RENT A STARLINK ROAM KIT

Work and play in remote locations with the convenience of high-speed Internet.

Ideal for RVers, campers, and travellers throughout Australia, Starlink provides high-speed internet access across the country.

With quick setup and easy pack-up, you can stay connected in minutes and be ready to move on when the adventure calls.

Setup the Starlink Kit with just two steps!

- 1 PLUG IT IN
- 2 POINT AT SKY

Download the Starlink app to determine your best install location.*

Unlimited mobile data inland included in the rental price.

Starlink is built to withstand Australia's harshest elements.

**Starlink requires an unobstructed view of the sky. Not suitable for in-motion applications.*

Roam with TechRentals & Starlink
