatable aluminium Storage Drawer System, the Original Water Bra, premium quality Canvas Seat Covers, and an extensive range of other 4X4 accessories. We have been awarded 22 patents within Australia and internationally. Many more products are currently under patent application, which stands as a testament to our culture and constant drive to remain an industry leader.

We are an ever-growing, highly skilled team with a vast knowledge of what works and most importantly, what does not work in real-world situations. We constantly strive to deliver our customers the highest quality, innovative, functional and tough products. Every product is designed with the fear of failure in mind.

All MSA 4X4 products are designed and manufactured to the highest quality to perform as intended. Our Lifetime Guarantee, covering most of our products, ensures customers that we stand behind our products.

The safety of our customers is our utmost priority. MSA 4X4 strives to create a range of 4X4 accessories that are 100% safe for use. We believe in the safety of our products and encourage all customers to research products before purchasing. Everyone should ensure that the products they intend to buy, meet all Australian design standards and where applicable are ADR compliant and come with a crash test certificate.

Ask us about product safety. You will be left with no doubt about how our products stack up against the competition.

Our products are available through our 800+ stockists network Australia wide.

### TOWING MIRRORS

When extended the large, single mirror allows the driver to see beyond the caravan, trailer or boat and avoids the confusion of multi-lens mirrors for everyday driving.

### THE BEST

#### Towing Mirrors no longer need to look ugly.

The large single mirror lens creates less confusion and enhanced safety while driving. The four, easily adjustable positions, provide greater vision, with less vibration to any towing situation, while maintaining ADR compliance and safety. When the mirror is rotated into the horizontal position, the mirror's actuator automatically adapts, allowing for standard adjustments (up, down, side to side) from the vehicle's standard mirror controller. This caters to drivers of differing height and seated positions. Designed to fold inwards or outwards when bumped in car parks, or when contact is made with trees and other obstacles around

the vehicle. Simple to fit, MSA 4X4's Towing Mirrors mount onto a vehicle door in the same position as the existing mirrors. Most factory mirror functions are retained and come with the choice of black or chrome.

The MSA 4X4 patented Towing Mirrors are manufactured extremely tough and WILL NOT VIBRATE ON ROUGH ROADS!

Injection moulded and die cast aluminium components deliver a high-quality towing mirror to withstand Australian conditions. A great all-around mirror for towing caravans, camper trailers, trailers, boats and horse floats. Available to suit a growing range of towing vehicles.

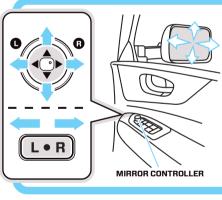

#### FEATURES

- Four different mirror positions
- · Large, single mirror lens
- · Adjustable viewing angles
- · Vertical and horizontal adjustment
- Unique pivot design
- · Fold inwards or outwards
- ADR Compliant.
- · Injection moulded and die-cast aluminium components

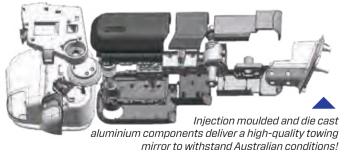

#### INCLUDES

MSA 4X4's 5 Year Warranty.

When rotating
the mirror into the
horizontal position,
the mirror's actuator
automatically adapts,
allowing you to
retain the standard
adjustments (up,
down, side to side)
from your vehicle's
standard mirror
controller.

Designed to fold inwards or outwards when bumped in carparks or when in contact with trees and other obstacles around the vehicle.

### **TOWING MIRROR EXTENSION INFILLS**

The MSA 4X4 Towing Mirror Extension Infills are designed to fill the space created when the MSA 4X4 Towing Mirror is left in the extended position.

In a situation where a wide service body is on the vehicle, standard manufacturer's mirrors can make vision difficult, extendable mirrors become essential. Leaving the MSA 4x4 Towing Mirrors in their extended position full time gives the vision required and using the Extention Infills provides a neat, flush and tidy finish for the vehicle.

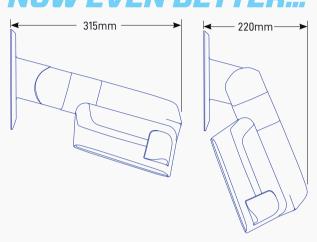

### THE BEST LOOKING TOWING MIRRORS NOW EVEN RETTER

The FIRST and only TOWING MIRRORS specifically designed for Australian towing vehicles, not an American truck mirror adapted with a base.

