BEAM OUTBACK SOLAR PANEL SERIES

BEAM OUTBACK 6W SOLAR PANEL

- Made with SunPower ETFE technology giving you the latest and most efficient solar cells for lightweight, portable and stable performance.
- Water resistant. Embossed surface, makes the solar panel more durable, stylish and improves light absorbance by 5%.
- Built in USB regulator, makes your charging more stable and convenient. Micro USB-B and lightening adapter included.
- The outback solar panel has 2 LED's that display the solar panels charging status. The multi-colour light represents the amount of mA being generated while the red light identifies the amount of sunlight captured.
- All BEAM Outback solar panels come with a 12 month warranty

SUPPORTS:
