

Stinger[®] **EXPERT RoadKill**

Want Less Noise?

Excellent Insulation

Reduce Engine Heat - Reduce Interior Heat
Improves cabin temperature for a more comfortable ride

Better Ride

Eliminate Engine Noise
Absorbs annoying squeaks, rattles and vibrations creating excellent sound reproduction

A Safer Journey

Eliminate Road Noise
Reduce low frequency road noises that contribute to driver fatigue

Easy To Install

Minimum preparation needed
Measure - Cut - Apply!

Experience The Difference!

Stinger RoadKill

Obliterate Unwanted Noise With **RoadKill** Sound Damping Solutions

Solutions engineered for specific applications delivering ultimate performance.

- ▶ Kills panel resonance, squeaks, and rattles
- ▶ Improves overall audio frequency response and bass output
- ▶ For use on all metal panels, doors, roof, floor, fire wall & trunk
- ▶ Self-adhesive for easy installation

ULTIMATE- Joining our Expert and Overkill materials for the Ultimate noise killer, comprised of an acoustic foam outer layer, aluminum middle layer and a proprietary, ultra-dense layer (6 mils), and an ultra-dense butyl blend bottom layer.

EXPERT- Unlimited uses, material built from an aluminum outer layer (6 mils), and an ultra-dense butyl blend bottom layer (0.65 lbs/ft)

HOOD LINER- Isolates engine noise and heat, comprised of a heat reflecting aluminium layer with heat resistant and sound absorbing foam layer.

OVERKILL- Dense 1/4" foam for interior door panel damping decimates high frequency noise and commonly used as a barrier/gasket material.

CARPET PAD- Used under carpet for a massive reduction in low frequency road noise, a dual layer construction with a dense rubber barrier and foam isolation

FAST RINGS- Increases speaker output, improves the projection of the audio into the car cabin, and reduces unwanted rear reflections that can degrade the sound. Includes gasket for speaker mounting to the baffle plate surface, middle ring to mount around the outer edge of the speaker, and circular foam pad that goes behind the speaker to absorb unwanted reflections.

RoadKill ULTIMATE

RoadKill Ultimate combines the benefits of our Expert aluminium/butyl material and Overkill acoustic foam to create the Ultimate noise killer. The combination of these two products will more than double the results than when used on their own.

Reduce a massive amount of unwanted resonating noise (panel vibrations, road noise, exhaust, engine noise & vibration) allowing your audio system to sound even louder and with more clarity and definition.

FEATURES:

- ▶ Improves overall audio frequency response and bass output
- ▶ Kills panel resonance, squeaks and rattles
- ▶ Self-adhesive for easy installation
- ▶ Use on all metal panels, doors, roof, floor, fire wall & trunk
- ▶ Highest damping vs. weight ratio of any material available
- ▶ Waterproof

RoadKill Ultimate

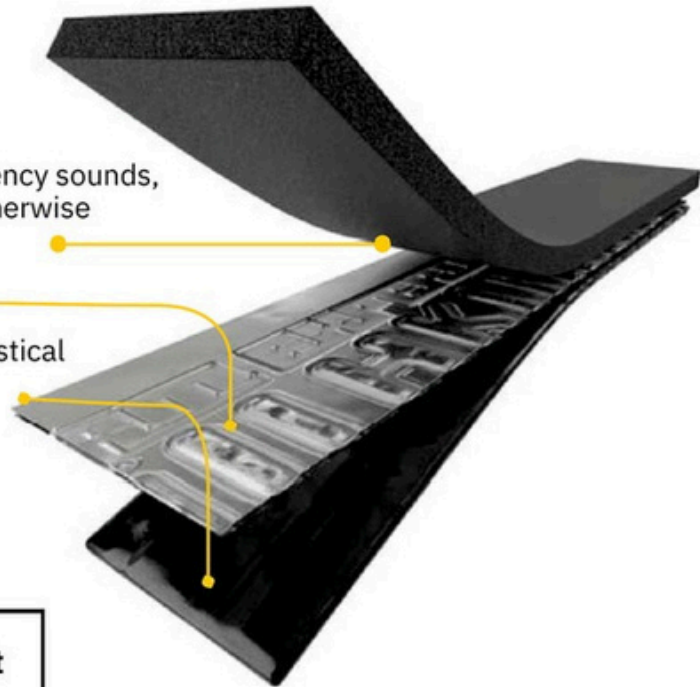

Minimum Thickness	5.5mm
Weight	0.55lbs/ft ²
Aluminum Layer	3 mil
Foam Layer	2 mil

ROADKILL ULTIMATE DNA

Acoustic foam outer layer that absorbs and diffuses high frequency sounds, acts as a thermal barrier, and absorbs sound waves that are otherwise trapped inside the empty space behind door panels.