- By far, the BEST patented towing mirrors available
- By far, the BEST looking towing mirrors available. They
  will enhance the look of a vehicle, not stick out long
  and large and make it look ugly.
- When extended, they WILL NOT VIBRATE on rough roads. Made tough to last
- They WILL NOT be forced inwards by turbulence from oncoming heavy vehicles.
- NO CONFUSING American truck convex mirrors. Fitted with a single Australian OE type vision glass for just better, pure safe rear vision.
- BETTER vision than OE and any other towing mirrors available.
- 360-degree pre-programmed camera installed, where applicable. No need to remove OE cameras and install in new mirrors.
- All puddle light, auto fold, memory, blind spot monitoring, heating, GPS and indicator features installed when ordered.
- 4 unique driving and towing positions.
- · ADR and Cat6 (post registration ONLY) compliant.
- All aluminium and stainless steel sealed bearing internal construction.
- · Seriously heavy duty components all round.
- MSA 4X4 5 Year Warranty.

PCT International Patent Number: PCT/AU2020/050810

#### THE ALL NEW

# MSAPOWER SLIDE

### THE WORLD'S FIRST POWERED DROP SLIDE™

MSA 4X4 has now taken the original Drop Slide™ to the next level and completely removed all physical effort to raise and lower a fridge to an accessible height.

Chest style fridges and freezers offer the best solution to store refrigerated goods whilst travelling Australia's rough roads. Accessing chilled food and drinks needs to be as easy as possible.

All physical effort to raise and lower a fridge to an accessible height has been removed. Simply extend the slide and press the right-hand side control panel buttons to lower and raise the fridge. The function is smooth and effortless with the powerful twin 12-volt electric actuators doing all the work. The MSA POWER SLIDE™ shares the same compact footprint as the original patented Drop Slide™. Pre-drilled holes in the tray provide extra convenience in accommodating most popular fridges. It comes with an easily attached, emergency handle to manually raise and lower the slide in case of an electrical failure. Built extremely tough and comes with a Lifetime Guarantee on the slide and 3 Year Warranty on the actuators.

This is the only powered slide that extends beyond the vehicle as it lowers, allowing for better fridge access; this is extremely important in wagons and utes. The MSA POWER SLIDE™ is the best-looking powered slide on the market.

Speed Matters - The fastest powered Drop Slide available, only 7 seconds to raise or lower the fridge.

MSA POWER SLIDE is a trademark used under licence.

#### **IT ALL MATTERS**

**Speed Matters** - The fastest powered Drop Slide available, only 7 seconds to raise or lower the fridge.

**Power Matters** - Twin 12-volt electronic actuators provide plenty of power with a very low 7-amp power draw. Raise and lower the fridge all day with ease.

**Space Matters** - Still by far the smallest footprint of any model powered Drop Slide available. Do the measurements and compare.

Weight Matters - By far the lightest powered Drop Slide available.

**Innovation Matters** - The only powered Drop Slide with an integrated stainless steel table. (Maximum weight 7.5kg, selected models ONLY)

**Access Matters** - The only powered Drop Slide that extends out further from the vehicle as it lowers for much better fridge access. Extremely important when installed in wagons and utes.

**Design Matters** - The only powered Drop Slide with an easily attachable emergency handle, in case of vehicle power failure.

**Attraction Matters** - The best looking powered Drop Slide available. 'Why spoil a vehicle's good looks with an oversized, unattractive slide!'

**Backup Matters** - Lifetime Guarantee on the slide and 3 Year Warranty on the electronic actuators. All supported by our 800 strong dealer network.

#### **FEATURES**

- · Raises and lowers in 7 seconds
- · Runs off 12-volt power source
- Same small footprint as the original patented Drop Slide™
- Slide-out stainless steel table (Maximum weight 7.5kg, selected models only)
- Compact size
- Easy install
- Lock-in and lock-out safety system
- · Powder-coated steel frame construction
- · Stainless steel and blue anodised aluminium fittings
- Travel lock and key
- · Anodised blue faceplate

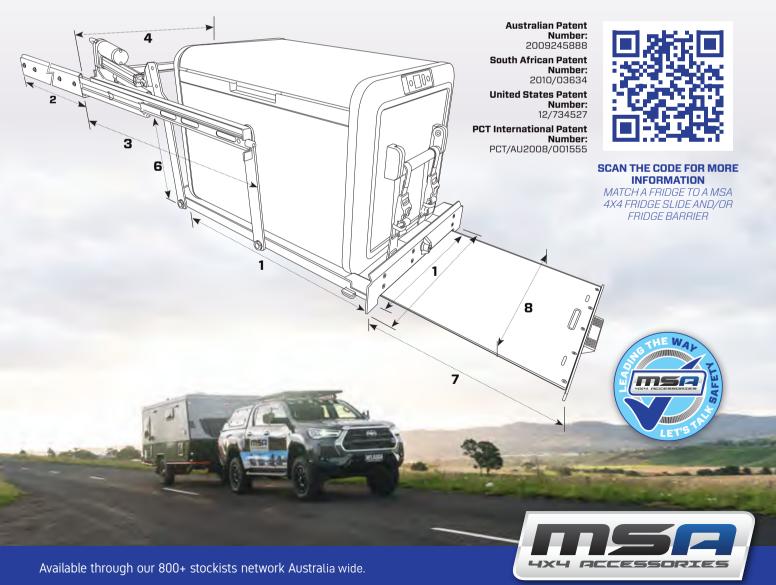

#### **INCLUDES**

- · Emergency operating handle
- · All fixing and tie-down straps
- · Pre-drilled tray holes
- MSA 4X4's Lifetime Guarantee on the slide
- MSA 4X4 3 Year Warranty on the electronic actuators

SAFER...SMARTER

MSA 4X4 has taken it up a notch with the MSA 4X4 Drop Slide™ with table. This patented Drop Slide™ comes with a 316 stainless-steel pull-out table that can hold up to 7.5kg.

