

TRIG POINT SERVICE BODY

FORD RANGER, FORD RANGER RAPTOR & MAZDA BT-50 DUAL CAB

TO SUIT:

2011+ Ford Ranger Dual Cab

2011 - 2020 Mazda BT-50 Dual Cab

2018+ Ford Ranger Raptor

Made Tough

- Direct mounting to the chassis. No tray required.
- Rear bar protects canopy and under body boxes from damage.
- Fully sealed doors keep out water and dust.
- Under body boxes, tapered to improve departure angle.
- Aluminium and steel construction gives the perfect balance between light weight and durability.
- Fully lockable.
- 2 large doors give you easy access to the large internal space.

Made Smart

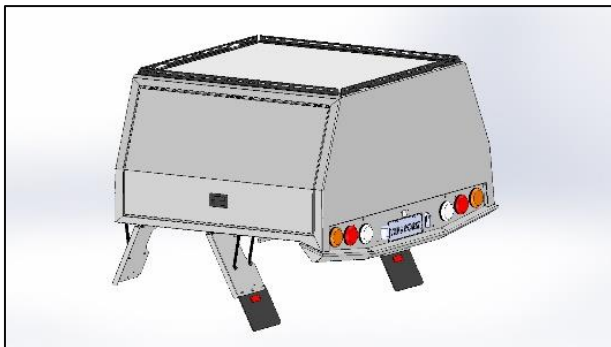

- Monocoque construction removes the need for an internal frame and increases storage areas while reducing weight.
- Fully Compatible with original parking sensors and cameras.
- Integrated with vehicle central locking.
- Flat roof rack built into canopy roof. The lack of an external rack improves fuel economy and reduces overall vehicle height.
- Completely flush low floor with no external lips makes loading a breeze.
- Rear power distribution for additional accessories.

Made in Australia

- Fully ADR compliant.
- Recessed rear LED lights reduce chance of damage.
- Internal LED door switched lights
- 12V power outlet.
- Slam shut latches
- Filtered air vents to cool and circulate air through the service body.
- Fully recessed doors for smooth exterior.
