SHOW SPECIALS**

OUR RANGE:

The OCAM Bull Bars are manufactured using quality materials and processes in a fully-approved OEM facility and are crash tested in Australia and ADR compliant.

DELUXE BULL BAR: PRICES FROM \$1695

The OCAM Deluxe Bull Bar offers the greatest off-road protection. Suited with 63mm tubes welded through the 2.5mm steel plate, the front end of your vehicle will be well protected when travelling off-road. 3 top tube mounts welded onto the bar allow for easy accessory installation such as UHF aerials.

HOOPLESS BULL BAR: PRICES FROM \$1695

The OCAM Hoopless Bull Bars have been designed to retain the profile and shape of the vehicles they are installed on; offering full frontal protection with style. The OCAM Hoopless Bull Bar installs seamlessly, completely replacing the bumper of the vehicle, with no cutting required.

FEATURES:

- Unique cradle mounting system with inbuilt recovery points rated to 3.4T
- Winch plate integrated into the unique cradle system
- Rigorous 4-stage powder coating process to withstand the rough Australian weather conditions and environments
- Manufactured with 2.5mm thick steel plates with reinforced supports welded for maximum strength and reliability
- Number plate flip mounts for winch rope feed from the cradle
- LED fog lights included which may require additional wiring if no OEM fog lights in factory bumper
- 2 winch compatible high lift jack points