Perfect for preparing a quick meal for the family when on the road. The Drop Slide™ lowers 30 centimetres while extending over the tailgate of the vehicle, allowing easy access to a fridge, toolbox or generator. The slide remains in a horizontal position when lowing, avoiding any contact with the vehicle.

The Drop Slide™ with Table features the unique, easily recognisable, MSA 4X4 blue anodised faceplate. Creating a tough, durable and sleek finish, it is sure to stand out from its competitors. The Slide also has a powder-coated steel frame construction for more durability when in use. The lock-in, lock-out safety feature locks the slide in its intended position while travelling, preventing potential damage to the fridge and vehicle.

- Powder-coated steel frame construction
- Travel lock and key
- Anodised blue faceplate

LIGHTER...STRONGER... SAFER...SMARTER

The patented Drop Slide™ is designed to provide unrestricted access to a fridge, toolbox or generator at a safe, convenient level.

Using the slimline handle, the Drop Slide™ lowers 30 centimetres while extending out further over the tailgate. This happens in one safe, smooth, controlled motion. At the same time, the platform remains in a perfectly horizontal position and avoids contact with the vehicle.

The unique MSA 4X4 blue anodised faceplate provides a tough, durable and easily recognisable finish. The frame is constructed from powder-coated steel and the compact design maximises storage space within the vehicle. The MSA 4X4 Drop Slide™ is engineered to be easierly installed and the pre-drilled tray holes provide anchor points for most popular fridges. The lock-in, lock-out safety feature locks the slide in its intended position while travelling, preventing potential damage to the fridge and vehicle.

- Stainless steel and blue anodised aluminium fittings
- Powder-coated steel frame construction
- Travel lock and kev
- · Anodised blue faceplate

### LIGHTER...STRONGER... SAFER...SMARTER

This model is designed for specific applications where the Drop Slide™ is better suited sideways, as the vehicle does not have enough depth for a standard Drop Slide™ to be installed.

The MSA 4X4 Patented Side Drop Slide™ is the perfect addition to a 4WD set-up. Offering unrestricted access at a safe and convenient level to a fridge, toolbox or generator. The Side Drop Slide™ includes a slimline handle allowing for the Slide to lower 30 centimetres while extending over the vehicle's tailgate. The platform remains perfectly horizontal and avoids any contact with the vehicle.

A blue anodised faceplate creates a tough, durable and easily recognisable feature, that is unique to all MSA 4X4 Slides. The frame is constructed from powder-coated steel and the compact design maximises storage space within the vehicle. The MSA 4X4 Side Drop Slide™ is engineered to be easierly installed and the pre-drilled tray holes provide anchor points for most popular fridges. The lock-in, lock-out safety feature locks the slide in its intended position while travelling, preventing potential damage to the fridge and vehicle.

### SIMPLE, EASY, CONVENIENT ACCESS TO A FRIDGE.

Australian designed and engineered to handle our harsh outback touring needs. The MSA 4X4 Straight Slide is a simple, versatile yet convenient solution to accessing the fridge contents.

The MSA 4X4 Straight Slide has been designed for low height applications where a Drop Slide™ is not required. The Straight Slide has a flat mounting base, allowing easy and secure fitment into the back of a vehicle. Featuring high-quality, overextension roller bearings that create a smooth, almost effortless slide-out and slide-in movement of the fridge. It also allows maximum slide extension, providing greater access to the fridge over the tailgate or rear bar. The unique lock-in and lock-out mechanism ensures the slide will stay in its intended position regardless of the angle of the vehicle. Key lock, runner locks and supplied tie down kit ensure the tray and fridge are secure whilst travelling.

The uniquely recognisable MSA 4X4 blue anodised faceplate provides a tough, durable and eye-catching finish, which is a standard feature across the range.

#### **FEATURES**

#### MAXIMISE VEHICLE STORAGE SPACE WITH A MSA 4X4 FRIDGE BARRIER

The MSA 4X4 Fridge Barrier range is tough, durable, eye-catching and delivers the perfect solution for protecting a fridge from any loose gear packed around it.

When a fridge is safely secured within a vehicle an MSA 4X4 Fridge Barrier separates the fridge from loose gear, adding greater protection from dents and scratches. Items can be packed around the MSA 4X4 Fridge Barrier while easy access to the fridge is maintained. No more unpacking the car to access the contents of a fridge.

