4WD STORAGE

SOFT LUGGAGE SHELVES

Our Soft Luggage Shelves will add valuable storage space to your vehicle. The unique design is very easy to install, is light weight with a modern design & can be optioned with an LED Light strip.

Our mounting bracket design assists to support the weight of the shelf during installation to make a single person installation a breeze!

The optional 100cm Hardkorr LED strip will supply a great amount of light to the boot area, while not being in direct line of sight causing unwanted glare. The strip is simply held in magnetically and can be easily disconnected when removing the system.

Attaching to the underside of the shelf, the divider design adds support and stability for the shelf and also enables quick access to storage behind the 2nd row seats (around 7-10 seconds). Headrest Bracket design allows for seat movement without fouling/ rubbing on seat.
