## WHAT ON EARTH IS A “RUGGED TERRAIN”?

TO PUT IT SIMPLY...

## TAKE A GANDER AT THESE SIZES

RIM	SIZE	LOAD RATING
15	235/75R15LT	116Q
16	245/70R16LT	113S
	265/70R16LT	117R
	245/75R16LT	120Q
	265/75R16LT	123Q
17	265/65R17LT	120S
	265/70R17LT	121Q
	285/70R17LT	121Q
18	265/60R18LT	119S

With a growing list of popular sizes, we fit a wide range of 4x4s and utes. Scan the pineapple to check out what fits your rig.

## A BIT OF THE TECH STUFF

- MORE SPACE BETWEEN THE TREAD BLOCKS.**  
Big grooves so when you drive through water it spits better than a Collingwood supporter.
- BIG, DEEP TREAD.**  
12.1mm deep.
- LIGHT TRUCK CONSTRUCTION.**  
2 ply, 1500 denier carcass with tough steel belts and special silica compound. Equipped to tackle the daily commute plus tear it up in the dirt and gravel.
- SHOULDER BLOCK DESIGN.**  
Shoulder lugs designed to snuggle with the road for stability.
- COOL WHITE LETTERING.**  
Looks better than your rig after a polish.
- EXTRA LARGE TREAD BLOCKS.**  
Four ribs so when you're off-road you get more bite in the dirt.
- DAMAGE PROTECTOR RIB.**  
Tough as nails sidewall protection to combat injury inflicted by the battle between your 4x4 and off-road obstacles.

# ***SAVE YOUR PINEAPPLES***

and go bush on  
Terraforma tyres.