The gloss black powder-coated steel frame provides safety, strength and durability. MSA 4X4 blue anodised logos on both sides create a uniquely recognisable look. The practical side pockets are a great place to store stubbie coolers, cups, bottle openers and any other small items.

The MSA 4X4 range of Fridge Barriers is designed to fit perfectly around the complete range of MSA 4X4 Drop Slides and Straight Slides, while still allowing enough space for ventilation around a fridge to help avoid overheating. Easy to install, lightweight while maintaining the smallest possible footprint, saving valuable storage space within a vehicle. Securely position the fridge power cords away from the movement of the slide with the included bungee cord.

Use the table provided to determine the correct Fridge Barrier for an MSA 4X4 Drop Slide™ or Straight Slide. MSA 4X4 Fridge Barriers offer protection, durability and functionality.

#### **FEATURES**

- · Glossy black powder-coated finish
- Lightweight
- Easy to install
- · Practical side pockets
- MSA 4X4 branded

#### **INCLUDES**

- Bungee Cord
- MSA 4X4's Lifetime Guarantee

#### NOTE

Perfectly fits around a MSA 4X4 Drop Slide™ or Straight Slide with the smallest possible footprint

#### DESIGNED FROM THE GROUND UP, THE WAY A QUALITY 4WD STORAGE SYSTEM SHOULD BE.

Sick of shoving everything loosely in the back of a vehicle? Why not get organised with an MSA 4X4 Storage Drawer System.

MSA 4X4's Storage Drawer Systems are designed with a patented slide technology offering a smoother opening under heavy loads. The entire drawer extends further from the frame, allowing 100% access to the drawers. No more hard-to-reach items at the back! MSA 4X4's Storage Drawer Systems are constructed with aluminium and have anodised aluminium components. Superstrong, lightweight and comes with stainless steel fasteners used throughout for a rust-free, corrosion resistance lifetime of use.

The patented "Stay-Open Block" allows the drawer to remain in an open position even on a 30-degree slope. They also feature an LED Light Strip that activates at full extension and has a manual override switch. A 100% safe and secure lock system that can not be levered open from underneath, is an exceptional security measure. Dust resistant seals around

front panels ensure all the items stored inside stay clean and dust free. Flush-fitting wing kits are available for most 4WDs and utes, creating additional storage space between the Storage Drawer System and the inner sides of the car. Access to the space is gained through removing the wing and face panels. The reinforced wing kit brackets provide a fully supported base for fridge slides to be mounted onto the wing panels, allowing for more placement options.

The impact force of an unsecured item, within a vehicle during an accident, can be twenty to thirty times its static weight. Therefore greatly increasing the potential of occupant injuries. MSA 4X4's Storage Drawer Systems, and the attachments that come with them (cargo barrier mount points and child restraint points), have been crash-tested and are fully ADR compliant. Tested to ADR3/02, ADR34/01 and ADR42 and passed all the requirements prescribed by the ADRs and AS/NZS, without any structural weaknesses or degradation of the system.

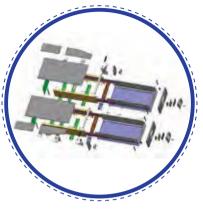

MSA 4X4's patented slide technology smoothly handles up to 250kg per pair of drawers providing smooth opening under heavy loads. A whole new level of access is provided to drawer contents, through the patented 2 stage over extension of the drawer for 100% easy access.

The Storage Drawer
System has passed all the
requirements prescribed
by the ADRs and AS/
NZS, with no structural
weaknesses or degradation
of the system. Offering
reassurance for the safety
of the vehicle occupants or
other road users.

Designed from the ground up to establish the way a quality 4WD storage system should be.

Aluminium construction with anodised aluminium components. Super strong, lightweight and lifetime corrosion resistance.

The unique patented slide runner and sealed bearings allow for 100% Storage Drawer extension and greater access. The entire drawer comes out further than the frame. Eliminating those hard to reach items or unpacking of contents to reach items at the back.

- 100% Drawer extension for complete access
- · Patented "Stay-Open Block"
- · Internal LED Light Strip
- · Safe and secure lock system
- Dust resistant seal
- Stainless steel fasteners
- Removable wing and face panels

#### **INCLUDES**

- · Complete wing kits
- · Cargo Barrier mounting points
- · Child restraint points
- MSA 4X4's Lifetime Guarantee

## BATTERY BOXES SAFE AND SECURE PROTECTIVE BOX FOR AN AUXILIARY BATTERY!

#### The MSA 4X4 Battery Box is a safe, secure and versatile solution for adding an auxiliary power supply to a vehicle.

The neat and compact design makes a perfect addition to an MSA 4X4 Storage Drawer System. It can be positioned out of sight yet still easily accessible. Comes in two models, Large and Slimline. The Slide Plate attaches to the drawers for adjustable positioning of the Battery Box, which is very useful when drawers are on a sub-frame. The Slide Plate is fitted with Backing Plates to ensure a solid fit to the drawers. An insulated Rubber Lid prevents short circuiting of battery terminals. Both ends of the Battery Box have EVA (ethylene-vinyl acetate) foam panels, with entry and exit points

for wiring that will insulate and protect the battery. Plastic-coated Securing Saddles bolt down from the top to hold the battery in place. Mounting Plate with holes for a Compressor or BC/DC charger at both ends are standard.

