BREATHE WITH CONFIDENCE

RYCO N99 CABIN AIR FILTERS

The easiest way to protect a vehicle's passengers from airborne contaminants is to fit a Ryco N99 MicroShield Cabin Air Filter. It's a medical grade face mask for the vehicle's interior air flow.

TRIPLE LAYER PROTECTION

Ryco N99 MicroShield Cabin Air Filters consist of three levels of protection against biological contaminants.

1. Poly-phenol anti-viral layer with natural poly-phenol extracts eliminate virus*, bacteria and allergens
2. Activated carbon odour and gas absorption/barrier
3. Medical grade melt-blown electro-statically charged 0.3 micron layer

Anti-Viral
*H1N1/H3N2

Anti-Bacterial