Aluminum middle layer helps with heat dissipation.

Proprietary, ultra-dense butyl blend bottom layer absorbs acoustical energy that causes unwanted rattles and reduces vibrations.

Ultimate Universal Kit RKU8

8 sq-ft total
2/pack (18" x 32")

RoadKill EXPERT

RoadKill Expert is made from a proprietary ultra-dense butyl blend that absorbs acoustic energy followed by a top layer of aluminium layer to help with heat dissipation. Oh and a fancy stamped Stinger Roadkill logo to show people you mean business.

Designed for metal panels, doors, roof, floor, firewall & trunks.

ROADKILL EXPERT FEATURES:

- ▶ Aluminium outer layer
- ▶ Self-Adhesive for easy installation
- ▶ Use on all material panels, doors, roof, floor, fire wall & trunk
- ▶ Highest damping vs. weight ratio of any material available
- ▶ Kills panel resonance, squeaks and rattles

RoadKill Expert	
Minimum Thickness	0.080in
Weight	0.65lbs/ft ²
Aluminum Layer	6mil

Expert Bulk Kit RKX36B

36 sq-ft total
9/pack (18" x 32")

Additional Products

All the benefits of RoadKill Expert available in convenient smaller packs where the bulk pack is not required.

Also Available

Handy knife & application tool to make your install easier!

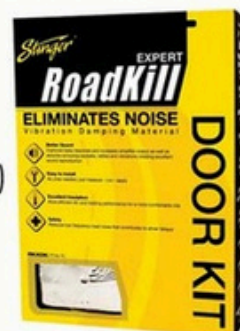

RKINSTALL:

Razor Knife & Roller installation kit

Expert Door Kit RKXDK:

12sq-ft total
6/pack (12" x 24")

Expert Universal Kit RKX4:

4sq-ft total
2/pack (12" x 24")

RoadKill Carpet Pad

- Easily shaped to suit transmission tunnels, floors and trunk floors
- Designed for use under OEM Carpet
- Reduces road noise and exhaust noise
- Adds a luxury carpet feel
- Insulates vehicle for more efficient HVAC
- Dual layer construction

Carpet Pad Pack
RKCP12
12sq-ft total
1/pack (46" x 38")
.365" Thick

Carpet Pad	
Minimum Thickness	7.8mm
Weight	0.41lbs/ft2

RoadKill Hood Liner

- Reduces engine temperatures during summer
- Easy installation and self adhesive
- Lightweight construction
- Reduces possible hood damage from excessive engine temperatures
- Withstands temperatures over 123°C
- Great for both firewall and hood applications

Hood Liner Kit
RKXHL:
12sq-ft total
1/pack (46" x 38")
1" Thick

Hood Liner	
Minimum Thickness	10mm
Weight	0.12lbs/ft2

RoadKill Overkill

- Self-adhesive, easy to cut and install
- Great for between metal panels and trim panels to stop vibrations
- Improves sound reduction when used with RoadKill Expert
- Fantastic gasket material for interior trim panels
- Last layer of defence against panel resonance

OverKill Foam Mat
RKO12
12sq-ft total
1/pack (46" x 38")

RoadKill Overkill	
Minimum Thickness	6mm
Weight	0.25lbs/ft2

FASTRINGS - Enhance the sound of any speaker!

Our patented 3-piece foam ring speaker enhancement system solves the problem of acoustically coupling aftermarket speakers to factory speaker openings. The RoadKill Fast Rings kit increases speaker output, improves the projection of the audio into the cabin and reduces unwanted rear reflection that can degrade the sound.

RKFR6 fits 6" and 6.5" Speakers

RKFR69 fits 6 x 9" Speakers

INCLUDES:

- Circular foam pad goes behind the speaker to absorb unwanted reflections on hard surfaces, such as inside a car door.
- Middle ring to mount around the outer edge of the speaker.
- Gasket for speaker mounting to the baffle plate surface