PART NO **DESCRIPTION** 40018 Battery Box Large 40019 Battery Box Slimline

#### **FEATURES**

- · 2x sizes available Large (N70) & Slimline
- 2mm powder-coated steel construction
- · Height Adjustable Slide Plate
- Backing Plate
- EVA insert
- · 2x Battery Securing Saddles
- · Insulated Rubber Lid
- · Compressor or BC/DC charger, Mounting Plate on each end

#### INCLUDES

· MSA 4X4's Lifetime Guarantee

### CARGO BARRIERS

31003 -Toyota Prado 150 (2009 - Current) Rear Curtain Air Bag model shown

Compliant to ADR Crash Test Standard: AS/NZS 4034.2:2008

The MSA 4X4 Cargo Barriers have undergone extensive testing and have complied with the ADR Crash Test Standard: AS/NZS 4034.2:2008 and include an Emergency Escape Hammer. Designed to safely attach to the rear of an MSA 4X4 Storage Drawer System, utilising the Cargo Barrier mounting points incorporated into the drawer frame. Child seat restraint points, remain accessible and are not compromised. Creating a safety net to help prevent gear from flying around, potentially injuring passengers in the back seat. Its gloss black powder-coated steel frame provides safety, strength and durability.

PART NO	DESCRIPTION

# DRAWER

Create large or small spaces to neatly and securely store all types of gear when travelling.

These carpeted MSA 4x4 Drawer Dividers allow for customisation of the space within an MSA 4x4 Storage Drawer. Simply identify where to place them and then slide them into place.

Fantastic for separating particular types of gear, ideal for tradies.

#### NOTE

Designed to suit all MSA 4X4 Storage Drawer Systems

PART NO	DESCRIPTION	
EDDIV	(1 Unit) Suits 930, 1030 & 1350 Drawer Modules	
EDDIV-A	(1 Unit) Suits 930A & 1030A Drawer Modules	
EDDIV-B	(1 Unit) Suits 700, 830 & 1100 Drawer Modules	

# **COMPRESSOR**MOUNTING PLATES

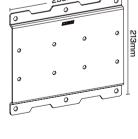

Securely mount a compressor, out of sight, yet still within easy reach.

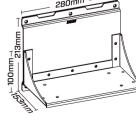

The MSA 4X4 Compressor Mounting Plates securely and neatly mount compressors and other accessories directly onto an MSA 4X4 Storage Drawer System.

Utilising the space between the outside edge of the Storage Drawer System and the side of the vehicle, the compressor is positioned out of sight and covered by a removable Wing Kit Panel. Pre-drilled mounting bracket holes allow for easy installation of most popular compressors. Reinforced backing plate strips, along with the Compressor Plate, create a strong, secure and safe method of attaching a compressor to an MSA 4X4 Storage Drawer System.

#### *EATURES*

- · Complete fitting kit
- · Reinforced backing plate strips
- MSA 4X4's 2 Year Warranty

- Powder-coated steel frame
- · Pre-drilled mounting bracket holes
- Easy install
- · Light-weight

# PREMIUM CANVAS SEAT COVERS

WITH INTEGRATED LUMBAR SUPPORT!

#### **WHEN ONLY THE BEST WILL DO**

MSA 4X4 has created a canvas seat cover that is durable enough to withstand life's adventures, yet still soft enough to be comfortable for the occupants.

MSA 4X4's ADR compliant Premium Canvas Seat Covers are designed to provide the most comfortable, best fitting and toughest seat protection for most popular 4X4 vehicle seats. The only Seat Covers with an Integrated Air Lumbar Support System\* and a super soft underside layer of cotton. No rough canvas rubbing the delicate fabric of the vehicle's original seats, the cotton lining is critical to prevent this. Manufactured from MSA 4X4's special blend of soft, comfortable canvas combined with DuPont™ 100% waterproof Teflon. Allowing for the greatest level of comfort on long drives while maximising protection from kids and pets. MSA 4X4's Seat Covers are fully crash-tested and certified ADR compliant. Ensuring the factory airbags will deploy the way the manufacturers intended, by no more than one-thousandth of a second. When it comes to airbags and safety, everything must deploy at the same time.

The *ONLY* canvas seat covers with a Integrated Air Lumbar Support System\* and a Lifetime Guarantee.

With the unique, fully adjustable air-inflated bladder insert, support can be positioned perfectly where needed. The supplied air valve allows the bladder to be inflated as much or as little as required.

