RECREATING™
RECREATION

REVOLUTIONISE YOUR BUILDS WITH THE CHASSIS-MOUNTED DCX POWER SYSTEM.

Engineered in Australia for the demands of local terrain and off-grid living, the OzX DCX Power System sets a new benchmark in RV energy solutions. Featuring fast plug'n'play installation, chassis-mounted design, and industry-leading safety features, DCX delivers unmatched power, reliability, and protection.

Free up valuable internal space and offer your customers the ability to run high-powered appliances —wherever the journey takes them.

WHY DCX?

- Speed of installation – plug and play
- Chassis mounted installation
- The first chassis-mounted battery specifically designed for RVs
- Industry leading safety & compliance – UL1973
- Strong, robust, solid steel enclosure
- Power: enough to power your creature comforts
- The most technically sophisticated battery on the market

AUSTRALIA'S SAFEST BATTERY

NOW AVAILABLE IN 12V

48V

	OFF-GRID SOLUTION	HYBRID-GAS SOLUTION
BATTERY	48V - 14.3 kWh	48V - 7.1 kWh
SOLAR INPUT	5000W, MPPT, MAX 500V	5000W, MPPT, MAX 145V
SOLAR PANEL	SUNPOWER 395W, 75V	
INVERTER	5000W, PURE SINE WAVE	
ELECTRICAL CONNECTIONS	MILITARY SPEC PLUG&PLAY CONNECTORS	
ENERGY TRADING	12V/240V OUTPUTS, 15a MAINS CONNECTION, 2.2KVA INVERTER GENERATOR CHARGING. VEHICLE DC/DC	
SAFETY	UL1973: FULLY CERTIFIED FIRE SUPPRESSION. ELECTRICAL ALARM. IP67 INGRESS PROTECTION	
PRODUCT SUPPORT	FULL DESIGN, INSTALLATION, PRODUCT TRAINING AND POST SALES SUPPORT	
WARRANTY	5 YEARS NATIONALLY	

Available in
14.3 kWh &
7.1 kWh

100AMP 12V
power supply
5000W inverter
5000W Solar
input

12V

BATTERY	12.8V - 628Ah	12.8V - 942Ah
CYCLE LIFE	> 8000 CYCLES @ 100% DoD	
OPERATING VOLTAGE	10-14.6 VDC	
MOUNTING	CHASSIS MOUNT & INTERNAL	
ELECTRICAL CONNECTIONS	MILITARY SPEC PLUG&PLAY CONNECTORS	
INVERTER CONNECTIONS	ALL MAJOR RV BRANDS (VICTRON, REDARC, ENERDRIVE, PROJECTA, BMPRO)	
SAFETY	UL1973: FULLY CERTIFIED FIRE SUPPRESSION. ELECTRICAL ALARM. IP67 INGRESS PROTECTION	
PRODUCT SUPPORT	FULL DESIGN, INSTALLATION, PRODUCT TRAINING AND POST SALES SUPPORT	
WARRANTY	7 YEARS NATIONALLY	

Available in
628Ah & 942Ah

Compatible
with any BMS

DESIGNED & ENGINEERED BY OZXCORP

OzxCorp is an Australian leader in advanced energy systems, specialising in premium high-performance power solutions for off-grid, mobile, and commercial use.

Focused on sustainability, safety, and automotive smart design, OxzCorp delivers innovative technologies such as swappable lithium batteries, inverter/chargers, and scalable solar systems. Serving sectors from RVs to remote infrastructure, all solutions are engineered to meet Australian standards and ensure reliable operation anywhere, anytime.

DISTRIBUTED BY NCE

NCE is Australia's leading supplier of appliances, electronics, and componentry purpose-built for the caravan and RV industry.

With a deep understanding of mobile living, NCE partners with trusted manufacturers to deliver innovative, space-efficient, and road-ready solutions.

From air conditioning and entertainment systems to kitchen and electrical components, NCE provides compliant, reliable products backed by expert support and national distribution.