\*Integrated Alr Lumbar Support System available on new model front sets only

## CERTIFIED ADR COMPLIANT

Full crash testing completed.

## The best fit canvas seat covers available for 4WD vehicles.

Guaranteed touring comfort.
Guaranteed not to move or
crease. Made from specifically
designed heavy duty Polyester
and Cotton Blend canvas,
delivering maximum comfort and
durability for 4WD touring

Reinforced high wear areas for extra longevity. Polycotton layer, Canvas layer and additional Canvas layer in high wear areas.

100% Water, dirt, mud, kid and pet proof. Manufactured from specially designed 12oz Teflon impregnated canvas.

Polycotton lined for maximum protection of vehicle seats, providing a complete barrier between the canvas and the soft factory seat.

# TOUGHEST TRADIE CANVAS

MSA For The Tradie Canvas Seat Covers combine quality and durability with comfort to meet the needs of the Aussie tradie.

The specially manufactured, 14oz canvas, is thick enough to minimise accidental rips from sharp tools whilst delivering a 100% water, dirt, mud, kid and pet proof seat cover. Its unique polycotton lining provides maximum protection of your car seats, by creating a barrier between your tough tradie lifestyle and your soft factory seats.

MSA For The Tradie Canvas Seat Cover, airbag models are ADR Compliant and certified. By successfully completing, a rigorous, full crash testing program, our seat covers are shown to not impede the factory airbags from deploying as the manufacturer intended. In as little as one thousandth of a second.

#### CERTIFIED AD COMPLIANT

(full crash testing completed)

#### SPECIFICALLY ESIGNED

Heavy duty 14oz canvas, delivering maximum comfort and durability.

Maximum protection of your car seats, providing a complete barrier between your tough tradie lifestyle and your soft factory seat.

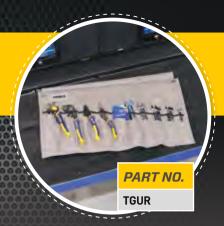

MSA For The Tradie patented Air Lumbar Support System provides adjustable support where and when you need it most. Position the support to suit you perfectly with its fully adjustable air inflated bladder insert.

Up to 4 internal bladders can be installed to support multiple zones.

Its quick-fit design makes it easy to transfer between vehicles for work and play.

#### SMALL TOOL ROLL

Made from heavy duty, double layered 14oz canvas. The Small Tool Roll provides 10 pockets of various sizes to keep your tools organised. The attached velcro strap allows the roll to be wrapped up neatly to make it easy to transport and store.

Size: 60cm (L) x 40cm (H) when opened.

#### **CANVAS BAG**

Manufactured from heavy duty, 14oz canvas, the Canvas Bag features a moulded rubber carry handle and two velcro strips to keep the bag securely closed. The Canvas Bag also features 4 velcro strips on the rear, increasing stability and allowing you to attach the bag to different applications.

Size: 26cm (L) x 24cm (H) x 7cm (W)

## SMALL BARRIER ORGANISER

Small Barrier Organiser has 6 small pockets and 1 large pocket. Perfect for items that can just be thrown in together. Made from extremely heavy duty 14oz canvas with multiple velcro tabs and double sided velcro strips to attach to different applications.

**Size:** 45cm (L) x 18cm (H)

#### SEAT ORGANISER

Offering 12 individual pockets for endless storage possibilities including 3 larger pockets for storing pens, magazines, order pads, invoice books, iPads and more. Manufactured from heavy duty 14oz canvas, with an aluminium internal frame that prevents sagging even when full.

Size: 45cm (W) x 59cm (H)

#### **ULTIMATE TOOL ROLL**

Made from heavy duty, double layered 14oz canvas, the Ultimate Tool Roll features 18 pockets of various sizes to keep all your tools neat and organised. Includes a heavy duty moulded rubber carry handle for added convenience.

Size: 120cm (L) x 42cm (H) when opened

## HALF BARRIER ORGANISER

Half Barrier Organiser has 6 small pockets, 3 large pockets and 2 extra large pockets to store a wide range of accessories. Made from extremely heavy duty 14oz canvas with multiple velcro tabs to attach to different applications.

**Size:** 45cm (L) x 37cm (H)

# **CANVAS** PRODUCT CARE INSTRUCTIONS

The service life of MSA 4X4 Canvas products will be long and trouble free by following these simple care instructions. The canvas used in the manufacture of MSA 4X4 Accessories and MSA For The Tradie canvas products are of a premium blend of polyester and cotton. Cotton for a natural feel and polyester for strength and longevity.

**BRUSH** loose dirt off with a soft brush

**WIPE** with a microfibre cloth or sponge and warm water in a circular motion

**REMOVE** excess water with chamois then allow to dry naturally

**REMOVE** deposits of organic matter such as soil, grass or bird droppings from the canvas as soon as convenient.

**DO NOT** apply soaps, detergents, bleaches, cleaning fluids or insecticides to the canvas as these will remove the waterproofing and will affect the dye.

**DO NOT** machine wash. (never machine wash any good quality canvas as it will destroy its waterproofing treatment)

**DO NOT** allow petrol, diesel, oil, kerosene or other similar fluids to come into contact with the canvas.

**DO NOT** scrub the canvas as excessive scrubbing will also remove the waterproofing treatment.

For any further information regarding MSA 4X4 canvas products, please contact us at sales@msa4x4.com.au.

DO NOT MACHINE WASH

DO NOT SCRUB

DO NOT USE DETERGENT

AIR LUMBAR SUPPORT SYSTEMS

The MSA 4X4 Air Lumbar Support System provides adjustable lumbar support where it is needed most. A feature previously only available in expensive sports seats.

MSA 4X4 offers a fully adjustable lumbar support system that suits most vehicles' standard seats and is easily transferable between vehicles.

The bladder features one central Velcro strip and 3 Velcro strips inside the support system. Allowing the support bladder to be positioned in the exact area. If more support is required, up to four bladders can be inserted to support multiple zones. The air valve allows the bladder to inflate as much or as little as needed. Providing the perfect amount of support. Enjoy a relaxed and pain free end to a long day driving.

- Easily cleaned
- · MSA 4X4 branded
- 2 Year Manufacturer's Warranty

#### **INCLUDES**

· 1x bamboo cutting board

#### MSA 4X4 has taken rear wheel storage to the next level with the patented 55 litre Removable Rear Wheel Bag.

Perfect for carrying a wide range of accessories securely while freeing up valuable space inside the vehicle. No more wet and muddy gear inside.

Manufactured from heavy duty 1680 Denier Oxford Nylon with a PVC stiffener insert, to maintain shape while providing maximum service life in the unforgiving Australian climate.

The unique 'Anti-Drop' 50mm seatbelt harness system keeps the bag from drooping behind the vehicle. The fully adjustable harness system attaches directly to the rear wheel and will suit any 4X4 vehicle tyre size. The heavy duty aluminium side release buckles allow it to be attached and removed in as little as 30 seconds. Using the convenient carry handle, simply unclip the bag and take it anywhere.

Reinforced zippered pockets on each side provide more storage for those smaller straps, ropes and shackles. The front reflective strips enhance visibility at night. A stainless steel drainage eyelet allows for the release of any fluids.

Can be padlocked onto the wheel with a lock strap and together with the YKK Chunky zip with 2 x lockable metal sliders, create an extra level of security. The triple, reinforced base ensures stored gear remains secure and packed away while travelling on rough roads.

#### **FEATURES**

- · Made from 1680 Denier Oxford Nylon
- · PVC stiffener inserts
- · Adjustable 'Anti-Drop' harness system
- · Quick fit design
- · Side zippered and reinforced pockets
- · Reflective tape strips
- · Drainage evelet
- · YKK Chunky zip with 2x lockable metal
- · Convenient carry handle

#### INCLUDES

MSA 4X4's Lifetime Guarantee

Patent Number: 2021 1012 256 A4

A perfect solution for storing and removing campsite rubbish, dirty muddy recovery gear, wet towels, wet suits etc. Securely attached outside of a vehicle yet remains within easy access when required.

Manufactured from heavy duty 1680 Denier Oxford Nylon. Guaranteed to withstand all that the Australian environment can throw at it and will not stiffen or crack in the cold and is machine washable. The strong, quick-fit 50mm harness system, that can be installed and removed in as little as 30 seconds, will fit any size car, caravan or camper spare tyre.

The reinforced base and YKK chunky zips, top and bottom, ensure peace of mind, that what is placed inside will remain inside during a long trip. Rubbish bags can be removed from the top or bottom. The stainless steel drainage eyelet allows the release of any fluids and the MSA 4X4 Rear Wheel Rubbish Bag is machine washable for added convenience.

- Denier Oxford Nylon
- · Adjustable harness system
- · Quick fit design
- Top and bottom YKK Chunky zip
- Velcro duct seals
- Reinforced base
- · Drainage eyelet
- · Machine washable
- Suits any tyre size

#### INCLUDES

MSA 4X4's Lifetime Guarantee

# TOURER & BASKET PACKS

The MSA 4X4's range of premium Tourer and Basket Packs is the perfect solution to safely securing bulky, light-weight items to a vehicle's roof, freeing up valuable storage space within a vehicle.

Manufactured from heavy-duty 100% breathable 15oz canvas with a thick laminated PVC (polyvinyl chloride) base. Perfect for clothes bags, sleeping equipment, campsite tables, chairs and more. The removable waterproof, dustproof scrub protection cover adds an extra level of protection. Keeping everything securely in place is a fully adjustable 50mm seatbelt webbing harness system with anti-flappers on the straps. Lockable YKK chunky zip on three sides, covered by a 50mm Velcro dust seal. The MSA 4X4 Tourer and Basket Packs can be easily attached and removed from a roof rack and rolled-up and stored in the supplied storage bag when not in use.

Keep essential items secure, safe and dry.

- Seatbelt webbing harness system
- 50mm Velcro dust seal
- 2mm laminated PCV base

#### **INCLUDES**

- · Storage bag
- · Removable waterproof and dustproof protection cover
- MSA 4X4's Lifetime Guarantee

10 sizes available to suit a range of configurations

HP1.4	Half Pack	50(W) x 140(L) x 30(H)

The MSA 4X4 Water Bra is the 'original' water crossing bra. Designed to help prevent damage to a vehicle's engine, radiator and electricals when crossing deep water and mud.

It is important, even with a snorkel installed, when crossing deep water to create a bow wave ahead of the vehicle to prevent water from being forced through the vehicle's grill. This pressure may result in water being 'grabbed' by the spinning fan which can then force it into the radiator, causing serious damage. The MSA 4X4 Water Bra will help to prevent this from happening and can be fitted to any vehicle.

Made from heavy duty 420 Denier PVC packed Oxford nylon for maximum strength. Featuring drainage holes, an easy access pocket to store a snatch strap and a 20 second 'Quick-fit' design. No vehicle damaging ocky straps or tarps are needed.

The only bra with a Lifetime Guarantee

#### **FEATURES**

- 50mm webbing harness
- · 420 Denier Nylon
- · One size fits all
- 420 Denier Nylon for maximum strength

#### **INCLUDES**

- · Storage bag
- MSA 4X4's Lifetime Guarantee

## WINCH ROPE PROTECTOR

PROTECT WINCH ROPES FROM ABRASION...

An MSA 4X4 Winch Rope Protector will protect a winch rope from the risk of abrasion while in use. Rocks, logs or other rough surfaces can quickly cause damage and degradation to unprotected winch ropes. An MSA 4X4 Winch Rope Protector will help to protect your gear when it's really needed.

Designed to wrap around winch ropes and made from heavy duty 1680 Denier Oxford Nylon, providing maximum service life. 4 heavy duty Velcro strips help provide a protective sleeve over the winch rope. Reflective tape strips for increased visibility. 2 handles for ease of adjustment up and down the rope. Quick fit design that can be installed and removed in seconds.

- Made from heavy duty 1680 Denier Oxford Nylon.
- 4 heavy duty Velcro strips

# **BARRIER** BAGS

THE PERFECT ADDITION **TO A CARGO BARRIER** 

MSA 4X4 has designed a range of bags and organisers that attach to a cargo barrier to maximise storage possibilities.

The MSA 4X4 Barrier Bags are perfect for storing 4X4 accessories such as tiedown straps, recovery gear and more. Made from heavy-duty canvas with Velcro strips on the cover flap to keep the bag securely closed and Velcro strips on the rear for easy attachment to different applications.

All MSA 4X4 Barrier Organisers feature two stainless steel eyelets at the top for securing when filled with heavier objects and rear Velcro strips for easy attachment to different applications. The Large Barrier Organiser comes with 14 individual pockets, the Half Barrier Organiser comes with 11, and the Small Barrier Organiser comes with 7. All pockets vary in size to store a wide range of accessories.

Specifically designed to compliment a MSA 4X4 Cargo Barrier Range (page 35).

## **SEAT ORGANISERS**

The MSA 4X4 Seat Organiser features 12 individual pockets in various sizes for endless storage possibilities. A great product for keeping a car clean and organised. Perfect for storing pens, magazines, iPads, colouring-in books and more!

Designed to be attached or removed in seconds. Manufactured from heavy-duty 12oz canvas and has an internal aluminium frame that prevents sagging when full. Usually attached to the back of a seat, the MSA 4X4 Seat Organiser can also be attached to the front of the passenger seat. Creating easy access to important items when travelling alone.

The Seat Organiser with Drop Down Table is a winner for kids. The injection moulded foldaway table has a cup recess and creates a stable, well supported platform for iPads and colouring books during travel breaks.

## **NEOPRENE TUBES**

Neoprene protection tubes are designed to protect a fridge and its contents from exploding bottles and loosened lids. Made from 2mm neoprene for minimising storage space, whilst still thick enough to protect stubbies or cans from rubbing together.

The protective tubes cover the cap/top and bottom of a stubbie/can/wine bottle for maximum protection of drinks, the fridge and its contents. Available in two easily identifiable colours.

PART NO.	DESCRIPTION	INCLUDES
STS	Stubbie Tubes	12 (6 red/6 black) Stubbie Tubes with Canvas Storage Bag
TTS	Tinnie Tubes	12 (6 red/6 black) Tinnie Tubes with Canvas Storage Bag
WTS	Wine Bottle Tubes	6 (3 red/3 black) Wine Bottle Tubes with Canvas Storage Bag
